TEMPORARY SIDEWALK INSTALLED NEXT TO CENTRAL POWER PLANT

A wooden temporary sidewalk was installed next to the Central Power Plant in preparation for a tunnel installation that will run under the sidewalk in order to begin excavation work. The utility tunnel will connect chill water pipes that will provide hot and cold water to the new Cemo Lecture Hall & Academic Center. The temporary sidewalk is expected to be in place until the week of February 16th. Appropriate signage will be posted in the area advising of safety precautions.
