

UNIVERSITY *of* HOUSTON LIBRARIES

Cash Handling Procedures FY23-24

Introduction

The state of Texas and the University of Houston require that all employees (student employees included) who handle cash for the university complete a cash handling course each fiscal year. All guidelines set out in this course must be followed at all times. This is to provide accountability for all money received by the university.

The University of Houston Libraries has two (2) departments that receive monies, the circulation and administration departments. However, please note that during FY15 the Library consolidated down to one (1) department that handles all monies, the circulation department. If administration receives any monies, these are immediately taken to circulation for handling.

The circulation department receives monies from students as late fines and replacement fees for lost or damaged books and other circulated library materials. The circulation department also accepts monies from outside borrowers such as law firms or other libraries as usage fees. The circulation department accepts payment by credit card and check.

The library administration office receives monies from vendors that issue credits or refunds to the University Libraries. These issuances are usually in the form of checks and the administration office never receives cash. The administration department also receives reimbursements from library employees who may have been charged state sales taxes on their procurement cards or other similar instances. Please note, as mentioned above, that these monies are immediately taken to the circulation department to process.

For monies not handled by Remote Check Deposit, cash receipts totaling \$100.00 or more must be forwarded to Student Financial Services (SFS) within one working day of receipt, cash less than \$100.00 must be held for five business days before requesting a pickup by UHPD and then forwarded to SFS.

For University cash handling procedures, please see [MAPP 05.01.01](#).

The library follows the University of Houston Remote Deposit Procedures- Non Gift Checks

1. Determine how many batches of checks you need to deposit. A batch of checks is the checks that go with one deposit ticket or one deposit ID if you are making a physical deposit
2. Complete Page 2 of the Cash Deposit Summary Form to list, calculate, and verify the total of the checks to be deposited.
3. Review the checks to be sure that they can be scanned.
4. Log in to CashPro Online and navigate to the Remote Deposit Screen (Receipts > Remote Deposit) and select "Create New Deposit".
5. In the Remote Deposit screen, select- Account Group – Dean of Libraries; Account Number – for your deposit ticket; Deposit Type = Simple; Clearing Channel = Image
6. Enter the number of items to be deposited (total number of checks) plus one for the deposit ticket. This is not required by the bank, but is required by UH.
7. Enter the total deposit amount for this Account Number. You must enter decimals for the system will create them out of your last two digits.
8. Place your checks in the Scanner entry tray with the front of the checks facing out. The maximum number of items to place in the tray is 499. If you have more checks you must do them in two separate deposits. However, Treasury recommends doing smaller

batches of checks in case there is a problem with scanning one of the checks. Also, it is suggested to do a separate scan for short checks and long checks

9. Slide the checks up to the line mark in the scanner. Do not push or insert items past the line.
10. Click "Start Capture" on the CashPro screen and items will begin to scan. Remote deposit will capture each item and populate a count and an amount, which is the total number of checks scanned and the total dollar amount of checks scanned. This will show in the Deposit Item List screen. The scanner will print on the back of each check. These checks do not need to be stamped "For Deposit Only" or otherwise endorsed, since the scanner endorses the check.
11. If the deposit does not balance you will need to look through the images on the screen. If the image was not scanned properly by the scanner, a yellow triangle with an exclamation point in the middle will appear of the check. Click on that particular check and the program will ask you to key in the amount of the check and the routing number. Once this is complete, you should see a green deposit light on the CashPro screen.
12. Once the deposit is transmitted and balanced, the Complete button will turn green on the CashPro screen. Click "Complete" The click "OK" to transmit the deposit.
13. In CashPro go to the Remote Deposit Reports tab. Request "Summary of Deposits by Account Report" Enter the date range, account group and your user ID (so that it only selects deposits that you made) and then select "Create Report" This report lists all deposits during that date range for the user and account selected.
14. Retain the "Summary of Deposits by Account Report" and completed page 2 of the Cash Deposit Summary form as support for the journal entry. This report is your deposit ticket for remote deposits. If there is more than one deposit listed for the user/day, highlight the deposit being recorded with the journal. DO NOT include copies of the check images with your deposit journal.
15. Prepare your cash/check deposit using standard deposit procedures for checks and cash to be presented for deposit. Record each remote deposit transaction on a separate GL Journal Line. It is fine to include these with other cash, check, or credit card deposits. However, the Journal Path will depend on whether or not there is a physical deposit.
 - Deposit to Account 10510, Fund BANK
 - Do not combine with other cash, check, ACH, or credit card BANK lines. Separate bank lines for other sections of the deposit are okay.
 - BANK Journal Line Description will read RCD, XXXX (last four digits of the Bank Account Number (from your Summary of Deposits by Account Report), the MM.DD.YYYY (the month, day, and year of the processing), and your department ID. Line amount must equal total amount in Summary of Deposits by Account Report.
16. Journal support to INCLUDE: Cash Deposit Summary Form (signed by two people); Summary of Deposits by Account Report (without copies of Checks) with the deposit being recorded highlighted; Cash register/sales system report or receipts, if applicable. Journal support does NOT include: Handwritten Deposit Ticket; Copies of checks.

17. Checks must be retained, in a secure location (same as cash) for 14 business days. After 14 business days checks must be shredded. Shredding must be done in a cross-cut shredder.
18. If Remote Deposit items are returned by the bank, notification will be sent to the Cashier's Office and funds will be withdrawn from the bank automatically.
19. Departments using remote deposit scanners must include the scanners in their cash handling procedures.
20. If you notice that you selected the incorrect deposit account for your deposit via CashPro, please email Bank Reconciliations to notify them of the account you selected AND the account you intended to select.
