

Senior Honors Thesis Prospectus Approval Form

To the student:

Attach a **prospectus**, which outlines your project and briefly explains its relevance to the field, a **timeline for completion**, and the **Senior Honors Thesis Checklist** to this form. The prospectus should be 3-5 double-spaced pages in length and also include a bibliography. Bring this form, the prospectus, timeline, and checklist to your thesis director for approval.

After securing the approval from your thesis director, bring the form, prospectus, timeline, and checklist to your second reader. The second reader should then sign this form. Once these steps are completed, bring the paperwork to the Office of Undergraduate Research, Room 212W in The Honors College. You will be notified by email when the Honors Reader has been assigned to serve on your committee. This form, your prospectus, timeline, and checklist should be submitted no later than the start of the semester you are beginning your Senior Honors Thesis coursework.
