I. Course

A. Catalog Description

Cr. 3. (3-0). Prerequisite: Completion of the foundation curriculum or permission of the instructor. Theoretical knowledge of human behavior in the social environment for social work practice.

B. Purpose

This course focuses on theoretical knowledge of human behavior in the social environment. A person-and-environment perspective is used to compare and contrast biological, social and psychological theories used in social work practice.

II. Course Objectives

Upon completion of the course, students will be able to:

1. Critically compare and contrast selected biological, social and psychological theories of human behavior that are used in social work practice;
2. Discuss the underlying assumptions about social and economic justice, empowerment and social change from various theoretical perspectives;
3. Discuss the underlying assumptions about human growth and development from various theoretical perspectives;
4. Analyze the ways in which various theoretical perspectives address diversity in individuals, groups, families, organizations and communities;
5. Delineate major research issues related to the evaluation of theories; and
6. Describe the ways in which the study of comparative human behavior theory can inform research, policy and practice in social work.
III. Course Content

This course includes content on systems theory, conflict theory, theories of assimilation, acculturation, bicultural socialization and ethnic identity, neurobiology, psychodynamic theory, lifespan development, symbolic interaction theory, feminist theory, and theories of cognitive, moral and spiritual development. The emphasis is on comparing theories and examining their application and utility for evidence based practice.

IV. Course Structure

The course is organized to provide a framework for integrating, synthesizing and critiquing various theories of human development in the context of gender and cultural diversity. Class lectures, discussions, and exams are on delivered Blackboard Vista. Lecture material is intended to supplement, not review, the assigned readings. Because the readings are a major source of learning, students are expected to study this material as it is assigned.

V. Textbooks

Required

All additional required reading assignments will be placed on Blackboard.

VI. Course Requirements

A. Reading Assignments

A class schedule with all assignments and due dates are below.

B. Written Assignments

There will be one (1) graded paper required for this class and an associated class presentation. Guidelines for this paper are below.

C. Exams
There will be one (1) required comprehensive final examination.

D. Class Attendance, Orientation, and Participation on Blackboard

There is a mandatory in class orientation on Monday, January 13th, from 4-7 PM; room TBA. Students who fail to attend this orientation will be dropped from the class.

I will be using Blackboard for exams in this class and all class members are REQUIRED to sign onto Blackboard by January 19th and check it weekly (at a minimum). This allows me to have instant communication with everyone in the class.

Students will also be required to post a brief introduction and picture of themselves and reply to one ungraded discussion board by January 19th. Although these two assignments are ungraded, they are required and must be submitted by the due date.

Participation in 4 online class graded discussions will be required. In addition, for each graded discussion, students must also respond to at least 2 other student's posts. A grading rubric for all discussion boards is posted on Blackboard.

You can also earn extra credit towards your final grade if you participate in a meaningful way and contribute to more than the 4 required discussions. We will discuss this more fully at the class orientation and the credit granted for extra posts is posted on Blackboard.

In-class attendance is required on the two dates that are listed on the class schedule below for the following classes:

   Mandatory orientation
   Midterm paper presentations

In addition, there will be an optional in class meeting on Saturday, April 26th, from 2-5 PM for final course evaluations and exam review.

VI. Evaluation and Grading

Grading will be based on the quality of paper and final exam. Grades will be calculated as follows:

   Discussions  20%  (4 discussions @ 5% each)
   Midterm paper 35%

Syllabus for SOCW 7327 (23223) Spring 2014
Exam  45%

Late submissions for graded discussions will not be accepted. Once a discussion board closes, it will not be reopened. Late submission of papers or missing the due date for the exam will incur a penalty of 5 points subtracted from the grade of the assignment for each day late. Failure to post to the two required ungraded boards by the due date will result in a formal action plan.

The following standard grading scale has been adopted for all courses taught in the college.

\[
\begin{align*}
A &= 96-100\% \text{ of the points} \\
A- &= 92-95.9\% \\
B+ &= 88-91.9\% \\
B &= 84-87.9\% \\
B- &= 80-83.9\% \\
C+ &= 76-79.9\% \\
C &= 72-75.9\% \\
C- &= 68-71.9\% \\
D &= 64-67.9\% \\
F &= \text{Below 64}\% \\
\end{align*}
\]

Please refer to the UH Graduate and Professional Studies catalogue for the university policy regarding a grade of "incomplete." Incompletes will be given only in accordance with this policy.

MIDTERM PAPER ASSIGNMENT

THE DUAL PERSPECTIVE THEORY: A COMPARISON OF CULTURES AND CRITICAL EXAMINATION OF ERIKSON’S LIFESPAN THEORY

For this assignment you are to work in small groups of 4-5 persons and choose an ethnic, racial, or cultural group that you would like to learn more about (preferably one that is unfamiliar to all group members). This is a group paper and all members of your group are responsible for the final product submitted to me. The grade will be a group grade.

This assignment will be presented in a two-part paper as described below.

Part I. Utilizing the Dual Perspective (Norton, et al., 1978), prepare an outline showing a comparison of cultures that contrasts the nurturing system of your chosen group (in its most contemporary form) with the sustaining system of dominant Anglo society. Your comparison should address all of the following:

1. Structural differences;
2. Differences in values and beliefs;
3. Differences in religious/spiritual beliefs; and
4. Differences in customs

Part I must be presented in outline form (see the attached handout), and the suggested length is approximately 3-4 pages PLUS a reference list attached to the back of this section.

PART II. Using Erikson’s theory of epigenetic life span development, discuss at least one developmental stage or developmental conflict that would be problematic for your
chosen culture due to incongruence between your culture’s nurturing system and the norms of the Anglo sustaining system, as embodied in Erikson’s theory.

In this section you should be critiquing Erikson’s theory and looking for theoretical constructs based on dominant Anglo norms that do not apply to your cultural group.

Part II must be written in narrative form, double-spaced, and the suggested length is approximately 2 pages PLUS a reference list attached to the back of this section. All papers must be typed using an Arial 12 point font and 1 inch margins, contain full references and citations, and the usual rules of spelling and grammar should be followed. **MAXIMUM LENGTH for the entire paper is 6 pages PLUS references. Separate reference lists are required for each section, attached to the back of each section. Internet sources (other than online journals) should be kept to a minimum and references must reflect scholarly articles and/or books. APA format is required.**

You must inform the instructor by the date listed on the class outline as to who your group members are and which racial, ethnic, or cultural group you have chosen to study. **The due date for this paper is on the class outline. You will also be giving a class presentation on this date and attendance and participation is required of all students.**

**POLICY ON ACADEMIC DISHONESTY AND PLAGIARISM**

Students are expected to demonstrate and maintain a professional standard of writing in all courses, do one’s own work, give credit for the ideas of others, and provide proper citation of source materials. Any student who plagiarizes any part of a paper or assignment or engages in any form of academic dishonesty will receive an “I” for the class with a recommendation that a grade of F be assigned, subsequent to a College hearing, in accordance with the University policy on academic dishonesty. Other actions may also be recommended and/or taken by the College to suspend or expel a student who engages in academic dishonesty.

All papers and written assignments must be fully and properly referenced using APA style format (or as approved by the instructor), with credit given to the authors whose ideas you have used. If you are using direct quotes from a specific author (or authors), you must set the quote in quotation marks or use an

indented quotation form. For all direct quotes, you must include the page number(s) in your text or references. Any time that you use more than four or five consecutive words taken from another author, you must clearly indicate that this is a direct quotation. Please consult the current APA manual for further information.

Academic dishonesty includes using any other person’s work and representing it as your own. This includes (but is not limited to) using graded papers from students who have previously taken this course as the basis for your work. It also includes, but is not limited to submitting the same paper to more than one class. If you have any specific questions about plagiarism or academic dishonesty, please raise these questions in class or make an appointment to see the instructor. This statement is consistent with the University Policy on Academic Dishonesty that can be found in your UH Student Handbook.
