PROVIDE INPUT ON SHUTTLE SERVICE BY TAKING ONLINE SURVEY

Houston, Sept. 6, 2013 – Students, faculty and staff are invited to provide feedback on the university’s Cougar Line shuttle service through a short online survey.

To take the survey, click here. It should take between five and 10 minutes to complete. The survey will remain open through the end of September.

“This tool should provide us valuable information that we can then turn around and use to improve our shuttle service,” said Robert Browand, director of Parking and Transportation Services. “We’re constantly looking at ways we can provide a better experience for the UH community.”

The Cougar Line shuttle service operates three routes: Campus Loop, the Outer Loop and the Eastwood/ERP Line. In addition, the ERP Express travels the same basic path as the Eastwood/ERP Line, but does not stop at the Metro Eastwood Transit Center.

The shuttle service, which is operated by Groome Transportation, has incorporated several changes this semester, the biggest being the introduction of a new fleet of buses that are larger, more comfortable and have more amenities than the previous temporary shuttles that were in place in the spring semester.

About the University of Houston

The University of Houston is a comprehensive national research institution serving the globally competitive Houston and Gulf Coast Region by providing world-class faculty, experiential learning and strategic industry partnerships. UH serves more than 40,700 students in the nation’s fourth-largest city, located in the most ethnically and culturally diverse region of the country.
