**We are conducting a study of language processing in children and their parents. If you're interested in participating, here's what you need to know:**

**Who are we studying?**

Second graders and their parents

**What will you do?**

Listen to words while looking at pictures

**Where will it take place?**

In your home, with your own device and webcam

**Why should you participate?**

You will help us learn more about how humans process language and you will be compensated!
