SECOND GRADE LANGUAGE RESEARCH STUDY

We are conducting a study on the language learning process for second grade children (ages: 7-9). The research will take place on campus in a controlled environment. You can find more details below:

Who?

Second Graders

What?

Listening and talking games

Where?

At your local school, community center, or UH

Why?

You will be compensated to help us learn how children learn language

Contact Dr. Monique Mills to participate and for more details.
