Emergency Management Bureau
Emergency Operations Committee

• **Proposed Purpose Statement:**
To improve campus-wide emergency operations through:
1.) campus-wide collaboration,
2.) coordination,
3.) and the development of specific emergency procedures and processes
Understanding the Structure

1. Emergency Management Team
2. Emergency Management Bureau
3. Emergency Management Plan
4. Emergency Operations Committee

- Generator Backup
- Create Plans
- Physical Infrastructure Sub-Group
- Ride Out Team

- Mitigation & Prevention
- Preparedness
- Recovery
- Response
UH Emergency Management Plan

– is an “All-Hazards Approach” plan which provides the framework to assemble, mobilize and coordinate responders and personnel with the goal of effectively managing any incident.

– designed to protect lives and property through an effective use of campus and community resources.

– designed as a flexible emergency management plan utilizing NIMS and ICS.
UH Emergency Management Plan

NIMS

• A comprehensive, nationwide systematic approach to incident management
• A core set of doctrine, concepts, principles, terminology, and organizational processes for all hazards. It is not a detailed operational or resource plan.
• Scalable, so it may be used for all incidents (from day-to-day to large-scale).
• Essential principles for a common operating picture and communications interoperability.
• Standardized resource management procedures for coordination among different jurisdictions and organizations.
