Locating and Tracking Progress of Proposals in

Tracking the Progress of a Proposal

From the dashboard tabs you can easily determine the status of a proposal in its approval process. Curriculog is icon-intensive. Hovering over icons with your mouse cursor will produce a pop-up hint for the icon’s purpose.

- The number of approval steps required for each proposal is indicated by the number of circles displaying just beneath the proposal name.

- The decision rendered on each step is indicated by an alteration of the circle.

- Orange color - proposal that requires my attention/action. Will also appear on My Tasks tab
- Green color - proposal that I originated, but does not require immediate action by me. Will also appear on My Proposals tab
- Blue color - proposal that does not require my attention/action and I did not originate. Will only appear on All Proposals or Watch

This proposal is part of a committee step. I have made my decision on the proposal, but it has not yet moved on from the step because the committee chair has not yet made the final decision.
• Hovering with your mouse cursor over any of the circles will produce a pop-up with information about the proposal's specific approval step name and status.
