

Stadium Garage Construction 15D/F Lot Realignment

Beginning Monday, July 18, lot 15D will close for construction of the new stadium parking garage.

A new gated lot 15D will be created in current lot 15F. A new gated entrance will be created allowing access to this lot. New gated lot 15D and current gated lot 15F will both be accessible by the new gate, or the existing 15F gate. The expansion of this gated area will accommodate all current 15D and 15F parkers.

This lot realignment will remain in place throughout the duration of the stadium garage construction project.
