Drop or Withdraw from course(s) BEFORE posted deadlines?

Have you …
___ spoken with the instructor?
___ explored all options and campus resources to try to successfully complete the course
   (eg Center for Students with Disabilities, Learning Support Services, CASA, academic advisor?)
___ checked with appropriate advisors from areas of financial aid, international student services, student athletics,
   health insurance, housing etc on impact a drop/withdrawal may have?

If your decision is still to reduce your course load (to drop a course) or to fully withdraw, and it’s BEFORE posted drop deadlines:
___ Go straight to your student account via access.uh.edu to drop/withdraw from your courses.
___ (full withdrawals from all courses in a term do not count against your 6Ws limit)
___ Complete and submit a Term Withdrawal Request form via your myUH Student Self-Service access before deadlines.
___ See the Office of the University Registrar for assistance.
___ See academic advisor to plan successful return to coursework for timely degree completion.

Military Withdrawal?

See Office of the University Registrar for assistance.
See UH Veteran Services if other assistance needed.

Emergency withdrawal? Drop or withdraw from courses AFTER posted deadlines?

The Office of Undergraduate Academic Affairs provides assistance to review, approve and process emergency withdrawals and offers referral assistance for student support. If a personal emergency is preventing you from successfully completing a course/courses and it is after the deadline to drop/withdraw, check if you may be eligible for a medical/administrative withdrawal. Understand that your financial aid may be impacted and that financial refund deadlines still would apply.

See reverse side for Emergency Withdrawal Checklist.

### Frequently Answered Questions

**MEDICAL WITHDRAWAL?**
Student requests to be withdrawn from all courses in a specified term when prevented from course completion for medical reasons. Verifying documentation is typically a letter from the student’s physician/psychologist.

**ADMINISTRATIVE WITHDRAWAL?**
Student requests to be withdrawn from all courses in a specified term when prevented from course completion for non-medical reasons. Requires documentation verifying circumstance such as: letter from doctor showing primary caregiver for seriously ill family member, death certificate of immediate family member, letter of legal detention. Students withdrawing under military orders prior to “W deadline” may be referred to Registrar’s Office.

**DROP FROM COURSE PAST DEADLINE?**
The undergraduate policy on dropping courses permits that a student may request to be dropped from a course with a W past the deadline for reasons of personal emergency. Students must submit the request in writing with supporting documentation to UAA no later than 90 days after the posting of the grade. Standards of review for such requests are similar to those for administrative/medical term withdrawals, showing clear justification of how circumstances prevented completion of only the one course(s) versus requesting a term withdrawal for all courses.

**LIMIT OF 6Ws?**
Term withdrawals do not count against the 6Ws limit. Students should not rely on medical withdrawal to immediately waive 6Ws or to immediately clear an academic suspension. There are approval and processing deadlines in colleges that may prohibit immediate clearance. Grade changes are not immediate. Students with passing grades are encouraged to seek other academic options or must sign a statement accepting loss of passing grades.

**ACADEMIC SUSPENSION?**
Students help expedite the process by submitting all completed paperwork promptly. Depending on the situation and submission of documentation it may take over 3-4 weeks (particularly during summer when instructors may be away from campus) for final approval and before a grade change may be posted.

**PASSING GRADES?**
Refunds are not guaranteed and are administered by Student Financial Services following the State mandated refund schedule. UAA does not administer refunds or consider financial appeals.

**COMPLETION TIME?**
For completed medical withdrawals, students must show documentation of support that they are ready to successfully return to the university; usually letter from same doctor who supported the request for withdrawal. Students with medical enrollment holds who are registered for future term courses may expect enrollment cancellation if documentation (described below) to support return is not submitted. Students must reapply for admission to UH if they have a) not been enrolled for 13 months and/or b) are returning from having sat out the required term for academic suspension.
