

STARBUCKS®

## The University of Houston The New UC Recommended Dining Plans

### Option A – Preferred w/ Jonorr’s space

1. 1500 sq ft C-store (currently at 1K sq ft) – the current location works if it can be reconfigured for additional sq footage.
2. Jonorr’s space becomes Freshii’s
3. 3 concepts in the food court – Double sided Panda, National Grill concept, and CFA
4. Starbucks downstairs

### Option B – without Jonorr’s space

1. We still need 1500 sq ft for C-store – need additional space for grab-n-go items
2. 4 concepts in the food court – Freshii’s, single sided Panda, National Grill concept, and CFA (a single sided Panda is concerning for UH)
3. Starbucks downstairs

### Details for both options

Due to the current design, we are proposing to have cashiers at each location for both options – not like the current gang style model. This is why we need the additional grab-n-go space in the c-store location. We will not be able to offer this in the actual food court area.
