This worksheet is part of a curated selection of Diversity, Equity and Inclusion exercises maintained by the UH Center for Diversity and Inclusion. It is intended to provide an engaging, hands-on activity that allows participants to gain a greater understanding of Diversity, Equity and Inclusion topics.
Privilege Walk Activity

BACKGROUND ON THE DIVERSITY EDUCATION TASK FORCE:

This activity was adapted for Lake Land College by the Diversity Education Task Force. The purpose of Diversity Education Task Force (DETF) is to educate, advocate, and celebrate diversity including making recommendations to the college administration to create a more inclusive campus environment. The DETF works to fulfill this purpose in many ways; such as, offering period staff training on diversity-related issues; offering diversity-focused student events, including the nationally-recognized celebration months; and implementing new campus diversity initiatives, such as the Safe Zone training for faculty and staff who wish to be identified as an ally to the LGBT community.

PURPOSE OF THE ACTIVITY:

This workshop has been designed to provide college students with an opportunity to understand the intricacies of privilege and to explore the ways that we enjoy privileges based on being members of social identity groups in the United States. Please note that this exercise is not meant to make anyone feel guilty or ashamed of her or his privilege or lack of privilege related to any social identity categories. Rather, the exercise seeks to highlight the fact that everyone has SOME privilege, even as some people have more privilege than others. By illuminating our various privileges as individuals, we can recognize ways that we can use our privileges individually and collectively to work for social justice. The purpose is not to blame anyone for having more power or privilege or for receiving more help in achieving goals, but to have an opportunity to identify both obstacles and benefits experienced in our life.

*NOTE: This is a very “high risk” activity that requires trust building and safety for participants; introducing this activity too early in the training or before building trust risks creating resentment and hurt that can inhibit further sharing and openness.

SUPPLIES AND SPACE NEEDED:

☐ List of statements related to privilege or obstacles

☐ Slide with instructions for the privilege walk

☐ Space large enough for participants to form a straight line with an arm’s length between them and the person on their left; there should be space in front of the line to move forward 10 steps or behind to be able to move back 10 steps.

DIRECTIONS FOR THE ACTIVITY:

1) Have participants form a straight line across the room about an arm’s length apart, leaving space in front and behind.

2) Read the Purpose from above, to help provide context for the exercise.
3) **State the following:** Listen to the following statements, and follow the instructions given. For example, when I read “If you have blue eyes, take one step forward,” only people with blue eyes will move and everyone else will stand still. Each step should be an average length step. This activity should be done in silence and if anyone feels uncomfortable stepping forward and backward on any statement I read, then please stay where you are, but remember the statement read. This is an introspective exercise and it’s important for you to understand how privilege affects your life, but it is not designed to make you share things which you don’t wish to share.

4) **Read the statements one at a time allowing time for participants to take a step.**

4) **When all the statements have been read process the activity using the following questions:**

   a. Start the question, answer session by going around the room, and have each student share one word that capture how they are feeling right now. If they do not want to share, have them say, “pass”.

   b. Would anyone like to share more about their feelings?

   c. How did it feel to be one of the students on the “back” side of the line?

   d. How did it feel to be one of the students on the “front” side of the line?

   e. Did anyone think they had experienced an average amount of privilege, but it turned out to be more or less than they thought?

   f. If anyone was alone on one side, how did that feel?

   g. Was anyone always on one side of the line? If yes, how did that feel?

   h. Were there certain sentences that were more impactful than others?
