Faculty and Departmental Instructional Support (FDIS) provides faculty with the resources needed for teaching in the online and traditional face-to-face class environments.

Some of the services offered by the FDIS group include:

- Consultations focusing on tools, strategies, and resources which best solve instructional problems
- Hosting campus-wide faculty events to learn what new technologies are available to help with course delivery and what peers are working on
- Online program development
- Consulting and scheduling for the Active Learning Classroom
- Troubleshooting and workshops for university-supported applications

TECHNOLOGY RESOURCES

- Respondus—build your exams more easily
- Respondus Lockdown Browser—secure your tests in the online environment
- Turnitin — check your students’ original written work
- Turning Point Student Response Pads (clickers)—engage your students in class
- Collaborate — interactive conferencing tool and virtual classroom
- Mediasite and MyMediasite — create and share lectures, presentations, learning modules, assignments and more
- UH YouTube — post videos to the university’s YouTube video portal

FDIS TEAM

- Dr. Teresa Acosta, Director FDIS
