Press Release

Calhoun Lofts Project Topping-Out

November 6, 2008: Pepper-Lawson Construction hosted an informal topping-out Bar-B-Q on October 30th to celebrate the University of Houston Calhoun Lofts project. More than 550 workers attended the event which was held at the construction site in the partially completed first floor lobby. Project architects, engineers, project managers, and other campus officials mingled and enjoyed the festivities. Construction began last October and is now 55% complete. The official opening is set for August 2009.

The 1000-bed loft-style living facility will feature a host of amenities including a theater room, retail stores, Wi-Fi, coffee bar, courtyards, and many rooms will enjoy a view of downtown Houston.

For more information, please contact Mei Chang, senior project manager, at 713-743-5729.

Calhoun Lofts construction site buzzes with activity
