### Message from the Provost

Dear Spring Graduates,

Congratulations! You have traveled a long and demanding road to arrive at this moment, and yet, here you are! It is an honor to congratulate you on earning your degree from the University of Houston.

Whether you are the very first in your family to cross this stage or are continuing a proud tradition as a multi-generational Cougar, today's ceremony marks a major milestone in your life. This day is equally significant for the University of Houston, as your growth and success have been our primary mission from the very first day you stepped onto our campus.

Look back at those who supported you. Reach out to the peers, professors, and staff who guided your path. Most importantly, share your gratitude with the family and friends here today—the spouses, parents, and siblings who provided the daily inspiration you needed to keep going.

While many contributed to your success, please take a moment to truly celebrate the person most responsible for this achievement: you. You balanced the heavy weight of classes, careers, and family obligations. It was a rigorous challenge, but you persevered. You are now ready to reap the lifelong rewards that come with being a UH graduate.

Though you may be leaving this campus, you will always be a vital part of the University of Houston family. You now carry forward the legacy of all the graduates who came before you. As you represent this institution in your future endeavors, carry your "Cougar Pride" with you and let the world know where you started.

Once again, congratulations on this incredible accomplishment!

Sincerely,

## University of Houston History

---

The University of Houston was established as the Houston Junior College in 1927. As the college grew, it prospered and officially became the four-year University of Houston in 1934. Two years later, the college attained land for a permanent campus, and in 1939 it constructed its first building, the Roy G. Cullen Building. The University became a state institution in 1963.

The University includes 14 academic colleges, one school and a multidisciplinary Honors College, collectively teaching a wide array of subjects – from math, arts and engineering to law, pharmacy and business. What started as a campus with a single building has grown into a world-class university, offering over 285 undergraduate and graduate programs to more than 48,000 students annually.

The Cougars consistently compete at the highest levels, earning conference championships, bowl game invitations and NCAA Final Four appearances. In 2023, UH joined the Big 12 Conference — a hard-fought mission to join a Power Four conference.

UH is a Carnegie-designated Tier One public research university, and its public service and

community activities, such as cultural offerings, clinical services, policy studies and small business initiatives, serve a diverse metropolitan population. Likewise, the resources of the Gulf Coast Region complement and enrich the University's academic programs, providing students with professional expertise, practical experience and career opportunities. This unprecedented success has been followed by a string of similar achievements, being awarded a Phi Beta Kappa honor society chapter, the opening of Houston's first medical school in nearly 50 years, more than tripling the number of National Academy members on the faculty and dramatically improving the graduation rates.

The University consistently earns accolades for its students' achievements, such as the top 50 of Forbes' list of America's Top Colleges and Princeton Review's "50 Best Value Public Colleges." It also ranks 36th in the nation on U.S. News & World Report's 2025 social mobility index ranking and among the top 100 universities in the world for utility patents. Moreover, President Renu Khator is boldly leading UH to become a U.S. News & World Report top 50 public university.

## Commencement Traditions

Academic costumes of today have a history of nearly eight centuries. In medieval Europe, all townspeople wore long flowing robes and gowns. The materials and colors were governed by royal decree. Gradually, distinctive gowns were developed for the various professions, trades and guilds. Scholars wore robes and hoods to protect their shaved heads. Later, skullcaps were worn on the head, and the hoods became a cape that could be pulled over the head during unpleasant weather.

As additional universities were founded, distinctive forms of the gown and hood were adapted by their faculties for bachelor's (apprentices of the arts), master's (teachers) and doctoral (teachers who had completed postgraduate studies). When caps and hats came into fashion in the 15th century, the hoods became ornamental, draped over the shoulders and down the back.

The academic hat was first worn as a symbol of the master's degree and existed in various forms. The mortarboard style comes to us from Oxford University. When academic costumes came to America in 1754, styles were quite varied. In Europe, they still are; however, in our country, usage has been standardized by the Intercollegiate Code of Academic Costume.

## Ceremonial Symbols

### THE SEAL

Throughout history, seals have been used to authenticate official documents. The University of Houston and UH System seals both bear the Official Seal of Arms of General Sam Houston, as handed down to him from his noble ancestors. It includes the escutcheon in the center of the seal — consisting of checkered chevrons denoting nobility — and three martlets, gentle lowland birds that symbolize peace and deliverance. A winged hourglass is placed above the shield. Surmounting this is the motto “In Tempore,” meaning “In Time.” The greyhounds indicate speed of giving aid. The UH seal was first adopted in 1938 as the present campus was established. Although the look of the seal has evolved over the years, the first version was etched into the floor of the Roy G. Cullen Building.

### UNIVERSITY MACE

The University Mace, which is carried in academic processions, is a staff symbolizing the University’s authority and unity. The tradition of the academic mace began in the late 14th century when two ancient instruments, the royal scepter and the battle mace, were combined to form a university president’s symbol of authority.

### THE ALMA MATER

All hail to thee,  
 Our Houston University.  
 Our hearts fill with gladness  
 When we think of thee.  
 We'll always adore thee  
 Dear old varsity.  
 And to thy memory cherished,  
 True we'll ever be.

*Words and music by Harmony Class of 1942*

### JERICHO BROWN, PH.D.

A Pulitzer-Prize-winning poet, Jericho Brown is one of the most celebrated authors of our time. An acclaimed writer, scholar and professor, Brown has received some of the most coveted honors in American literature.

Growing up in Shreveport, Louisiana, Brown found solace at his local library and in writing. As soon as he learned of the prestigious Pulitzer Prize, he dreamed of becoming a writer. In a full-circle moment in 2020, he won the high honor for his third poetry book, “The Tradition.” The work — described by the Pulitzer board as a collection of masterful lyrics that combine delicacy with historical urgency — was also a finalist for the National Book Award.

“The Tradition” is preceded by his first book, “Please,” which won the American Book Award. His second book, “The New Testament,” won the Anisfield-Wolf Book Award. A prolific writer, Brown’s poems have appeared in *The New York Times*, BuzzFeed, *Fence*, *jubilat*, *The New Republic*, *The New Yorker*, *The Paris Review*, *TIME* and several volumes of *The Best American Poetry*. He is also the editor of “How We Do It: Black Writers on Craft, Practice and Skill” and of “The Selected Shepherd.”

In 2024, Brown received the MacArthur Foundation’s “genius grant” and was described as a “poet reflecting on contemporary culture and identity in works that combine formal experimentation and intense self-examination.” He has also received distinguished fellowships from the Guggenheim Foundation, the Radcliffe Institute for Advanced Study at Harvard and the National Endowment for the Arts. In addition, he has won the Whiting Award.

An avid scholar, Brown earned his Bachelor of Arts degree from Dillard University, his Master of Fine Arts from the University of New Orleans and his Ph.D. in creative writing and literature from the University of Houston. He is the Charles Howard Candler Professor of English and Creative Writing and director of the Creative Writing Program at Emory University in Atlanta.

### DONALD J. KESSLER

A pioneering leader in astrophysics, Donald J. Kessler is a former NASA scientist whose breakthrough research brought attention to an unrecognized risk to space safety. He is best known for the Kessler Syndrome, which describes how orbital debris could threaten space operations, while proposing strategies to manage and mitigate those risks.

Kessler joined NASA as a University of Houston cooperative education student and, after developing an interest in the risks to spacecraft from meteoroids, recognized the greater risk created by man-made orbital debris from spacecrafts. His 1978 paper, titled “The Collision Frequency of Artificial Satellites: The Creation of a Debris Belt,” predicted an exponential

increase in orbiting fragments and increasing risk to spacecraft. In addition, he pioneered mathematical models of collision probabilities.

Following his vital research and calculations, NASA established an orbital debris program with Kessler as lead scientist and a principal in the operation and its outreach. A prolific research scientist, Kessler built the analytical capabilities that remain central to NASA’s approach to debris monitoring, mitigation practices and disposal guidelines. Moreover, he and his colleagues met with leaders from European, Russian and Asian space communities to encourage an international focus on mitigating the increasing amount of debris in Earth’s orbits. This global outreach led to the creation of the Inter-Agency Space Debris Coordination Committee, a coalition of 13 national and international space agencies that develop consensus guidelines used worldwide.

A Texas native, Kessler spent three years in the U.S. Army’s Air Defense Command before enrolling at UH, where he graduated cum laude and with honors in physics in 1965. He retired from NASA in 1996 as chief scientist of the orbital debris program.

Kessler has received numerous awards for his transformational work, including NASA’s Medal for Exceptional Scientific Achievement, the American Institute of Aeronautics and Astronautics Losey Atmospheric Sciences Award, the International Association for the Advancement of Space Safety Jerome Lederer Space Safety Pioneer Award, and he has had an asteroid named in his honor. More than four decades after his transformative discovery, Kessler’s research continues to shape global policy and safeguard the long-term sustainability of space operations for the benefit of humanity.

### Message from the Dean

Dear Spring 2026 Graduates,

Congratulations on your graduation from the Honors College at the University of Houston! Your talents and motivation have culminated in the impressive achievements we recognize today. Think back to your first semester and how far you have come.

Your Honors courses have asked you to think deeply about the nature of being human, both as individuals and as members of complex societies. You've been challenged to think beyond your major, to integrate perspectives across disciplines, and to carry your learning beyond the classroom into research, leadership, and community engagement. These habits will continue to serve you well long after graduation.

The faculty, staff, and fellow students of the Honors College have been members of your team, and they are now cheering you on as you begin your career or continue your studies in graduate or professional programs. We take pride in your achievements, and take comfort knowing that, though you are leaving on this new journey, the Honors College will always be a part of your story. Stay connected with the College and use your success to inspire future generations of Honors students. Your engagement and support help sustain the programs, opportunities, and scholarships that enriched your own experience.

We know that you are well-prepared to lead in your chosen field and to contribute solutions to the grand challenges of an ever-changing world. As you find your place in a new community, be bold in ethical action and stand strong in the face of adversity. We believe in you and cannot wait to see all that you accomplish!

With pride,

Heidi Appel  
*Dean of the Honors College*  
*Professor of Biology & Biochemistry*
