Items are sorted
between mail and
packages. Also
between staff and
student.

Inbound process includes running any mail without a tracking number on our EZ-Flat system to verify the student or staff lives or works on campus. Accountable mail is processed through our internal tracking system and assigned a specific number for each package. Students and staff receive email notifications when the package is processed and also once it has been delivered to their residential hall or department drop.

For pick up at residential hall the student will be required to show their Cougar Card ID to verify identity. The staff member will then scan each package and collect a signature from the student. For staff packages the person stationed at the department drop signs for all packages associated with that drop location.
