

WGSS 2360

INTRODUCTION TO LGBT STUDIES

This course explores LGBTQ+ people's experiences, social roles, identity formation, and expressions across different cultures and societies, in the arts, religion, history, literature, politics, and the family.

Multiple Async Online Sections

FULFILLS YOUR LANGUAGE, PHILOSOPHY, & CULTURE REQUIREMENT

In Gender Studies, “we explore the interplay of gender, race, class, sexuality, religion, and dis/ability. Each provides us with a unique lens through which to view the world, but it is expected that when their interconnectedness is conceptualized, we will have a richer, more kaleidoscopic lens for grappling with social issues.”

- Dr. Deborah J. Cohen
