

UNIVERSITY of HOUSTON

Parking and Transportation

VENDORS

Vendors making deliveries to campus must use the timed loading/unloading zones. Those on campus for repair purposes that will take longer than 20-minutes may park in unrestricted parking spaces. Vehicles parked in loading/unloading areas that are displaying a permanent company logo need not display a UH parking permit. Those using private or unmarked vehicles or those parking in nonloading area spaces must stop at the Visitor Information Booth to receive a temporary parking permit.

CONTRACTORS

Contractor parking permits are issued through the Department of Facilities Planning and Construction. Permits are valid in the fenced contractors parking area north of the University Center or inside the boundaries of the job site. Contact your UH Project Manager for more details.
