Program Costs

Description	2013-2014 1 st -year Cohort Cost
Tuition for full-time students (in-state)	see support information below
Tuition for full-time students (out-of-state)	charged at in-state rates
Tuition per credit hour for part-time students (<i>if applicable</i>)	N/A
University/institution fees or costs	\$2150/yr
Additional estimated fees or costs to students (e.g. books, travel, etc.)	\$1500/yr approximately

Graduate Clinical Psychology Program

Licensure

Outcome	2003-2004 to 2010-2011
Total number of students with doctoral degrees conferred on transcript in time period	85
Number of students with doctoral degrees conferred on transcripts who became licensed doctoral psychologists in time period	71
Licensure percentage	84%

**University of Houston
Department of Psychology
Support Information, 2013-2014**

1. Funding support for all first year students is available through Teaching Assistantships (TA) in the Department of Psychology. For 2013-14 the monthly stipend for a 50% appointment (20 hrs/wk) will minimally be \$965, or \$8685 for the nine-month academic year. Students in TA appointments are assigned to 1 to 3 course sections per semester, depending on the workload of the course(s). Summer support as a TA (\$2895 total for 3 months) is also available upon early request by the student and fund availability. Students typically receive a summer assignment if requested. Research Assistantships (RA) are also sometimes available to first year students, if they will be working with a faculty member who has a funded project on which to place the student. Stipends vary, typically ranging from \$965 to \$1800/month.

2. Other benefits include an excellent comprehensive state employee health benefit package (after a 90-day waiting period) at low cost to the student (student pays \$85/month; State and University pay \$385/month or \$4622 total/year), a waiver of non-resident tuition rates for out-of-state students (worth \$10,530/year) and a doctoral tuition fellowship that covers the cost of twelve credit hours for the Fall and Spring semesters and six credit hours for the Summer semester (worth approximately \$7000/year). The tuition fellowship does not cover college designated tuition or fees. Please note that full-time graduate study for first-year in the Department of Psychology requires twelve credit hours each for the Fall and Spring semesters, and six credit hours for the summer semester.

Bottom line: For tuition and fees, students should expect to pay approximately \$800 for each of the Fall and Spring semesters next year and approximately \$550 in the Summer. Rates may increase slightly before Fall 2013. In order to qualify for the health benefits, the tuition fellowship, or a waiver of out-of-state tuition, students must maintain at least a 50% appointment, be registered as a full-time student, and in good standing.

3. After the second year, students may qualify for a Teaching Fellowship (TF). Teaching Fellows are instructors of record for a course. Each TF is expected to instruct 2 course sections per semester. The current monthly stipend for a 50% TF appointment is \$1100, or \$9900 for the nine-month academic year. Summer support as a TF (\$3300 total for 3 months) is also available upon early request by the student, and fund availability.

4. The Department does not guarantee support beyond the first year. However, students in good standing have been successful in securing multi-year funding support through a combination of teaching, research appointments, external internships, or traineeships.

5. Students in the **Clinical Neuropsychology (CN) Track of the Clinical Program** typically receive support during their first year as TAs in the Department of Psychology. Some RAs are usually available also. After their first year, CN students are usually placed on CN Research Assistantships (RA) in the Texas Medical Center (TMC) and surrounding practices. These paid practica may involve provision of clinical services and/or clinical research. They are 12 month appointments from Sept 1 to August 31 of each year. The funding for these positions comes from yearly contracts with TMC facilities and other practices. The funding is run through the Department of Psychology at UH such that students on these contracts are UH employees and receive the UH package of benefits described above on a 12 month basis. Such funding is usually available to students for all years after the first year at UH. Occasionally students may be supported in other ways such as on TAs for various reasons (e.g., interest in teaching more advanced courses) or RAs at the University of Houston. The level of support for the CN RAs is based on the degree status of the student. If the student has a Bachelor's degree, the monthly stipend is currently \$1156.66 plus benefits. If the student has a Master's degree, the monthly stipend is currently \$1291.66 plus benefits.
