The meeting was called to order at 2:35 p.m. by Dave Irvin. The following items were discussed:

Classroom Business Building Design – There was extensive discussion on building site plan, building materials and their relationship to surrounding buildings (Cemo Hall, Calhoun Lofts, Central Utility Plant and Campus Recreation and Wellness Center).

Action – Building design and site plan approved. Committee directed University Advancement and Facilities Planning & Construction/Planning to develop a campus standard for building signage and how to display building names. In particular this standard needs to address donor recognition issues. Once developed the proposed campus standard will be brought back to the committee for approval.

UH Housing Update General discussion of the overall UH Housing Master Plan as well as specifics of the Cougar Place replacement project and the Family Housing/Child Care project.

Action – Information item

Master Plan Update – Committee was given an update on the work the University of Houston Master Plan Committee and initial issues the group is tackling. Included are renovation, space utilization, legacy space assignments research needs and student support/student success requirements. Deferred Maintenance in infrastructure is the most critical the Master Planning Committee is examining.

Meeting adjourned at 3:45 p.m.
