Budget

Student Success

UH System institutions rank among the best in the U.S. for moving students up the economic ladder.

18,022 Degrees Awarded

UH is #1 in TX for social mobility and 45th in the nation in U.S. News & World Report's National Universities.

UHD ranks 39th in U.S. News & World Report's Regional Universities West.

1 Phi Beta Kappa Chapter America's most prestigious academic honor society — only 10% of U.S. institutions have a chapter.

1 Top Producing Fulbright Students Institution.

1 Carnegie R-1 Research University. The Tier One ranking for academic research.

Full-Tuition Coverage

\$275.3 Million

given in full-tuition coverage

Each UH System university is making college more accessible by covering full tuition and fees for students from low- and/or middle-income families.

1 Asian American and Native American Pacific Islander Serving Institution
UH

2 Minority-Serving Institutions
UHCL, UHD

Research and Innovation

\$245.6 Million
in research expenditures / UH ranks
3rd in expenditures in Texas.

UH Ranks #1
in technology transfer measured
by income from faculty patents.

Advancing Clean Energy & Water

The new Energy Transition Institute at UH is focused on the advancement of clean and affordable energy, thanks to a \$10 million gift from Shell. Total funding for the institute will likely exceed **\$50 million**.

UHV is collaborating with **2** national laboratories to develop predictive modeling techniques for the detection and monitoring of groundwater contamination.

Transforming Health

UHD is addressing HPV-related cancer disparities among people living in medically underserved areas and health professional shortage areas in Texas. UHCL's Health and Human Performance Institute is a novel, community-based research, education and state-of-the-art training center improving the health and performance of individuals and athletes through **4** distinct research centers.

Fueling the Health Care Workforce

With its proximity to the world's largest medical center, UH System universities are fueling the industry with an educated and equipped workforce. All universities offer top-ranked nursing degrees to help fill the nation's nursing shortage. In 2020, UH opened Houston's first new medical college in 50 years to help mitigate Texas's physician shortage.

163
health-related degree programs

533
nursing students enrolled

13,128
health-related students enrolled

212
nursing degrees awarded

3,817
health-related degrees awarded

Public Art

700 Works of Art

are in the Public Art of the UH System collection — one of the most significant university-based public art collections in the U.S.

Works are featured at each UH System university and include noteworthy artists such as Dorothy Hood, Carlos Cruz-Diez, Frank Stella and Andy Warhol.
