Featuring
a Spanish Language
Immersion Program

Welcome

The early years are truly amazing and each day we do our best to bring education and fun together. We believe a happy child is a healthy child!

Multi-age Classrooms & Continuity of Care

- Explore our unique setting, environment and spaces we create for the children.
- We utilize multi-age classrooms to assist the overall development of the child within the family-like community of learners.
- The program is organized and staffed to minimize the number of group, teaching staff and classroom transitions experienced by the child.

Language Immersion Program

- Immersion is the way we all learn our first language and is the most effective and fastest growing style of foreign language education currently existing in the U.S.
- Immersion is simply a style of teaching that allows a student to become proficient in a second language by interacting within the classroom completely in a foreign language; we all learn our first language by hearing it and interacting within it.

Program Quality

Southern Association for Colleges & Schools (SACS) Accredited
National Association for the Education of Young Children (NAEYC) Accredited (*Cameron site pending one year anniversary)
Texas Department of Family and Protective Services (TDFPS) Licensed

How We Make a Difference

Guiding the Present: We challenge children at each age level through developmentally appropriate activities based on their unique abilities.

Inspiring the Future: We view activities in which a child engages in as an opportunity to teach. Our goal is to help children develop the intellectual and social skills needed to excel in a rapidly changing world.

Building a Partnership: We are committed to working and communicating with parents. By creating a partnership we can give children exactly what they need to become successful learners.

Cultural Diversity

We believe a learning environment that fosters respect for cultural diversity and utilizes an eclectic approach to education allows for optimal growth and development of young children.

Appreciation of the Arts

Children are provided varied opportunities to gain an appreciation of art, music, drama and dance in ways that reflect cultural diversity.

The Children's Learning Centers offer onsite opportunities for children to engage in enrichment programs that enhance their on-going development.

"I wanted to thank you for doing such a good job taking care of my daughter. I had no worries when I dropped her off every day because I knew she was happy there and learning so much."

-P. Soto

Staff

Our staff is dedicated to ensuring that each child's needs are met in a stimulating and developmentally appropriate environment that is joyful, safe, warm and secure. We want children to enjoy their formative years and every parent to feel confident that their child is well cared for.

- Serves children ages 3 months to 5 years old
- Follows the UH Staff Holiday schedule
- Snacks provided/Catered lunch option available
- Center tours available by appointment
- Language Immersion Program

"Kindergarten is going wonderfully for my son. Because of the education he received at CLC he is reading at a very advanced level and the homework he has is very easy for him to do. He is fitting in very well, which I think is because of the socialization he experienced in preschool. Thank you for nurturing and loving my child."

-A. Holland
