University Mission: The mission of the University of Houston is to offer nationally competitive and internationally recognized opportunities for learning, discovery and engagement to a diverse population of students in a real-world setting. The University of Houston offers a full range of degree programs at the baccalaureate, master's, doctoral and professional levels and pursues a broad agenda of research and creative activities. As a knowledge resource to the public, the university builds partnerships with other educational institutions, community organizations, government agencies, and the private sector to serve the region and impact the world.

MAT Program Mission and Goals: Consistent with the mission and vision statement of the University of Houston (UH), and the Department of Health and Human Performance (HHP), the Master of Athletic Training Program (MATP) will offer a nationally competitive Athletic Training Program that will give students opportunities for learning, inquiry, discovery and personal and professional growth in a real world setting that will prepare students both academically and clinically to enter the workforce as an Athletic Trainer and be successful contributors to the fields of athletic training and sports medicine.

The goals of the Master of Athletic Training Program include:

- 1) Offer a nationally competitive athletic training program that uses the most current National Athletic Trainers' Association (NATA) Educational Competencies and the Board of Certification (BOC) Athletic Training Practice Domains as the infrastructure for the curriculum.
- 2) Give the Master of Athletic Training Students opportunities for learning, inquiry, discovery and personal and professional growth in a real world clinical setting with an interdisciplinary group of faculty and preceptors dedicated to program and student success.
- 3) Prepare Master of Athletic Training Students to pass the Board of Certification Exam for Athletic Training and enter the workforce as an Athletic Trainer and be successful contributors to the field.
