Occupations: Superintendents, Directors, Teachers, *Alumni*,
University of Houston

The goal of the University of Houston is quite simple. To bring the best minds and resources in the world to Houston. It's paying off. Over the last 30 years, local Houston schools have employed over 20,000 educators from the university's College of Education. And the *Journal of Technology and Learning* has cited the College as one of the top three schools in the nation for integrating technology and teacher training. That is what makes a great university, a great university.
