6. SUMMARY:

Athletics proposes the arches installation to honor the students of the University of Houston who financially support Athletics capital projects. These features satisfy provisions agreed to in the Memorandum of Understanding between the students and Athletics (see below). The arches recognize the students support and designate space for tailgating as part of the experience of game day and other student programming at the TDECU Stadium. Electrical service will be included in the design of the arches to service the tailgating area for students. The design and materials used for the arches construction are intended to represent the design and materials used to construct TDECU Stadium.

13. Student Government Association recognition in the Football Stadium and Arena to be mutually agreed upon;

14. The University will provide the student body a space near the stadium for the purpose of student and student organization tailgating. Beginning with the 2015 season and for as long as is feasible but not to exceed the term of the MOU, the space that will be provided will include the southbound lanes of Cullen Blvd from Cougar Place Drive to Entrance 14 as well as the grassy areas in front of that same section of Cullen Blvd. The allocation of space for tailgating will be evaluated periodically during each season and amended as necessary based on student attendance in the tailgating area.
