SUBJECT: Tuition Rate for Nonresident and Foreign Students  
for Academic Year 2013-2014

As directed by Section 54.051(d) of the Texas Education Code, Coordinating Board staff has determined that the tuition rate for nonresident students enrolled in public universities and health-related institutions for the academic year 2013-2014 will be set at **\$404 per semester credit hour plus any designated tuition and, when appropriate, Board-authorized graduate tuition charged by your institution.** Exceptions include tuition rates for nonresident students enrolled in medicine, veterinary medicine, dentistry, and law. The tuition rates for those students are provided in other paragraphs of Section 54.051 of the Texas Education Code.

The nonresident tuition set-aside for the Texas Public Educational Grant Program (TPEG) is 3 percent of the basic nonresident tuition rate of **\$404** per hour. TPEG set-asides are not subtracted from designated tuition or Board-authorized tuition.

A description of the nonresident tuition rate calculation and a copy of the relevant statute are enclosed. If you would like more information about the figures, please contact Jane Caldwell at 512-427-6455 or by e-mail at [jane.caldwell@thecb.state.tx.us](mailto:jane.caldwell@thecb.state.tx.us).

**Texas Higher Education Coordinating Board  
Calculation of Nonresident Tuition Rates for Fall 2013**

Section 54.051 (d) of the Texas Education Code requires that nonresident student tuition equal the average tuition charged to a Texas resident attending a public university in each of the five most populous states of the United States. Because most states do not differentiate between tuition and fees, Coordinating Board staff interprets the Legislature’s directive to mean that the combination of base tuition, designated tuition, and fees in Texas should be equal to the average of tuition and fees in the other five most populous states.

The five most populous states other than Texas, and their reported average nonresident tuition and fee figures for 30 semester credit hours (SCH) for the 2013-2014 academic year, are as follows:

California	\$18,351
Florida	19,316
Illinois	20,801
New York	16,001
Pennsylvania	16,273
Total	\$90,742
Average	\$18,148

Data Source: Washington Student Achievement Council (WSASC.WA.GOV).  
All data are preliminary as of 02/04/2013.

The base nonresident tuition for Texas was calculated as follows:

- Average tuition and fees for the five most populous states \$18,148
- Less:
  - Average TX mandatory fees for 30 SCH -2,110
  - Average TX designated tuition for 30 SCH -3,904
- Average nonresident tuition, less fees \$12,134
- Base Texas nonresident tuition per credit hour (\$12,134/30 SCH) \$ 404

To the base nonresident tuition, each institution should add designated tuition and (when appropriate) board-authorized graduate tuition to compute total nonresident tuition.

Nonresident tuition = \$404 per SCH + (Designated Tuition)  
+ (Board-authorized Graduate Tuition)

Section 54.051(d) of the Texas Education Code provides:

Unless a different rate is specified by this section, tuition for a nonresident student at a general academic teaching institution or medical and dental unit is an amount per semester credit hour equal to the average of the nonresident undergraduate tuition charged to a resident of this state at a public state university in each of the five most populous states other than this state, as computed by the coordinating board under this section. The coordinating board shall set the tuition rate provided by this subsection for each academic year and report that rate to each appropriate institution not later than January 1 of the calendar year in which the academic year begins, or as soon after the January 1 date as practicable. In computing the tuition rate, the coordinating board shall use the nonresident tuition rates for the other states in effect for the academic year in progress when the board makes the computation.
