WEBSITE FOR FACILITIES/CONSTRUCTION MANAGEMENT
Facilities/Construction Management comprised of Facilities Planning and Construction (FPC) and Facilities Services (FS) has launched a parent website.

The website was created to give the UH Facilities department a portal for the two groups that are overseen by Associate Vice President/Associate Vice Chancellor David Oliver.

The F/CM website gives links to those two websites along with links to the Outage Notifications Calendar and the 4 Ways to FIX-IT. Both the FPC and FS websites will remain intact and will continue to house the majority of the UH Facilities information.
