ELECTRICAL DISTRIBUTION SYSTEM TO BE TESTED AND BALANCED

Houston, Oct. 18, 2013 – The Facilities Management electrical team reports that all repairs to the Cougar 1 and 3 feeders have been completed successfully.

The final step will be to test and balance the electrical distribution system to ensure the integrity of the power being provided to the campus. To minimize the impact to campus, there will be a planned momentary power outage Saturday, Oct. 26, between 4 and 6 a.m. This will include a necessary building systems startup process and verification. Generators will be on standby.

Staff and faculty should plan accordingly by turning off electrical equipment and computers and saving any data. Please make necessary provisions for research equipment and experiments. Building occupants may notice a slight blip. That is normal and to be expected. Please notify the Facilities Service Center at 713-743-4948 if you experience any related issues. Facilities teams will be working to address any issues that may arise.

Not all buildings will be affected during this process. Please refer to the list below for buildings that will be affected. If this information changes, the campus will be notified:

- Roy G. Cullen #501
- A. D. Bruce Religion Center #562
- Cullen College of Engineering 1 #579
- Cullen College of Engineering 2 #581
- School of Music #520
- Calhoun Lofts #518
- Houston Science Center #593
- Oberholtzer Hall #559
- Isabel C. Cameron #586
- Fred J. Heyne #534
- E. Cullen #516
- Student Service Center 1 #524
- Center for Students with DisAbilities #568
- Student Service Center 2 #526
- Campus Recreation and Wellness Center #522
About the University of Houston

The University of Houston is a Carnegie-designated Tier One public research university recognized by The Princeton Review as one of the nation’s best colleges for undergraduate education. UH serves the globally competitive Houston and Gulf Coast Region by providing world-class faculty, experiential learning and strategic industry partnerships. Located in the nation’s fourth-largest city, UH serves more than 39,500 students in the most ethnically and culturally diverse region in the country.
