MINOR CONSTRUCTION – LOTS 16C and 16F

Houston, November 12, 2010 – Parkers in lots 16C and 16F should expect minor parking displacement due to the construction for the installation of automated parking meters in these lots next week.

Beginning Monday crews will be excavating three areas in these lots. This will involve the removal of the upper layer of asphalt in these areas. On Wednesday and Thursday crews will be boring in these areas to install lines necessary for the meters.

Impact on parkers is expected to be minimal. Traffic flow will be impacted in lot 16C, and six spaces will be affected in lot 16F. For current construction updated customers are advised to check the Parking and Transportation Website at www.uh.edu/pts, or follow updates on the Parking and Transportation Facebook and Twitter pages.

About the University of Houston

The University of Houston is a comprehensive national research institution serving the globally competitive Houston and Gulf Coast Region by providing world-class faculty, experiential learning and strategic industry partnerships. UH serves more than 38,500 students in the nation’s fourth-largest city, located in the most ethnically and culturally diverse region of the country.
