5. **Contact Name & Phone Number** Jon Schultz, x3-2738
6. **Presenter:** Edward Carrette
x3-2435
7. **Description of Request** Approval of Exterior Signage

Project Overview

The Hilton hotel requests the approval of 3 exterior signs, two of which are based on the current Hilton Hotels Corporation exterior signage standards.

Sign A consists of two parts: free-standing 20" tall LED illuminated channel letters in red text reading, "HILTON"; and fascia-mounted 9" tall LED-illuminated channel letters in silver text reading, "UNIVERSITY OF HOUSTON".

Sign B consists of a silver brushed finish sign pylon, 4'6" tall, 3'3" wide, and 10" deep, with Hilton logo and UH identification in red text, and three lines of directional text in white.

Signs A and B are based on the Hilton signage standards.

Sign C is a 36" x 44" bronze or black aluminum panel with cutouts for the letters (backed with clear resin to let the onyx wall illumination through). It is mounted to the left (east) side of the new onyx wall (an architectural feature).

The feature wall consists of a 4x5 grid of 20 onyx panels framed with thin polished stainless steel, all surrounded by a 12" wide bronze aluminum frame. The feature wall runs the entire length of the existing wall, from floor to ceiling. The bronze aluminum frame wraps back 12" deep and aligns flush with the edge
