FIRE SUPPRESSION TANK TO BE DELIVERED TO HILTON

Houston, Nov. 30, 2012- In the early morning of Tuesday, Dec. 4, Vaughn Construction will be delivering a 25,000 gallon fire suppression tank to the Hilton Hotel project site.

In order to lessen the impact on student and university traffic in the area, the tank will arrive at 5:30 a.m. and off-loading from the trailer is expected to be completed by 7:00 a.m.. Flagmen will be provided and adequate traffic control will be in place while the truck is entering and leaving the site; however, campus traffic may experience some short delays.

The below map illustrates the proposed routing of the tank delivery.

Anyone with questions related to this project can contact Bernie Harless, Senior Project Manager, at BKHarles@Central.UH.EDU or by phone at 832-496-5965.
