

Parking Alert for Lot 19F Parkers

Utility work for the Cemo Hall construction project will require the closing of the access drive leading to parking lot 19F during the week of Spring Break. The drive will be closed to all traffic except deliveries and emergency vehicles beginning Saturday, March 14, 2009 and will remain closed until Saturday, March 21, 2009.

Employees parking in Lot 19F will need to find an alternative parking location during that time period. Student Lot 18A offers the closest parking and being that it's the week of Spring Break there should be plenty of available spaces. Those needing access to disabled parking may park in any non-reserved parking space in the ungated portion of Lot 19E. The appropriate disabled parking placards must be displayed from the vehicle's rearview mirror.

We appreciate your cooperation and please accept our apology for any inconvenience.
