All students will wear the designated nursing student uniform provided by UH SON in all clinical settings unless otherwise specified by the clinical instructor. Clinical agency dress code policy must be followed as well as the SON Program policy. Failure to comply will result in the student being dismissed for the day and credited with an absence, which may result in the inability to meet the course objectives.

1. Uniforms will be worn only in the clinical area and simulation laboratory settings as directed by course faculty.
2. Uniforms will be clean, wrinkle free and well fitted.
3. The UH SON student photo ID will be visible on the left chest of the scrubs or lab coat at all times, as directed by faculty.
4. Black shoes must be all leather with closed toes and closed or strapped backs. Socks must be worn and the color should match the shoe.
5. Hair must be a natural color. Shoulder length hair must be pulled back and secured. Long bangs are to be secured out of the eyes.
6. Beards and other facial hair should be clean and neatly trimmed.
7. General cleanliness and good grooming are expected at all times. Heavy makeup, perfumed scents or strong body odor are prohibited.
8. Jewelry is limited to one wedding set, a watch, and one set of stud earrings.
9. Body piercings and tattoos must be covered in a manner as to not draw attention to these adornments.
10. Nail polish/artificial nails are not permitted.
11. Lab coats may not be worn in the clinical facility while administering patient care.
12. Gum chewing is not permitted in the clinical areas.
13. Dress for pre-clinical includes a lab coat over street clothes with a photo ID badge, as directed by course faculty. Street clothes must be neat and professional. Blue jeans or other denim clothing is not permitted. No open toe, open heel, or high heel shoes are permitted.
