Good Afternoon and Happy New Year,

Unfortunately we have to reschedule the SWAAC Meeting on January 7th to another date and time. We will get back with you to propose a new date and time on a different email.

In a meantime, attached are images and one video of the Brian Tolle installation at Cemo Hall. It was completed just before Thanksgiving. As you can see in the video, the water pours perfectly off the shell (scupper) onto the smaller shell pile. Please let us know whether or not if you accept the piece into the collection. Hope to hear from you shortly.

Have a wonderful day!

Nancy Nguyen
