

Dr. Arnold Eskin

Advisor: Society for Research on Biological Rhythms, *Journal of Biological Rhythms*

Member: American Physiological Society, Society for Neuroscience

Expert: Memory formation, biological clocks

Dr. Stuart E. Dryer

Advisor: National Institutes of Health, National Science Foundation

Member: Society for Neuroscience, International Brain Research Organization, The Physiological Society (London)

Expert: Brain development, biological clocks

Dr. Anne H. Delcour

Reviewer: National Institutes of Health

Member: American Society for Microbiology, Biophysical Society, New York Academy of Sciences

Expert: Bacterial metabolism, antibiotic susceptibility

Dr. Paul Hardin

Advisor: *Journal of Biological Rhythms*

Member: Genetics Society of America, Society for Neuroscience, Society for Research on Biological Rhythms

Expert: Biological clocks, molecular genetics of behavior

Occupations:

Biologists, Experts, Professors, University of Houston

The goal of the University of Houston is quite simple. To bring the best minds and resources in the world to Houston. It's paying off. Through their scientific investigations funded by the National Institutes of Health and many other agencies, University researchers hope to find and understand the molecular basis for brain function and thereby identify new strategies to restore damaged nerve cells, reduce dementia, treat Lou Gehrig's disease, and improve antibiotic effectiveness. That's what makes a great university a great university.
