Project Overview

The project calls for the complete renovation of the Moody Towers Dining Hall to accommodate the increased student population as a result of the proposed new Freshman Housing Village. The facility will consist of approximately eight serving concepts, 550 seats, and a private dining room of approximate 1,000 sq. ft.

The proposed plans include the addition of two exterior windows on the west side of the building, the removal of obsolete satellite dishes currently located on the roof, and the creation of a pedestrian bridge. The pedestrian bridge will facilitate the entrance into the dining facility from the new Freshman Housing Village. Scheduled completion is Fall 2009.

Background Information:

The proposed renovation is part of the re-negotiated ARAMARK master food service agreement.
