SECTION: Funding and Budgets
AREA: Tuition and Fees

SUBJECT: Tuition, Fees and Charges

I. PURPOSE AND SCOPE

This document outlines and defines the fees and other charges for which statutory authority is provided to the University of Houston. This document further provides the requirements and process for approval of fees and charges under this authority, roles and responsibilities of persons involved in the process, the budget allocation process, and restrictions on expenditure of the fees. The provisions of this document apply to all tuition, fees and charges imposed by the university on students, employees and the public, in accordance with Chapters 54 and 55 of the Texas Education Code.

II. POLICY STATEMENT

The Texas Education Code places restrictions on tuition, mandates that certain fees be charged, and allows certain other fees to be charged with the Board’s approval. The statutes further state that no institution of higher education may collect from students attending the institution any tuition, fee or charge of any kind except as permitted by law.

All fees and charges or amendments of fees and charges under this authorization require the approval of the Board through the process outlined in this document prior to being assessed. Revenues from the approved fees shall be budgeted and expended in accordance with the guidelines provided in this document.

III. DEFINITIONS

A. Consumables: Those tangible items that are consumed or lose usefulness within one year, or that are made of glass and therefore cannot be guaranteed to remain useful for one year.

B. Compulsory fees (54.5061): Those fees charged to all students enrolled in the university (e.g., Student Service Fee).

C. Discretionary fees: Those fees provided by the Texas Education Code that the Board “may” levy; i.e., the law allows the fees, with the Board’s approval.

G. Materials and supplies: Consumables.

H. Course-related fees or instruction-related fees: Laboratory fees, supplemental instruction fees, or incidental fees that are charged to cover costs of materials or services related to a specific course or laboratory, as allowed by statute.

HI. Voluntary fees (54.5061): Those fees charged only to those students who use the service for which the fee is established.

I. Incidental Fees (54.504): A fee that may be charged to students or prospective students to cover the cost of providing materials or services which are not the subject of a charge under any other statutory authorization. Incidental fees may be course related or non-course related.

IV. FEES AND CATEGORIES OF FEES AUTHORIZED UNDER TEXAS LAW

A. Tuition: Articles 54.051 and 54.008 of the Texas Education Code establishes tuition rates and sets limits related to tuition that may be charged by Texas institutions of higher education.

Designated Tuition: Also, Article 54.0513 of the Texas Education Code allows for the assessment of Designated Tuition in an amount that the Board considers necessary for the effective operation of the University. Funds collected under this statute are considered institutional funds as defined by Section 51.009 of the Texas Education Code and are accounted for as designated funds.

B. Fees: The articles of the Texas Education Code cited in parenthesis in this section provide for the following fees and categories of fees. Effective with the fall 2012 term, the University consolidated tuition and mandatory academic fees into a single per semester credit hour rate. The following fees were consolidated in 2012: supplemental instruction fee, international education fees, and the majority of incidental fees.

1. Supplemental instruction fee (54.051[1]): The tuition statute states that students registered for a course or courses in art, architecture, drama, speech or music, where individual coaching or instruction is the usual method of instruction, shall pay a fee for the individual coaching or instruction, in addition to regular tuition.

2. General property deposit (54.502): A mandatory charge not to exceed $100 is imposed on all students entering the university to insure against losses in laboratories and libraries. This fee, less any loss or breakage, will be refunded only after a student has officially withdrawn or graduated from the university.

32. University Center Fees (54.526) (now known as Student Center Fees): The statute allows a fee not to exceed $150 per student for each regular semester (or $17.50 per summer session) to be set for financing, constructing, operating, maintaining, and improving the University Center. The Board has approved this compulsory mandatory fee. These fees are subject to the responsibilities review of the Student Fee Advisory Committee. An increase in this fee from one academic year to the next must be approved by a majority vote of the student government.
43. **International education fees**: The statute allows, and the Board has approved, a fee of not less than $1 and not more than $4 for each semester or summer session. The fee may be increased only if the increase is approved by a majority of the students at the institution participating in an election called for that purpose. Fees collected under this section shall be deposited into an international education financial aid fund to assist students participating in international student exchange or study programs. The fee may be increased (up to a $4 maximum) only if approved in a student election for that purpose.

45. **Recreational Facility Fee**: A fee, customarily referred to as the Recreation and Wellness Center Fee at the University, not to exceed $75 per semester (may be pro-rated for summer) may be charged to each student to finance, construct, operate, maintain, or improve the student wellness and recreation facilities. The Board may increase the fee, but may not increase the amount by more than 10 percent from one academic year to the next unless the increase is approved by a majority vote of those without a students voting in a general student election called for that purpose. The University has increased this fee following approval of the Student Government Association, President, and the Board of Regents.

65. **Laboratory fees**: The University shall set and collect a laboratory fee in an amount sufficient to cover the cost of laboratory materials and supplies used by a student. The institution may charge a laboratory fee in an amount that is not less than $2 nor more than $30 for any one semester or summer term for any student in any one laboratory course. This fee is limited to laboratories, as defined by the Texas Education Code to be in Section III above, associated with laboratory courses, and the amount of the fee shall not exceed the cost of actual materials and supplies used by the student in the laboratory.

76. **Incidental fees**: A fee may be charged to students or prospective students to cover the cost of providing materials or services which are not the subject of a charge under any other statutory authorization. Incidental fees may be course related or non-course related. Most academic voluntary fees are covered by the incidental fee statute.

The rate of the fee should reasonably reflect the actual cost to the university for the materials or services for which it is collected; balances of incidental fees may only accrue to the extent considered reasonable in the business cycle of the college or department, or to provide sufficient funds for replacement of equipment and furnishings on a regular, but not annual basis. Balances held at the colleges that result as a result of enrollment variances or fluctuations in the cost of materials or services will be expended for the purpose for which the funds were collected, and that use will be stated in an annual report on the use of incidental fees. Funds accruing for the replacement of equipment and furnishings will be accounted for in a manner in which the balance can be readily identified.

87. **Student service Fees**: These statutes allow the university to charge fees to cover the cost of student services that the Board considers necessary or desirable in carrying out the educational functions of the university. The fees may be approved as either compulsory or voluntary; the maximum allowable for all compulsory fees is $150 per semester or summer session (unless approved by a majority vote of the students voting in an election).
held called for that purpose or by a majority vote of the student government at the institution under this statute.) The Board has approved two compulsory student service fees, including the student service fee and the Health Center fee. The University has achieved a new threshold of $250 for the Student Services Fee following approval of the Student Government Association, President, and the Board of Regents.

Student services, under this statute, cover textbook rentals; recreational activities; health, hospital, and other medical services; group hospitalization; intramural and intercollegiate athletics; artists and lecture series and other cultural entertainment; debating and oratorical activities; student publications; student government; student fees advisory committees; student transportation services; and any other student activities and services specifically authorized and approved by the Board, except those authorized by any other section of the Education Code.

98.9. Rentals, rates and charges (55.16): The Board is authorized by this statute to impose rentals, rates and charges upon students and others for the occupancy, services, use, and/or availability of all or any of its property, buildings, structures, activities, operations, or other facilities, in such amounts and in such manner as may be determined by the Board.

The Board is not required to charge students enrolled in different degree programs at the institution the same rentals, rates and charges.

1090. Fees and charges for services to the general public (54.506): The Board must approve schedules of minimum fees and charges for services performed by any department or unit of the university for students and the public. The schedule shall conform to the fees and charges customarily made for like services in the community. Examples of such services include the Optometry Clinic, the Speech and Hearing Clinic, or reading and other clinics.

1101. Fees for continuing education courses (54.545): In accordance with Section 54.545 of the Texas Education Code, the Board delegates authority to the Chancellor, or his/her designee, to set fees for each continuing education course at each institution in an amount sufficient to permit the institution to recover the costs of providing the course. Fees will be charged only for a course for which the institution does not collect tuition or receive formula funding, including an extension course, correspondence course, or other self-supporting course. Information regarding fees charged for continuing education courses shall be on file at each institution in the Office of the President.

1212. Vehicle registration and other fees related to parking and traffic (54.505): The Board is authorized by this statute to charge reasonable fees to students, faculty, and staff for registration of vehicles. The Board is also authorized to charge reasonable fees for parking facilities, enforcement and administration of parking and traffic regulations. These fees are voluntary.
