

University of Houston
Safety and Security Committee

Minutes
May 7, 2010

1. Blue Ribbon Task Force on Safety and Security Update – Copy of the Presentation
 - a. Bob Bowden shared the BOR Presentation from the Task Force with the group. He also mentioned that the presentation is on the web for the public to view.
2. AED Map
 - a. Bob Bowden shared the updated AED map from the website with the group. You have the option to hover over icon and find out where it is located. It was recommended that we actually place a more specific location of the AED. If you click on one of the AED's heart icons, a specific location appears.
3. Personal Protection and Safety Training
 - a. Bob Bowden discussed the set of new training videos that the Department of Public Safety has recently acquired. There will be more information on the training and how it will become available for the campus community in the coming weeks. The idea of working with the Student Video Network on the presentation and production.
4. Mission and Vision Statement for the Department of Public Safety
 - a. Everyone received a copy of the revised Mission and Vision Statement.
5. Discussion Items
 - a. Metro will provide controlled access/egress points when the rail is put in place.

- b. One of the committee members wanted to discuss the unsafe conditions on campus with regard to carts. The carts are creating a dangerous environment for pedestrians. The group was informed that a policy is being created to address cart issues on campus. We will try to get a copy of the policy while it is still under review.
- c. The *Have an Exit Strategy* campaign will be coming to campus this summer. More information will follow on this soon.
