

Images of student work from previous iteration of course: *Architecture of the Object*

Contemporary Objects

Fall 2023 | INDS 3397 - 15265

Open to all ID, INAR, ARCH, ART majors.

Do you have an idea for a product? In this interdisciplinary course, students will design modern artifacts. Intersecting entrepreneurship and 'making' in design, students will be challenged to design and produce novel housewares, soft goods, furniture, functional art, and other home goods. Each student will take a single design from concept to consignment over the course of the semester.
