Creating Communities Mini-Grants

Funding is available through a grant to the University of Houston from the Howard Hughes Medical Institute Undergraduate Education program for student groups in the College of Natural Sciences & Mathematics to support activities that create opportunities for interaction for the membership and/or promote career development. Requests for funding will be reviewed until funds are exhausted. Funds can be requested to sponsor on-campus events, joint projects, and advertising. Funds cannot be used to support travel. Requests should be for no more than $1,000. Applications should be turned into Dr. Donna Pattison in 108C Science Teaching Laboratories Building.

Name of Student Organization:_____________________________________________________

Faculty Advisor:_________________________________________________________________

Student Organization Contact Information:

Name:________________________________________________________________________
Phone number:___________________________________________________________________
e-mail address:_________________________________________________________________

Amount of funding requested:_____________________________________________________

Date by which funds are needed:__________________________________________________

Please attach a one page summary explaining the nature of the request. Include a budget which lists a breakdown of costs for materials, honorariums, equipment costs, etc.

Signature (Group President)                         Date

Signature (Faculty Advisor)                         Date
