A brief introduction to project management at Exxon Mobil

Speaker

Ms. Liliana Labanca

Affiliation

**CCIT- Corporate Others Program
Manager**

When: **10 AM,**

Friday, 10th November, 2006

Where: **Room 102 D, Engineering Bldg
D2**

Short Bio

Ms. Labanca studied Chemical Engineering at the University of Buenos Aires and received her Masters Degree in Systems Engineering. She worked with ESSO Petrolera Argentina, an Exxon Mobil affiliate, where she worked for 26 years moving up the ranks through the IT department. In 2003, while managing IT in Argentina, she was transferred to the Exxon Mobil Global Services Company in Houston, Texas to manage the Americas Projects organization. In 2005, she joined her current job, IT Corporate Projects Manager.

Description

The talk is going to be about Exxon Mobil, including a brief description of the company and a snapshot of its organization. Also, she will be talking about project management in Exxon Mobil, how an IT project is structured, executed and controlled. Finally, she will conclude with the opportunities that Exxon Mobil has to offer to new hires.
