INTRODUCING HOUSTON

Houston isn’t a college town, it’s a college city. Houston is growing fast because Houstonians are ambitious. They’re used to living on the frontier, as entrepreneurs, researchers, and innovators. It’s an environment that will inspire you as a student, and when you graduate, this city has more opportunities for your career and your life than you’ll find most anywhere.

Your life is one destination after another, each a new beginning. High school leads to college, college leads to degrees, and degrees lead to careers, promotions, and a life powered by ambition.

And when you join the University of Houston, your ambition can take you anywhere.
