Delegate Defined

A delegate is a person with permission to make and receive calls and messages on behalf of another. Deans, directors and department heads commonly use a delegate, as well as department phones where a back-up person is needed to answer the phone. If a phone must be answered at all times, delegation provides a solution. Delegation not only routes incoming calls to multiple phones, but delegates can be given access to voice mail and missed call messages.

Set-up Delegate Access in Lync 2013

Microsoft Lync is used to manage phone delegates.

To set-up delegate access in Lync:

1. Open Lync.
2. Sign-in to Lync as the person who wants to give delegate permission.

When creating a delegate for a department phone, the sign-in address is ld_xxxxx@central.uh.edu where xxxxx is the 5-digit department phone number. The password for a department account is available from your local IT support.

3. Click the Options button.

4. Click Call Forwarding in the list on the left side of the Options dialog box.
5. Select Simultaneously Ring.
6. Click the drop-down menu next to Simultaneously Ring and select My Delegates.
7. In the Delegates dialog box that appears, click Add.

Each desired delegate must be a Lync contact. For information on adding a contact in Lync, see UIT document *Using Lync 2013 for Windows*.

8. Select the desired contact from the Choose a Delegate dialog box.
9. Click Ok.

10. Click Ok in the Delegates dialog box.
11. Click Ok in the Options dialog box.

With Simultaneous Ring on and My Delegates selected, all incoming calls ring in multiple places. Delegates can see which number an incoming call is ringing and choose whether or not to answer it. If no one answers a delegated number, the call will forward to the voice mail of the person delegating.

**Set-up Delegate Access Using Outlook 2013**

Multiple people can access voice mail messages that are recorded on a department phone (or anyone’s phone). To do this, you must use Outlook to set-up delegate access. Sign-in to Outlook as the person who wants to give delegate permission. When creating a delegate for a department phone, sign-in to Outlook with `ld_xxxxx@central.uh.edu` where `xxxxx` is the 5-digit department phone number. The password for a department account is available from your local IT support.
To set-up delegate access, in Outlook:

1. Open Outlook.
2. Sign-in to Outlook as the person who wants to give delegate permission.
3. Click Mail near the bottom left corner of the window.
4. Right-click on the email address located at the top of the folder list.
5. Select Data File Properties from the menu that appears.
6. In the Properties dialog box, click the Permissions tab.
7. Click Add.
8. In the Add Users dialog box, locate the person receiving delegate access, click Add.
9. Click OK.
10. In the Properties dialog box, change the Permission Level of the delegate to **Owner**.

![Permissions Dialog Box]

11. Click **Apply**.
12. Click **Ok**.

---

**Add a Mailbox**

After delegate permission is granted, the Mailbox must be added for every person who was granted permission. Sign-in to Outlook as the person receiving delegate access.

To add a Mailbox:

1. Open **Outlook**.
2. Sign-in as the **person who received delegate access**.
3. Click **Mail** near the bottom left corner of the window.

4. Right-click on the **email address** located at the top of the folder list.

5. Select **Account Properties** from the menu that appears.
6. Click **Account Settings**.
7. Select **Account Settings** from the drop-down menu.

8. In the Account Settings dialog box, click **Change**.

9. In the Change Account dialog box, click **More Settings**.
10. In the Microsoft Exchange dialog box, click the **Advanced** tab.
11. Click **Add**.

12. In the Add Mailbox dialog box, enter the **name of the person** or department.

13. If more than one potential match is found, select the desired name in the Check Name dialog box.
14. Click **OK**.
15. In the Microsoft Exchange dialog box, click **Apply**.
16. Click **OK**.
17. In the Change Account dialog box, click **Next**.
18. Click **Finish**.
19. In the Account Settings dialog box, click **Close**.

---

**Open a Delegated Mailbox**

After a delegated mailbox is added, that mailbox can be found in your Outlook folder list. Messages in a delegated mailbox can be sent, read, or deleted as if it were your own mailbox.

**Information for Online Meetings and Conference Calls**

There are four classifications for meeting participants:

- **Organizer** – the person who schedules a meeting or conference call.
- **Leader** – the first person to dial-in to a conference call from a Lync phone.
- **Presenter** – can invite others to an active meeting or conference call. During a meeting, a Presenter can change the classification of other Presenters to an Attendee. Only a Presenter can record a meeting, distribute files and share items, such as the desktop, a program, whiteboard and conduct a poll. By default, all faculty and staff members are a Presenter. If desired, the meeting Organizer can change the permissions level of any participant from Presenter to Attendee before the Meeting Invitation is sent. This is done using Meeting Options. For information on accessing Meeting Options, see UIT document [Conferencing Quick Reference for Windows](#).
- **Attendee** – can initiate instant message (IM) conversations and view items that are shared.

By default, meeting participants who dial-in from a non-Lync phone (Rolm, Cisco, or off-campus) must wait in the lobby until a Leader dials-in. The first person to dial-in from a Lync phone becomes the Leader and anyone waiting in the lobby is automatically connected to the meeting.

If you want to be a Leader or need to be (for instance, if all other participants are not affiliated with UH) and you dial-in from a non-Lync phone, you must enter your Dial-in PIN to become the Leader. The Dial-in PIN is identical
to the Sign-in PIN for CX600 phones. If you can’t remember your Dial-in PIN or if you never received a Dial-in PIN, go to dialin.central.uh.edu to reset your PIN or obtain your first PIN.

Before sending a Meeting Invitation, the Organizer can change the Meeting Options. It is very important to change Meeting Options before sending the Meeting Invitation because changing the options can potentially change the meeting link and Conference ID. The Conference ID is assigned by Lync and appears in the Meeting Invitation. Meeting options include:

- Everyone waits in the lobby except the Organizer
- No one waits in the lobby
- Only the Organizer is a Presenter

**Schedule a Meeting on Behalf of Another**

Using Outlook, a delegate with the proper permissions can schedule a meeting on behalf of another. In the steps below, “dean” is used as the person for whom we are scheduling a meeting.

To schedule a meeting:

1. Open Outlook.
2. Open the dean’s calendar.
3. Select a time and click **New Lync Meeting** on the toolbar.
4. Add the *invitees* in the To: field.
5. Type a *subject* in the Subject: field.
6. Click Send.

To customize the meeting options:

1. Before sending the Meeting Invitation, click **Meeting Options** on the toolbar.
2. In the Lync Meeting Options dialog box, select the desired options.
3. Click OK.
4. Click Send.

The invitation includes your name, the dean’s name, and the meeting information, including the meeting link and audio information.
To start an unscheduled meeting on behalf of the “dean”:

1. Open Lync.
2. Click Meet Now on the menu bar and select For [the_dean], or click the arrow next to the Options button and select Meet Now -> For [the_dean].

3. In the Group Conversation window that appears, click **Invite More People**.

A list of your contacts appears in the Invite by Name or Phone Number dialog box.

4. Using your mouse, highlight the names (including the dean, if desired) of the contacts you want to invite by simultaneously holding down the `<CTRL>` key on your keyboard while you click the names.
5. Invite someone who is not in your contact list by typing a 5-digit or 10-digit **phone number** in the Search field.
6. Click **OK**.

**Note:** Drag and drop names from your Contact list to the Group Conversation window for a faster way to invite others.

Each person invited receives a **Meeting Notification**. Clicking the Meeting Notification allows them to join the meeting. The name of each person appears in the Group Conversation window as they join the meeting.
To end the meeting, close the Group Conversation window.

Start a Conference Call on Behalf of Another

To start a conference call on behalf of another:

1. Open Lync.
2. Using your mouse, highlight the names of the contacts you want to invite by simultaneously holding down the <CTRL> key on your keyboard while you click the names.
3. Right-click the selection and select Start a Conference Call -> For [the_dean] -> Lync Call.

To end a conference call, close the Group Conversation window.
