Division of Facilities Management

Press Release

For Immediate Release

UH Parking Lot 4A
Wheeler St. Entrance Closure

The driveway entrance off of Wheeler Avenue east and west bound (currently) into UH Parking Lot 4A will be closed (see attached exhibit) starting Wednesday, August 10\textsuperscript{th} through Tuesday August 16\textsuperscript{th}. The driveway entrance will be completely closed due to new asphalt paving construction in Lot 4A.

This closure is needed to allow for the new asphalt paving work, which will allow for the UH shuttle bus route to be rerouted through Lot 4A and remain on hard surface asphalt paving since the north end of the Lot 4A is currently a crushed concrete gravel parking lot. This work shall be completed prior to the start of the classes for the Fall Semester. Access to Lot 4A is still made from the Calhoun driveway entrance on the east side of Lot4A. Please plan your trips accordingly.

The University of Houston is working to minimize the impact of the construction. For questions about this driveway closure, please contact the W. Michael Davis with University of Houston Plant Operations – Facilities Management at (713) 743-9609 or wmdavis@central.uh.edu.
