April 19, 2006

**To:** Public Health-Related Institutional Reporting Officials  
**From:** Kenneth Dalley  
**Subject:** Changes to Fall 2005 Reporting Manual Effective Fall 2006

This memo outlines the changes that have been made to the electronic CBM Reporting Manual on the CB website. Also, this is a reminder that in order to post the accountability measures in a timely manner, the Fall reports will need to be certified by December 1.

Torca Bunton is now your CBM Data Analyst. She is also helping with passwords and data transfer issues as has been identified on page 0.2 and 0.3. Her phone number is 512-427-6532.

The CBM001 has been updated to reflect a new set of residency requirements based on Senate Bill 1528. The wording of the Tuition Status, Item #7, has been changed to reflect these requirements. It is important to identify students, other than Hazlewood recipients, who have been granted a tuition waiver even though there is not a way for one to report a specific waiver code in Item #21. Item #8, Residence, has been tweaked to capture the changes in SB 1528. The Katrina status of 'N' will not be in effect after the Spring 2006 term. In Item #9, Transfer Student or First-Time-in-College, in the last paragraph we inadvertently indicated to enter '000000' if the student was not a first-time transfer or a first-time student. The wording now again reads, "...leave blank, unless the student ...". If you are reporting the zeros, we will accept them too. In Item #19, Major Area of Concentration, the wording has been changed to "must" provide an appropriate major rather than "should" provide an appropriate major.

The Salary Ranges on the Questionable and Error conditions on the CBM008, Faculty Report, have been increased so fewer records will be considered questionable.

## FOREWORD

The reports discussed in this **Health-Related Institution** manual fulfill provisions of the Higher Education Coordinating Act of 1965 as amended (codified as Subtitle B, Chapter 61, Texas Education Code, 1971).

All reports must be submitted electronically. (See detail in Electronic Data Transfer System section of manual.) Associated with each report is a set of instructions for preparing the data in the Coordinating Board format.

## HRI General Reporting Issues

### ELECTRONIC DATA TRANSFER SYSTEM

The submission of CBM reports must be by electronic transfer. If any data items need to be changed, make the changes to your file and re-submit it as a complete report.

State and federal security requirements mandate that confidential data be transferred using a secure process. Since July 15, 2004 all files are required to be submitted or retrieved via SFTP (the secure FTP) server process. Connection to the SFTP File Server at the THECB is via the Internet.

You may create the data file containing a header record, data records, and a trailer record by whatever method available.

The header record contains information to identify the type of data in the file and the length of the data records. The trailer record contains a record count of the actual number of data records, not including the header and trailer records, in the file. The record count in the trailer record will be used to verify that all records were transferred through the communication system.

The actual file name is not critical. Information in the header record is used to identify data contained in the file. To avoid possible confusion or loss of file by writing over a previously transferred file of the same name, make each file transferred a unique name.

In order to submit EDC CBM files, you must log into the SFTP server, [sftp.thecb.state.tx.us](http://sftp.thecb.state.tx.us), with a username and password.

For USERID: Enter "edcNNNNNN" where "NNNNNN" is your six-digit FICE code. For example, "edc001234" (lower case 'edc'; leading zeros required in the FICE code).

For PASSWORD: Enter your password, case sensitive. Contact Torca Bunton at e-mail [Torca.Bunton@thecb.state.tx.us](mailto:Torca.Bunton@thecb.state.tx.us) for your password.

This password is unique for your FICE code. Guard it to prevent unauthorized access to your data.

The data sent to the Coordinating Board goes to the "INPUT" directory and the edit and summary report files are retrieved from the "OUTPUT" directory. Detailed instructions are located at [Data Transfer Procedures for THECB Reports Using SFTP](#).

The data content of the files will be as defined in the Data Processing Record Layout of each report in this manual. The format and content of the HEADER and TRAILER records are critical and must be valid. Identification of the data depends totally on the accuracy of the information contained in the header record.

### EDIT REPORT OUTPUT FILES

As we migrate to processing the CBM edits on a server over the next 3-4 months, a new naming convention has been implemented for the edit report output files. The following file name is an example:

**CBM002\_FALL\_2003\_S\_003652\_200405100136262.TXT**

**CBM002** – CBM report type

\_ - used as a separator

**FALL** – the report semester (can also be SPRING, SUMMER, SUMMER1, SUMMER2, ANNUAL, QUARTER1, QUARTER2, QUARTER3, QUARTER4)

\_ - used as a separator

**2003** – Report Year

\_ - used as a separator

**S** – Institution type (can also be J, H or I)

\_ - used as a separator

**003652** – FICE code of institution

\_ - used as a separator

**200405100136262** – Date Time stamp (Year, Month, Day, Hour, Minute, Second, Tenth of Second)

### CERTIFICATION TRACKING

The goal of these procedures is to have the CBM reports collected by the Educational Data Center and certified by the institutions as available for use within four working weeks of the due date. Since there are six edit cycles each workday, turn-around time should be less of an issue. Also, the desire is to have the most current data available for formula committee work, accountability measures, and appropriation requests. The follow-up procedures for ensuring timely certification of the reports are:

1. The EDC Data Analyst will telephone or e-mail the Reporting Official if a specific report is not received within two days after the due date.
2. An email from the Director of the Educational Data Center will be emailed to the Reporting Official if the report has not been received and certified by the seventh working day after the due date.
3. An inquiry letter will be faxed to the Vice President for Academic Affairs, or the equivalent, from the appropriate Assistant Commissioner if the report has not been received and certified by the twelfth working day after the due date.
4. A letter indicating that the certification of the CB report is delinquent will be faxed to the President, or the equivalent, from the Associate Commissioner if the report has not been certified by the end of the third working week after the due date.

### CHANGES TO CERTIFIED REPORTS

- A. Changes to certified data will not be permitted unless an executive officer of the reporting institution requests the change in writing and the reporting error would have a significant impact on future year funding or statistical analysis.
- B. Requests made prior to the data being published may be approved by the Educational Data Center and must not delay standard publish dates.
- C. Requests to change data which are already published must be approved by the Commissioner.

CERTIFICATION STATEMENT INSTRUCTIONS

When the edit materials for a CBM report are returned to the reporting institution for verification, one of two actions is required. If the edit reveals errors in the report, corrections should be submitted. When all the information is correct, the reporting official certifies the report by completing a certification statement and returning it to the Educational Data Center. An e-mail stating which report is certified is an acceptable alternative.

The example below shows the certification of Long Star School of Allied Health's Fall 2005 CBM001, CBM008, and CBM009.

## STUDENT REPORT CBM001

This report reflects all academic and professional students enrolled at the reporting institution as of the official census date, which is the 12th class day for the Fall and Spring semesters (16-week session) and the 4th class day for each of the summer terms (6 week session). To be counted for state aid, the students must be registered as of the official census date and the institution must collect in full from the student (or have a valid accounts receivable on record) by the 20th class day or the 15th class day during summer sessions. Students are required to have a fully operational installment contract (in accordance with Chapter 54, Section 54.007 of the Texas Education Code) by the payment due date in order to be in good standing. This includes payment of half the tuition and fees as a first installment prior to the beginning of the semester and the existence of a fully-signed contract by the payment due date.

Students who withdraw from the institution prior to or on the official census date will not be reported for that term. The report will include an unduplicated headcount of all students registered at the reporting institution, whether the course is taught on-campus or off-campus, or whether the student is in an academic program or medical or dental professional program.

Students who are participating in joint degree programs (e.g., MD/PhD) should be given classifications that match the majority of course work that they are taking during the semester. For example, if a jointly admitted student is completing the second year of medical school, the student should be reported in Item #5 as 'B.' However, if that student is enrolled in a PhD course or lab work, the student should be reported in Item #5 as '7.'

Medical and dental professional students will be reported in each term (Fall, Spring, or Summer) if they have not withdrawn from classes by the census date of the term. Use the same census date of the academic programs for the professional programs. Use the start-date of the academic calendar to define the beginning of the fall reporting period.

All summer sessions will be combined into one report. When combined, the headcount reported should be non-duplicative. Combined reports should be coded as '3' (Summer I) in Item #14.

The student records for all components of the health-related institution will be submitted as one report under the FICE code of the health science center. The specific component in which each student is enrolled will be identified in Item #33.

## HRI Student Report (CBM001)

Census Dates for other than 16 or 6 week terms are outlined below:

<u>Length of Term (Weeks)</u>	<u>Official Census Date</u>
2 or less	1st Class Day
3	2nd Class Day
4	3rd Class Day
5 – 6	4th Class Day
7	5th Class Day
8	6th Class Day
9 – 10	7th Class Day
11	8th Class Day
12	9th Class Day
13 – 14	10th Class Day
15	11th Class Day
16	12th Class Day

### Flexible Entry Students

Students enrolled in classes organized after the official census date should be included in the data submitted in the semester following; i.e., (1) students enrolled in the classes organized after the 12th class day of the fall semester will be reported in the following Spring semester 12th class day report; (2) students enrolled in classes organized after the 12th class day of the Spring semester will be reported in the summer semester report; etc. These students will be identified by inserting a '1' in Item #17 to denote "flexible entry".

**NOTE:** A class is organized when students have registered and have paid fees or established accounts receivable. Classes which are organized with regular semester classes but whose first class day is not until after the term census date, may be reported as a regular class, except:

- A. Students who register for this class after the term census date cannot have the hours reported for state funding on the CBM001;
- B. Students who drop this class before this class's first class day cannot be reported for state funding on the CBM001.

### Inter-institutional Credit Hours

If the instruction of a student is being provided by the faculty of another institution, both institutions cannot claim the credit hours attempted by the student. If the other institution is claiming the credit hours, then the student credit hours of the receiving institution are to be reported as inter-institution credit hours. Neither the location of the class nor the delivery medium affect the definition.

### Reporting Semester Credit Hours

Effective Spring 2000, Item #10 should be the total SCH the student attempted in the current term. For undergraduate students, the sum of Item #10 should equal the sum of the other SCH Items (#16, #22, #24, and #25):

Item #16 - SCH in inter-institutional courses that DO qualify for state funding

Item #22 - SCH in collegiate courses that DO NOT qualify for state funding

Item #24 - SCH in inter-institutional courses that DO NOT qualify for state funding

Item #25 - SCH in collegiate courses that DO qualify for state funding

These items are mutually exclusive. When combined, they represent the total semester credit hours for the undergraduate student.

## HRI Student Report (CBM001)

### Undergraduate Semester Credit Hours in Excess of State Limit and Formula Funding Exceptions for Repeated Courses

See rules at <http://www.thecb.state.tx.us/Rules/>, Chapter 13, Subchapter F, Section 13.100-13.109.

### Undergraduate Students Approaching Funding Limit for a Baccalaureate Degree

There are two new student reports that are available after the CBM001 edit process that identifies the undergraduate students who are nearing or who have exceeded the undergraduate credit hour limit of 45 hours beyond the degree program. One of the reports will identify any undergraduate student whose total funded undergraduate hours is 15 or more hours greater than the semester credit hours reported for the degree program, Item #27. The second report will list any undergraduate student whose total undergraduate funded semester credit hours exceeds the degree program value provided in Item #27 plus 45 hours. The institution is to report students who at the beginning of the semester exceed the undergraduate funding limit in the Not State-Funded item on the CBM001, which is Item #22. Also an institution can charge a student who can no longer be claimed for state funding a higher tuition. If the institution needs to get the detail credit hours of the student for each state institution in which the student attempted any courses, the institution must submit to the CB a "Release" form signed by the student that indicates that the student will allow the institution to inquire into the CB credit hour database. Besides a copy of the signed release form the student identifying number, the date of birth, and the gender of the student are required to validate the specific person for which the CB is releasing the detail credit hours. CB Rule 13, Subchapter F clarifies the enabling legislation and defines the responsibilities of institutions and the Coordinating Board in implementing the statute.

### Funding Limitation for Doctoral Students

The Legislative limit of 99 doctoral funded semester credit hours per doctoral student and the allowable exceptions for funding up to 130 hours are described in the Texas Education Code (TEC 61.059). Two reports are provided during each student report edit cycle. One report provides the doctoral students who have exceeded 70 doctoral credit hours but who have not exceeded 99 doctoral credit hours. The other report identifies the doctoral students who have exceeded the 99 doctoral credit hour limit. Prior to the formula runs each base year, each institution is given the opportunity to identify which of their doctoral students should be granted program or individual exceptions during the next funding period.

- A. Student classified as a resident based on TEC 54.052(a)(3) who is not a U.S. citizen or permanent resident but is allowed to pay resident tuition
- C. An applicant for permanent resident status or holder of a visa that allows a person to domicile in the U.S. who is classified as a resident and is allowed to pay resident tuition
- E. Tuition Waiver that allows non-resident or foreign students to pay the resident rate as well as recipients of Tuition Exemptions through TEC 54.207 (Good Neighbor Scholarship)
- N. Visiting student allowed to enroll due to Natural Disaster (Hurricane Katrina coding expires after Summer 2006 regardless of future extensions of executive order)

**NOTE:**

- a) Students who are allowed to pay the "Resident Tuition" rate due to a waiver should be coded 'E'.
- b) Students who qualify as residents through the 36-months' residence in Texas and who are not U.S. citizens or permanent residents should be coded as 'A' if they are paying regular resident tuition. Students coded 'A' must complete the affidavit.
- c) Students who are eligible for permanent resident status (whose I-485 applications have not been rejected and are being processed by BCIS) and students who hold visas that allow them to domicile in the U.S. should be coded 'C' if they actually established a domicile in Texas and have been classified as residents eligible to pay regular resident tuition.

Item #8 Residence. Enter the code representing the county, state, or foreign country of which the student is a resident as identified by the student as his/her permanent address at the time of application to the institution. See Appendix B for codes.

- a. Enter the Texas county code for students who are Texas residents
- b. Enter the state code for students who are U.S. citizens or permanent residents and who are residents of other states

HRI Student Report (CBM001)

- c. Enter the foreign country code for foreign country citizens who are not Texas residents

Item #9 Transfer Student or First-Time-in-College. Enter the FICE code (see Appendix A) of the institution of higher education from which a student transfers the first semester that the student enrolls at your institution. Enter '999999' for an out-of-state institution if the FICE code is not known. A transfer is a student entering the reporting institution for the first time but who is known to have previously attended another postsecondary institution at the same level (e.g., undergraduate to undergraduate, or graduate to graduate; not undergraduate to graduate). This does not include an institution's own graduates who enter for further education.

If the student has never attended college or other postsecondary institution, enter '000001' to indicate a first-time student. Also include as first-time students those who entered with advanced standing (college credits earned before graduation from high school). For a first-time-entering medical or dental professional student (Item #5, Classification, is coded an 'A') enter '000001' in this Item.

In the term that the student is accepted into a master's program, doctoral program, or first-professional program (AUD or PharmD), enter '000001' in this item; otherwise, for a graduate or first-professional student leave blank unless the student is a first-time transfer at that level. If the student is a first-time transfer, enter the FICE of the institution transferring from. This will allow the CB to determine time-to-degree of such students.

**NOTE:** A student should not be coded as first-time until he/she has completed high school.

Leave blank if not applicable.

Item #10 Semester Credit Hour Load, Current Registration. Enter the number of semester credit hours for which the student is registered in the current semester. For undergraduate students, Item #10 should equal the sum of the other SCH Items (#16, #22, #24, and #25). The semester credit hours attempted in courses that begin after the census date of the prior term, which are identified as flexible-entry, are to be reported in a separate record and a '1' entered in Item #17. Where applicable, convert quarter hours to semester hours -- 3 quarter hours equal 2 semester hours; right justify with leading zeros. Do not enter decimals. Enter zeros for medical and dental professional students.

Item #11 Semester Credit Hour Load, Remote Site. Enter the number of semester credit hours for which the student is registered in the current semester at a remote teaching site. Include these credit hours in Item #10 and in Items #16, #22, #24, or #25, as appropriate. Enter zeros for medical and dental professional students.

Item #12 Unused

Item #13 Ethnic Origin. Enter the code indicating the ethnic origin of the student.

HRI Student Report (CBM001)

1. White-Non-Hispanic
2. Black-Non-Hispanic
3. Hispanic
4. Asian or Pacific Islander
5. American Indian or Alaskan Native
6. International
7. Unknown or Not Reported

**NOTE:**

International denotes a person who is not a citizen or permanent resident of the United States and who is in this country on a temporary basis and does not have the right to remain indefinitely.

- a) Even though a student is allowed to pay the “Resident Tuition” rate due to a waiver (coded ‘E’ in Item #7), report with the international code.
- b) Report the ethnicity of students who were coded ‘A’ in Item #7.
- c) Continue to report students who have applied to or have a petition pending with the Bureau of Citizenship and Immigration Services and students who base their residency on visas that allow them to domicile in the U.S. as international students.

Unknown or Not Reported: The unknown classification should only be used if the student has not selected a racial/ethnic designation and the institution finds it impossible to place the student in one of the categories during enrollment, post-matriculation, or verification processes.

Item #14 Semester. Enter the appropriate code.

1. Fall
2. Spring
3. Summer

Item #15 Year. Enter all four digits of the calendar year in which the semester occurs.

Item #16 Inter-institution SCH Load. Enter the number of semester credit hours in inter-institutional courses in which the student is registered during the current semester that DO qualify for state funding. Exclude SCH attempted in inter-institutional courses that do not qualify for state funding (Item #24) and all other collegiate level courses (Items #22 and #25). Inter-institutional classes are those in which the faculty and courses of one institution are provided to another institution’s students and there is an inter-institutional agreement on file at the CB. See more discussion of inter-institution in the Introduction section of the CBM001 report. Not required for professional students.

Item #17 Flexible Entry. Enter a ‘1’ if the student is enrolled in a Flexible Entry (FE) class that is being reported this semester. Enter a ‘2’ if a professional student is enrolled in academic class work as a “dual degree” student; item #33 will be the school code of the academic unit. Enter a ‘4’ if an academic student is taking inter-institutional courses at a health science center. Leave the item blank if not applicable. Not required for professional schools.

HRI Student Report (CBM001)

Enter a '7' to identify a visiting (displaced) student who has been allowed to enroll in a regular (non-flex) class due to the natural disaster (Hurricane Katrina – expires after Summer 2006); otherwise, continue to code the flex-entry item with a '1' for a visiting (displaced) student who enrolls in a flex-entry class. Leave blank if not applicable. Required of academic and professional schools.

Item #18 Correctional Entity. If the student is confined in a correctional institution, enter a '5'. If not, leave the item blank. Not required for professional students.

Item #19 Major Area of Concentration. Enter the CIP code of the major area of concentration. See Appendix C. Undergraduate, graduate, and professional medical and dental students should be coded with an appropriate major area; not undeclared. Use the general CIP code for graduate students who have not identified their specialty.

Item #20 Unused

Item #21 Tuition Exemption/Waiver Code. When Item #7 is coded '3' and the student is a resident receiving a Hazlewood exemption (authorized in TEC 54.203), enter the code '01'; otherwise leave blank. When Item #7 is coded 'E' and the student is a nonresident eligible to pay the resident rate due to the state's waiver for members of the military and their families (TEC 54.058), enter '21'; otherwise leave blank.

01 Exemption of certain veterans, dependents, etc. of the Armed Forces of the United States from payment of tuition

21 Application of resident rather than nonresident tuition to military personnel and dependents

Item #22 SCH Load - NOT State Funded. Enter the number of attempted semester credit hours for which the student is registered that do NOT qualify for state funding during the current semester. Include SCHs of classes that are not allowed to be state funded if attempted three or more times. Exclude SCHs attempted in courses that are state funded (Item #25) and all inter-institutional courses (Items #16 and #24). Examples are attempted SCHs of an undergraduate student who has exceeded the state limit and attempted SCHs of a student in physical education courses that are not allowed for state funding (see discussion on SCHs that exceed state limits in the Introduction). Not required for medical and dental professional students.

Item #23 Unused

Item #24 SCH Load - Inter-Institutional NOT State Funded. Enter the number of semester credit hours in inter-institutional courses in which the student is registered during this current semester that do NOT qualify for state funding. Exclude SCH attempted in state funded inter-institutional courses (Items #16) and all other collegiate level courses (Items #22 and #25). Not required for medical and dental professional students.

## HRI Student Report (CBM001)

- Item #25 SCH Load - State Funded. Enter the number of attempted semester credit hours for which the student is registered that DO qualify for state funding during the current semester. Exclude SCH attempted in collegiate courses that are not state funded (Item #22) and all inter-institutional courses (Items #16 and #24). There is more information on this topic in the Introduction section of this report. Not required for medical and dental professional students.
- Item #26 Unused
- Item #27 SCH of Undergraduate Degree Program. Enter the number of semester credit hours of the undergraduate degree program in which the student is enrolled. Enter '000' if the student is not classified as a senior. For students who have exceeded 100 hours and are not considered seniors, report the hours in the degree program. A student who is enrolled on a temporary basis or who has not enrolled in a degree program is considered to be enrolled in a degree program requiring a minimum of 120 semester credit hours. You may enter '000' for all students until the fall semester 2001. Not required for professional students.
- Item #28 Student Affected by Undergraduate Funding Limitation. Enter a '1' if the student first enrolled in an institution of higher education in the 1999 fall semester or later; otherwise enter a '0'. Not required for medical and dental professional students.
- Item #29 Last Name. Enter the student's last name. Truncate if the name contains over 20 characters.
- Item #30 First Name. Enter the student's first name. Truncate if the name contains over 10 characters.
- Item #31 Middle Name Initial. Enter the initial of the student's middle name.
- Item #32 Full-Time Equivalency of Student. Enter the student's percent of time enrolled, in relation to a full or normal workload at the institution, during the reporting period. Each institution has a policy that determines a full or normal workload. For an undergraduate, a long term workload may be 18 credit hours and 12 credit hours in the summer. For a master's student, a long term workload may be 15 credit hours and 9 credit hours in the summer. For a doctoral student, a long term workload may be 12 credit hours and 6 credit hours in the summer. An equivalency for a medical or dental professional student should be entered by semester too. In calculating an annual FTE, the fall and spring FTEs will be divided by 2 and the summer FTE will be divided by 3 and added per student. A student who enrolls in several courses, and the sum of the credit hours is in excess of a "normal" work load, is coded as 100 percent.
- Item #33 School or College. Enter the six-digit assigned code of the school or college in which the student is to be funded as identified in Appendix A.
- Item #34 Remote Teaching Site. Enter the six-digit assigned code of the remote teaching site listed, if one has been identified in the Introduction section of this report; or enter the zip code of the location if the remote site has not been assigned a unique

HRI Student Report (CBM001)

six-digit code, right-justified, leading zero; or enter the FICE code of the institution if the remote site is another institution. Include the semester credit hours in Item #11.

Item #35 RN Nursing Program. Enter an 'NL' (Not Licensed) to indicate that the student is enrolled in the "generic" BSN program; otherwise, leave the item blank. Students who have received their RN license are not to be reported in this category. Report the student in this status as long as they are studying toward their first RN license. Not required for medical and dental professional students.

Item #36 Non-Disclosure. Enter a '2' to indicate that the individual student has notified the institution of his/her refusal to have "directory information" disclosed; else zero fill.

HRI Student Report (CBM001)

SUMMARY OF STUDENT DATA

PART A

HEADCOUNT: The headcount is a summation of CBM001 records less the number of flexible entry students.

CLASSIFICATION: This summary is based upon level designation of Item #5.

GENDER: The headcount by gender summary is determined by 'M' or 'F' in Item #4.

ETHNIC ORIGIN: The summary is based on the Ethnic Origin code (Item #13).

AGE: The age distribution is calculated by subtracting the date of birth (Item #6) from the beginning date of the semester. For this report the beginning date of each semester is:

Fall	September 1
Spring	January 1
Summer	June 1

RESIDENCE: All residence codes from '001' to '254' are Texas counties. Codes '310' through '369' are other states and U.S. possessions. Codes '402' through '799' are foreign countries. Any other residence code will not be valid.

PART B

FIRST TIME STUDENTS: The first-time-in-college student is based on a code of '000001' in Item #9. A first-time-entering medical and dental professional student is based on a code of '000001' in Item #9 and an 'A' in Item #5. All other numeric values are considered a transfer code and cause a counter to be incremented to show the number of students who have transferred to your institution.

TUITION STATUS: This summary is based on the tuition status codes in Item #7.

REMOTE SITE: When the SCH value in Item #11 is greater than zero, a counter should be incremented by one to indicate the number of students receiving instruction at a remote site.

SCH REGISTERED: Item #10 is summed to produce a total. Hours of flexible entry students are not included. Also Items #16, #22, #24, and #25 are summed for undergraduate students.

FLEXIBLE ENTRY: All records with a '1' in Item #17 are summed separately and are not included in the headcount summaries.

## TEXAS SUCCESS INITIATIVE REPORT CBM002

This report will include all undergraduate students attempting credit hours and any others required to be reported for Texas Success Initiative (TSI) purposes, including transfer students who are registered for one or more Coordinating Board approved courses during the reporting period. Include students in credit certificate programs, but exclude students in continuing education programs. Do not include students who withdraw prior to or on the official census date. The report will include information known about students as of the end of the semester.

Students may be exempt from TSI; however, institutions are not exempt from the evaluation and reporting requirements of TSI. The revised CBM002 will minimize the burden of reporting exempt students, but that data is needed for TSI evaluation and several other purposes (i.e., GPA for all undergraduates). A student must be enrolled at the institution during the term in which the “satisfaction” or “exemption/waiver” (date) is granted. The test occasion date alone does not determine the date. Each student described above will be reported on the CBM002 every reporting period that the student is enrolled at this institution, whether he/she has or has not taken a test for TSI purposes and whether he/she passed or failed. The report must have a record for each semester the student attends this institution. For semesters after a student qualifies to be reported with a date of TSI satisfaction in a section (math, writing, or reading), all other items in that section will be filled with zeros. A transfer student previously determined by any Texas public institution of higher education to have satisfied TSI in a section should be reported with that FICE code and the default value of ‘99999’ for the date of TSI satisfaction; all other items in that section will be filled with zeros. However, a transfer student determined to have satisfied TSI in a section upon admission to the health-related institution (HRI) may be reported with the HRI’s parent FICE code and the default value of ‘99999’ for the date of TSI satisfaction; all other items in that section will be filled with zeros.

The Coordinating Board rules that apply to TSI can be found in Chapter 4, Subchapter C at <http://www.thecb.state.tx.us/Rules/>.

### Exemptions

Students either meet the standards of a specific TSI exemption from all sections (math, writing, and reading) or they meet none, with two exceptions: (1) students who qualify as transfer students and (2) students taking ACT/SAT/TAKS tests. Students may be reported as exempt from the TSI requirements under the following circumstances:

- **Earned degrees**  
A student who has graduated with an associate or baccalaureate degree from a Texas public institution of higher education.
  
- **ACT/SAT/TAAS/TAKS**  
A student who meets the exemption standards and whose ACT, SAT, TAAS, or TAKS scores are active (have not expired). Appropriate ACT and SAT test scores are valid for exemption purposes for exactly five years from the qualifying test date (three years for exit-level TAAS and exit-level TAKS).

## HRI Texas Success Initiative Report (CBM002)

ACT, SAT, TAAS, and TAKS exemption standards are:

ACT: For active tests, a composite score of 23 with a minimum of 19 on the English and/or the mathematics tests shall exempt a student for the corresponding section(s).

SAT: For active tests, a combined critical reading (verbal) and mathematics score of 1070 with a minimum of 500 on the critical reading test and/or the mathematics tests shall exempt a student for the corresponding section(s). For the new SAT tests that include a writing component, ignore the writing section when evaluating a SAT exemption until the Coordinating Board approves the passing standard for writing.

TAAS: A minimum scaled score of 1770 on the writing test, a Texas Learning Index (TLI) of 89 on the reading test, and 86 on the math test shall exempt a student for all sections when attained on the first attempt of each section.

TAKS (Eleventh Grade Exit Level): For tests taken in spring 2004 and later, a minimum scale score of 2200 on the math section and/or a minimum scale score of 2200 on the English/Language Arts section with a writing subsection score of at least 3 shall exempt a student from the corresponding section(s). For tests taken in Spring 2003, the scores are not valid for exemption purposes.

### ➤ Transfers

A student who transfers to a Texas public institution of higher education from a private or independent institution of higher education or an accredited out-of-state institution of higher education and who has satisfactorily completed college-level coursework, as determined by the receiving institution.

### ➤ Military

A student who:

(1) is serving on active-duty as a member of the armed forces of the United States or the Texas National Guard;

(2) is serving as a member of a reserve component of the armed forces of the United States and has been serving for at least the three-year period preceding enrollment; or

(3) on or after August 1, 1990 was honorably discharged, retired, or released from (a) active-duty as a member of the armed forces of the United States or the Texas National Guard or (b) service as a member of a reserve component of the armed forces of the United States.

### ➤ Previous TASP exemption

Should only be used for exemptions granted prior to September 1, 2003 for:

(1) grand-fathering - any student with at least three college-level semester credit hours or the equivalent from an accredited institution accumulated prior to the fall semester 1989;

(2) deaf students who have three or more college-level hours or the equivalent from an accredited institution prior to September 1, 1995;

(3) high school graduates with 3.5 or above GPA in Recommended or Advanced

## HRI Texas Success Initiative Report (CBM002)

Curriculum (effective from September 1, 2001 to August 31, 2003); or (4) students who completed TASP obligation via provision TEC 51.306(u), dyslexia, and other related disorders (effective from September 1, 1995 to August 31, 2003).

All other TASP exemptions should be translated to the corresponding TSI exemptions.

For more information, see

<http://www.thecb.state.tx.us/OS/SuccessInitiatives/DevEd/exemptions.cfm>.

### Waivers

Students either meet the standards of a specific TSI waiver from all sections (math, writing, and reading) or they meet none, except for dual credit enrollment via TAKS score. Students may be reported as waived from the TSI requirements under the following circumstances:

- Non-degree-seeking or non-certificate-seeking students  
An institution of higher education may waive the requirements of the TSI for non-degree-seeking or non-certificate-seeking students.
- Certificate programs of one year or less  
TSI requirements do not apply to students in Level-One certificate programs. Level-one certificates consist of at least 15 but no more than 42 semester credit hours (23-63 quarter hours) designed to be completed in one year or less.
- Dual credit enrollment via TAKS score  
Eligibility for students in the high school graduating class of 2005 to take dual credit courses during the 2003-2004 and 2004-2005 academic years may also be established by achieving at least the minimum passing standard on the English/Language Arts and/or Mathematics sections (as applicable) of the tenth or eleventh grade Texas Assessment of Knowledge and Skills (TAKS) test.

Eligibility for students in the high school graduating class of 2006 and later to take dual credit courses during their junior and senior years may be established by achieving at least a minimum scale score of 2200 on the math section and/or a minimum scale score of 2200 on the English/Language Arts section with a writing subsection score of at least 3 on the tenth grade Texas Assessment of Knowledge and Skills (TAKS) test.

For more information, see

<http://www.thecb.state.tx.us/OS/SuccessInitiatives/DevEd/dualcredit.cfm>. The Coordinating Board rules that apply to dual credit enrollment can be found in Chapter 4, Subchapter D, Section 4.85 at <http://www.thecb.state.tx.us/Rules/>.

### Criteria for Meeting TSI Requirements

An institution may require higher performance standards for students than those required for TSI purposes. Such students should be reported as having satisfied TSI.

## HRI Texas Success Initiative Report (CBM002)

Minimum passing scaled scores for approved tests:

- THEA/TASP: Math - 230; Reading - 230; Writing - 220. The TASP Passing Standards are 220 for all test sections prior to September 1, 1995.
- ASSET: Elementary Algebra - 38; Reading Skills - 41; Written Essay - 6 (raw score); Writing Skills (objective) - 40
- COMPASS: Algebra - 39; Reading Skills - 81; Written Essay - 6 (raw score); Writing Skills (objective) - 59
- MAPS: Elementary Algebra - 613; Reading Comprehension - 114; Written Essay - 6 (raw score); Conventions of Written English - 310
- ACCUPLACER: Elementary Algebra - 63; Reading Comprehension - 78; Written Essay - 6 (raw score); Sentence Skills - 80
- The passing standard for the written essay portion of all tests is a score of 6 (raw score). However, an essay score of 5 will pass if the student meets the objective writing test standard. Report the raw score on the CBM002 and use the objective writing scaled score to determine whether to report the writing essay score as passing or failing.

For a student that does not meet the minimum passing scaled scores on the initial attempt of an approved test, an institution shall determine when the student is ready to perform freshman-level academic coursework on an individual basis according to the needs of the student. As indicators of readiness, institutions shall consider as appropriate:

- Performance in developmental education
- Performance in appropriate non-developmental coursework
- Performance on an approved TSI assessment instrument or performance on an institutionally selected assessment
- Other indicators of readiness as determined by the institution
- The determination shall include the requirement that the student shall retake an approved test if the student did not initially perform at or above the following scores:
  - THEA/TASP: Math - 206; Reading - 201; Writing - 205
  - ASSET: Elementary Algebra - 30; Reading Skills - 35; Writing Skills (objective) - 35
  - COMPASS: Algebra - 23; Reading Skills - 64; Writing Skills (objective) – 44

## HRI Texas Success Initiative Report (CBM002)

- MAPS: No deviation; retest not required by TSI, but an institution's policy may require a retest
- ACCUPLACER: Elementary Algebra - 42; Reading Comprehension - 61; Sentence Skills - 62
- An essay with a score of 5 will meet these criteria if the student meets the objective writing test standard.

The following guidelines may be helpful in determining the highest score on subsequent tests if multiple test instruments have been used:

If subsequent tests are not the same instrument, determine in which stratum (below deviation, above deviation but less than the passing standard, or above the passing standard) the score range falls for each instrument. Submit the test score that falls in the highest stratum. If the test scores are in the same stratum, the institution may decide which one to report.

## General Criteria About Initial Test Attempts

A comparison on all initial assessment types has been implemented to evaluate the compliance of the THEA/TASP requirement (if one part taken, all have been taken). However, partial initial THEA scores are allowed effective with initial THEA test occasions on or after 7/1/2004 and reported fall 2004 and thereafter. Otherwise, if there is a THEA/TASP test type and another assessment type reported in the initial assessment items, a comparison is done on the initial assessment dates to determine which assessment type occurs first. If THEA/TASP is the earliest initial test occasion, then all sections must be shown as THEA/TASP assessments and any area "not taken" on the initial assessment must be reported as failing below the deviation with a score of zero. Any other assessment type will have to be shown in the Subsequent Assessment categories. If the earliest initial assessment date is a COMPASS, ASSEST, MAPS, OR ACCUPLACER test, then each assessment section is reported based on the earliest test type for each section and THEA/TASP can be one of the initial tests.

## TSI Satisfaction During Prior Term

If the TSI Satisfaction Date (Item 20B/30B/40B) is earlier than fall 2003 (20031), then the obligation code (Item 21/31/41) cannot be a value of '6', '7', or '8' because those categories did not exist under TASP. Also, if the TSI Satisfaction Date has been coded as occurring at a transfer institution (date coded 99999) or the satisfaction date is prior to the reporting term, the Exemption/Waiver Date (Items 22A/32A/42A) must be zeros.

## Developmental Education

For purposes of this report, course-based developmental education occurs when the developmental courses being taught are on your Coordinating Board approved course inventory for funding purposes.

## THEA/TASP Scores Database

## HRI Texas Success Initiative Report (CBM002)

The CB receives and applies THEA/TASP scores from National Evaluation Systems (NES) approximately four weeks after each test occasion. NES updates to prior test occasion data are also applied at this time. Changes to THEA/TASP scores at the CB can only be applied from NES and not from the institution. The student should contact NES if any erroneous information is discovered on the NES file. Social Security number changes are provided by NES and applied weekly.

## Indications of Successful Texas Success Initiative Programs

The Texas Success Initiative gives institutions flexibility in designing programs to help under prepared students be successful; therefore, institutions will have plans that differ in the details, but the goal of each plan will be the same - to help under prepared students be successful college students. The problem, however, is always the same: how do you measure success? The reporting system has to be global enough to capture the various aspects of those programs yet structured enough to capture the essential elements of student learning and allow for comparison of programs and results from year to year and institution to institution. In the spirit of the Success Initiative flexibility, this reporting system is meant to be a means for institutions to report data on the success of their students and programs by tracking the educational progress of individual students. It is intended that the data and resulting reports will allow institutional researchers to find the strengths and weaknesses of particular programs and allow the state to determine if the Success Initiative is meeting the statewide goal of helping under prepared students be successful.

## Intent and Purpose

The intent of the Coordinating Board is to extract as much information from the CBM002 as possible without over burdening the institutional reporting official. The purpose of the data collected is to allow the CB to create a summary report that reflects the activities taking place on campuses statewide to assist students in becoming college ready, and allows us to answer questions from stakeholders about the effectiveness of the program. After all CBM002 reports for a fiscal year have been received and processed, the Coordinating Board will publish the student performance data for the respective independent school districts.

## Authority

At a minimum, the information reported on the CBM002 will be used to fulfill the requirements of Texas Education Code 51.3062 that "(n) Each institution of higher education shall report annually to the board on the success of its students and the effectiveness of its Success Initiative," and "(o) The board shall evaluate the effectiveness of the Success Initiative on a statewide basis and with respect to each institution of higher education." Other reports and data analysis above and beyond the requirements of the law may be generated in order to help institutions analyze and improve their programs based on information from the CBM002 and an analysis of the institutional Texas Success Initiative plans.

## Relationship of CBM002 to Texas Success Initiative Plans

Data from the CBM002 provides valuable information about student learning and will be structured uniformly so comparisons of the data can be made institution to institution and from year to year. Results of comparison studies can only be meaningful if there are standard

## HRI Texas Success Initiative Report (CBM002)

definitions in the reporting elements. This is the real strength of this reporting format. The CBM002 provides the uniform template for institutions to report data to the Coordinating Board on the educational progress of students. Concurrent analysis of the similarities and differences of the various Texas Success Initiative plans will help researchers and stakeholders identify elements of programs that are uniquely successful at various institutions and may be easily exported to other institutions.

## General Education Core Curriculum Component Areas (Math) and Competencies (Reading and Writing)

The objective of the mathematics component of the core curriculum is to develop a quantitatively literate college graduate. Every college graduate should be able to apply basic mathematical tools to the solution of real-world problems.

Competency in writing is the ability to produce clear, correct, and coherent prose adapted to purpose, occasion, and audience. Although correct grammar, spelling, and punctuation are each a *sine qua non* in any composition, they do not automatically ensure that the composition itself makes sense or that the writer has much of anything to say. Students need to be familiar with the writing process, including how to discover a topic, how to develop and organize it, and how to phrase it effectively for their audience. These abilities can be acquired only through practice and reflection.

Reading at the college level means the ability to analyze and interpret a variety of printed materials -- books, articles, and documents. A core curriculum should offer students the opportunity to master both general methods of analyzing printed materials and specific methods for analyzing the subject matter of individual disciplines.

Consider the following conditions when reporting a core course of a transfer student and in no instance should the transferred-to institution report the grade from the transferring institution.

1. When a core course was taken during the reporting period
  - a. the grade attained should be coded in Item 25B/35B/45B if a grade of C or better was not attained and reported in a prior term.
  - b. in all terms after a grade of C or better has been reported the area will be reported as null.
2. When a core course was not taken during the reporting period
  - a. and at the time of submission the institution has not evaluated a transcript to know whether a grade of C or better has been attained on a core course for a specific section(s) by a transfer student, report a value of '7' (not attempted) in Item 25B/35B/45B.
  - b. and at the time of submission the institution has evaluated the transcript and determined that a grade of C or better has been attained on a core course for a specific section(s), then reporting the null value is appropriate.

**WRITING ASSESSMENT and STATUS SECTION:** In the semesters after a student satisfies the TSI section and qualifies to be reported with a date in Item #30B, zero fill all other items in this section. A transfer student previously determined by any Texas public institution of higher education to have satisfied the TSI section should be reported with that FICE code in Item #30A, '99999' in Item #30B, and zeros in Items #31 through #34D. All other transfer and native students should be reported with the appropriate values in Items #31 through #34D, until the semesters after a student satisfies the TSI section and qualifies to be reported with a date in Item #30B. However, a transfer student determined to have satisfied TSI in a section upon admission to the health-related institution (HRI) may be reported with the HRI's parent FICE code and the default value of '99999' for the date of TSI satisfaction; all other items in that section will be filled with zeros.

Item #30A Writing TSI Satisfaction at Previous Institution Code. This item must be provided every reporting period. Enter the FICE Code of the previous Texas public institution where the TSI section was satisfied (except as noted above). See Appendix A. Otherwise, enter '000000' and report the appropriate date in Item #30B. If the specific institution (FICE) has not been recorded in the institution's electronic data for students transferring prior to fall 2004, the FICE of the latest Texas public institution transferred from may be reported.

Item #30B Writing TSI Satisfaction Date. This item must be provided every reporting period. Enter the year and semester (YYYYS) when the TSI section was satisfied at the current institution for the first time, or subsequently after a previous waiver expired. Enter '00000' until the section is satisfied at the current institution. Enter '99999' if a previous Texas public institution code is reported in Item #30A (or as noted above).

6. Satisfied TSI obligation based on performance in developmental education
7. Satisfied TSI obligation based on performance on an institutionally selected assessment
8. Satisfied TSI obligation based on other indicators of readiness, as determined by the institution
9. TSI obligation not met

Item #32A Writing TSI Exemption/Waiver Date. Enter the year and semester (YYYYS) when the TSI exemption or waiver identified in Item #32B was granted. Enter '00000' if the item is null, not applicable, or unknown. The same value must be reported for all sections (math, writing, and reading), with some exceptions (see pages 2.1 and 2.2).

0. Null (Report only for semesters after a student satisfies the TSI section and qualifies to be reported with a date in Item #30B, or if a previous Texas public institution code is reported in Item #30A, or as noted above)

2. Waiver based on Level-One Certificate Program or non-degree-seeking or non-certificate-seeking status
3. Exemption based on ACT Scores
4. Exemption based on SAT Scores
5. Exemption based on TAAS or TAKS Scores
6. Exemption based on military service

Item #33A Writing TSI Initial Assessment Score. Enter the initial test score for writing. The score must match the type test identified in Item #33D. If the test was THEA/TASP, enter the writing scaled score. For COMPASS, ASSET, MAPS, and

ACCUPLACER tests, enter the single-digit writing essay score, not the writing objective score. Since the writing essay score is a single digit, enter leading zeros. Enter '000' if the item is not applicable or null.

The essay and the objective components of the COMPASS, ASSET, MAPS, and ACCUPLACER test instruments are to be taken at the same time for TSI purposes (even though the tests are designed such that an institution may assess them independently). So a value of zero in Items 33A/34A will be allowed when Item 33B/34B are reported with a value of 2, "Failed below the deviation". The essay component is the primary determinant for the value reported in Items 33B and 34B—above 5 is passing and below 5 is failing. The objective portion is only used to determine if a 5 is passing or failing. Therefore, if the objective component has been taken, but the essay portion has not, report zeros in Item 33A/34A, the date of the objective component in Item 33C/34C, and a 2 in Item 33B/34B. If neither the writing objective or the writing essay section have been attempted, report a 3, "Not Attempted", in Item 33B and an 8, "Student allowed to enroll but did not test during the reporting period", in 33D, and zeros in Items 33A and 33C.

Item #33B Writing TSI Initial Assessment Pass/Fail. Enter the appropriate indicator showing whether the student met TSI requirements (see pages 2.3 and 2.4) with the initial test score identified in Item #33A. Partial initial THEA scores are allowed effective with initial THEA test occasions on or after 7/1/2004 and reported fall 2004 and thereafter. Otherwise, for THEA/TASP, if one section (math, writing, or reading) is attempted, then all sections are attempted.

0. Null (Report only for semesters after a student satisfies the TSI section and qualifies to be reported with a date in Item #30B, or if a previous Texas public institution code is reported in Item #30A, or as noted above)
1. Passed
2. Failed below the deviation (TSI requires that the student shall retake an approved test)
3. Not attempted
4. Failed at or above the deviation (TSI does not require that the student shall retake an approved test)

Item #33C Writing TSI Initial Assessment Date. Enter all four digits of the year, the month, and day (YYYYMMDD) of the initial test score identified in Item #33A. If the date is unknown, enter '00000000'. If the month and year are known but the specific day of the test is not known, enter a default day of the 15<sup>th</sup>. Partial initial THEA scores are allowed effective with initial THEA test occasions on or after 7/1/2004 and reported fall 2004 and thereafter. Otherwise, for THEA/TASP, the same value must be reported for all sections (math, writing, and reading).

Item #33D Writing TSI Initial Assessment Type. Enter the appropriate response from the list below for the initial test score identified in Item #33A. If the student qualifies for an exemption, the "9" value may be appropriate. Partial initial THEA scores are allowed effective with initial THEA test occasions on or after 7/1/2004 and reported fall 2004 and thereafter. Otherwise, for THEA/TASP, the same value must be reported for all sections (math, writing, and reading).

REPORTING EXAMPLES

Items #1 through #11 will be entered each time. Since the report is designed so that the coding for each section (Math, Writing, and Reading) is similar, the examples here reflect the items in the Math and Reading sections, but are applicable to all sections.

- 1a. In fall 2003, a student failed initial Math section of the THEA test but passed the other 2 sections. The student enrolled in a developmental course in math and also made a 'D' in a core course in math and a 'C' in a core course in reading:

Item #12 = 03	Item #23A = 220	Item #24A = 000	Item #25A = 00000
Item #20A = 000000	Item #23B = 4	Item #24B = 3	Item #25B = 4

Salary Computations:

1. Sum the percent of time assigned for all appointments (Items #13A-13E).
2. Sum the salary amounts for all funds (Items #14A-X).
3. Divide the total percent of time assigned for all appointments (step 1) into the sum of all salary amounts (step 2) giving a full-time equivalent (FTE) salary for all appointments.
4. Summarize the FTE salaries (results of step 3) of ONLY the faculty who have percents of time assigned to appointment 01.
5. Tally all faculty with appointment code 01 where FTE salaries are greater than zero.
6. Divide the total faculty with appointment code 01 (results of step 5) into the total FTE salaries of faculty with 01 appointments (results of step 4) to yield the average FTE salaries.

Item #15 Appointment Length. Enter the number of months of the appointment. Enter a leading zero for an appointment of less than 10 months.

GRADUATION REPORT  
CBM009

This report will reflect degrees conferred during the fiscal year immediately preceding the fall semester in which the report is submitted. The initial report and any updates should be transmitted using the Electronic Data Transfer System.

Only degrees listed in the institution's Inventory of Approved Degree Programs are to be reported.

If a student is awarded more than one degree in a reporting period, enter separate records for each degree.

The CBM009 Appendix is extracted from the current Degree Program Inventory file. It contains (a) the degree designation to be reported, (b) the level, and (c) the CIP code of each program authorized by the Texas Higher Education Coordinating Board. The data submitted in Items #7, #8 and #9 of each CBM009 record correspond to (a), (b), and (c) above, and will be validated against the Degree Program Inventory file.

For the academic units, this report will include all students who have been awarded an Associate Degree or above during the fiscal year.

For the professional schools, this report will include all students who have been awarded a professional degree ('DDS', 'DO', 'MD', 'PharmD') during the fiscal year.

## FACILITIES ROOM INVENTORY REPORT CBM011

This report will include distinctions for all types of space within a building and its intended design function. Room Type codes and Room Use codes are found in Appendices F and G, respectively. See Appendix I for a Glossary of Facilities Terms. The Appendices can be viewed at <http://www.txhighereddata.org/ReportingManuals.cfm>.

### Basis for Classification

Information to code rooms according to architectural features can best be obtained by a visual inspection of each room, but may also be obtained from as-built drawings. The evaluation of a room's functional use should be based on the judgment of a departmental representative and/or facility planning or physical plant personnel who are familiar with the coding structure in this manual. A room's type, use, and function can change from one inventory, or audit date, to another and should be updated as needed to reflect the current room inventory. A room's type does not change until its basic design function has changed. Room Type code 060 can be used temporarily to reflect unassigned space while it is undergoing a conversion by remodeling.

### Rooms to be Included

Room Type codes for cubicle space are regarded as Office Facilities (300) that can be assigned to academic, administrative, or service functions of an institution. Each defined workspace can be considered a room. Operations independent of an institution's mission are to be reported under Room Use codes 91 and 92. The Appendices to this manual includes Room Type codes for inventory circulation areas, building service, mechanical, and structural areas, which are classified as unassigned space.

### Rooms Not to be Included

Residential rooms in a facility with Building Type codes 6 or 7 (Residence/Single and Residence/Family) need not be reported except for rooms used for non-residential purposes. Residential rooms in a facility with Building Type code 2 (Academic/Residence) need not be reported except for rooms within the building that are used for non-residential purposes. Space within a leased facility that is not used by the institution need not be reported. Covered play areas and covered walkways are not considered rooms.

### Additions of Rooms

Report the additions of rooms whenever they are ready to be occupied for use. Submit a complete replacement of the file.

### CIP Code and Room Usage Limitations

The CIP code is a required field within a room record that may be prorated up to three times, based on percent of use with different CIP codes, to precisely identify space being used by a particular discipline, department, and/or function. A six-digit CIP code corresponds to a single instructional program and its first two digits correspond to a group of instructional programs. If an exact CIP code can not be determined, assign the most accurate code available.

## HRI Facilities Room Inventory Report (CBM011)

Academic CIP codes should not be used with Institutional Support room usage codes (60). These two areas are fundamentally different. Space for academic administration is Room Usage Academic Administration (46) and it must be combined with an Academic CIP, as in the case of the departments' headspace.

Descriptive information on specific NCES CIP codes can be obtained from the following NCES web address: <http://nces.ed.gov/pubsearch/pubsinfo.asp?pubid=2002165>. The Coordinating Board has an index of the current and deleted NCES CIP codes on its web site at <http://www.txhighereddata.org/Interactive/CIP/>.

### Basis for Room Measurement

Room dimensions are measured to the nearest tenth of a foot from interior wall surfaces to opposite interior wall surface, disregarding alcoves. Alcove dimensions are measured and reported separately; columns and projections should be ignored. See Appendix I, Room Measurements.

An alcove is measured between its sidewall surfaces and from its back wall surface to where the plane of the primary wall surface crosses the alcove opening. The room inventory file format only allows two sets of alcoves to be reported. If there are more than two alcoves in a room, the total area must be mathematically converted into two sets of alcove dimensions.

### Function Codes

*Primary Room Type/Design Use:* Each room has one best Room Type code based on its exclusive or predominant design/use. Primary activity areas (Room Type codes) always end with "0". For a room that is used as an office (Room Type 310) and a research/non-class laboratory (Room Type 250), a single determination for primary activity should be made. It is recommended that primary be evaluated in terms of time, the human activity that focuses on use, rather than space. Room Type codes change when a room's predominant use or physical characteristics have been changed and/or remodeled.

*Service Codes:* Determine whether the existence of a particular room, with its specific design/function and use, is dependent upon or justified by another room (usually nearby) and its specific use. If a significant degree of dependency exists, an appropriate service code should be used. Support or service space is identified by Room Type codes ending with "5".

### Prorations of Use

A room may be reported with up to three use/program area functions: primary, secondary, and/or remaining. Where a room serves several purposes or uses, it may be reported on the basis of time spent on each activity. Overall, the total percent of use/proration for primary, secondary, and remaining use must always total 100 percent. Only a room's use and program area may be prorated since Room Type cannot be prorated.

## HRI Facilities Room Inventory Report (CBM011)

### REPORTING EXAMPLES

1. Alcoves – *How is an alcove measured separately from the main room dimensions?*

The main dimensions, L-1 and L-2, are measured from one wall surface to the other, disregarding alcoves. An alcove, by definition, is a recess into or beyond the primary wall surface. Alcove dimensions are measured between its sidewall surface and back wall surface to where the plane of the primary wall surface crosses the alcove opening.

A room record has four data fields for two sets of alcoves. When more than two alcoves exist, the total area for all alcoves must be mathematically converted into two sets of dimensions. Here is an example of how to compute the dimensions of three alcoves:

<u>Alcove</u>	<u>A-1 x A-2</u>	<u>Area</u>	
Alcove 1	13.6 x 3.2	43.5	
Alcove 2	9.8 x 4.1	40.2	
Alcove 3	12.2 x 3.5	42.7	
	<i>Total Area</i>	126.4	

Divide the total area by two to determine a gross area ( $126.4 / 2 = 63.2$ ) then report two sets of fictitious alcove dimensions:

$$\begin{aligned}\text{Alcove 1} &= 2 \times 31.6 \\ \text{Alcove 2} &= 2 \times 31.6\end{aligned}$$

2. Alumni offices and associations – *How is this space treated?*

Institutions must maintain some form of alumni offices to keep records of graduates as required by accrediting agencies. This Room Usage is Alumni Records (66). When alumni offices also coordinate activities of an alumni association and direct fundraising campaigns, Room Usage is prorated Independent Operations/Institutional (91) and CIP is Alumni Relations (817500).

3. Chapels – *How are they coded?*

A chapel is a devotional facility, and the Room Type is Assembly (610). Associated rooms are coded according to their actual Room Type, usually Office (310), Conference Room (350), etc. The Room Usage is Social and Cultural Development (52) if under the institution's control. If the chapel is not under the institution's control nor housed by the institution, it is not inventoried.

4. Clinics: non-health care and health care – *How are they coded?*

A Clinic (540) Non-Health Professions room may be assigned many appropriate CIP and Room Usage codes. For example, a Clinic (540) Non-Health Professions may be to diagnose learning disabilities in pre-school children and assigned Learning and Language Disabilities (131011) and General Academic Instruction (11) if it is part of an instructional program in the college of education. Health care facilities may be in student health care centers, medical centers, teaching hospitals, or veterinary facilities. It is non-

## HRI Facilities Room Inventory Report (CBM011)

E&G unless it is used for General Instruction (11), Vocational Technical Instruction (12), Occupation-related Instruction (15), Institutes and Research Centers (21), or Individual or Project Research (22).

### 5. Classrooms that serve several disciplines – *How are they coded?*

All Classrooms (110), regardless of use, are General Use (000000) with Instruction Room Usage (11-18). Classrooms may be coded with one or more of these codes depending on the proportionate use of the room. Listed below are Room Types that may need to be considered if the space is part of a particular instructional program:

- Media Production (530) becomes Laboratory (210, 220, or 230)
- Assembly (610) becomes Classroom (110)
- Central Computer or Telecommunications Service (710) becomes Laboratory (210, 220, or 230)
- Shop (720) becomes Laboratory Service (215, 225, 235, or 255)
- Central Storage (730) becomes Classroom or Laboratory Service (115, 215, 225, etc.)

### 6. Columns, chases, and other architectural features in a room – *How are these measured?*

Measure the room's dimensions from wall surface to opposite wall surface and do nothing about such features. (Ignore--do not add or subtract these dimensions.)

### 7. Conference Rooms, Meeting Rooms, Classrooms, Demonstration Rooms, and Assembly Rooms – *What is the difference?*

Conference Rooms (350) are office-related that serve an office complex and are primarily for staff meetings and other non-instructional uses.

Meeting Rooms (680) are non-office and not classroom related. They serve a variety of purposes, such as for student organizational meetings.

Classroom (110) is used for regularly scheduled instruction that requires no special equipment. The traditional Classroom was a room with a chalkboard at the front and rows of chairs or desks for students. Modern classrooms often are amphitheatres with fixed seating and special multimedia or telecommunications equipment. Lecture rooms, seminar rooms, and lecture/demonstration rooms are considered Classrooms for inventory purposes even if they have a lab table at the front for demonstrations.

Demonstration (550) is designed for the practice of certain disciplines, such as teaching, nursing, and home economics.

Assembly (610) is designed and equipped for large groups and used for a variety of purposes, such as dramatic and musical productions, non-instructional lectures, etc., including limited use for scheduled instruction. While some lecture halls are designed like auditoriums, they are Classrooms (110) if they are regularly scheduled for instruction.

## HRI Facilities Room Inventory Report (CBM011)

### 8. Day care centers – *How is this space coded?*

Day Care (640) and Day Care Service (645) have been added to the Room Type categories, but before this manual was published, institutions were advised to code this space as Other (590). If a Day Care facility is institutionally controlled or housed, the Room Usage is Auxiliary Services (55) or Faculty and Staff Auxiliary Services (65). If the Day Care facility is part of the instructional program, the Room Type is Demonstration (550) and the Room Usage is Instruction (11 or 12).

### 9. Dean's offices – *How are they coded?*

Most deans' areas of authority can be matched with a CIP listed in *Appendix C*. Space for a dean of education is assigned Education, General (130101). The Multi/Interdisciplinary Studies listing provides several CIPs for deans. For instance, the dean of a graduate school may be assigned Deans-Interdisciplinary (497600). The Room Usage for all academic deans is Academic Administration (46).

Note that some institutions use the title "dean" for vice-presidential classified positions, and the CIP Central Operations (810000 series) must be assigned.

### 10. Departmental libraries – *How are they coded?*

Departmental libraries are not designated. They are assigned the appropriate CIP and Room Usage codes. If staffing and administration is under the control of the main library and/or its major branches, the space is Library Service (41).

### 11. Departmental research – *How are these areas coded?*

Departmental research space is Room Usage Individual or Project Research (22) in most cases. The CIP is determined by its academic discipline.

### 12. Dividing one room into two or more rooms – *How is the inventory updated?*

If the old room number is retained for one of the new spaces, changes to the dimensions, as well as any other new data for the original record, must be reported. The new rooms within the divided room are separately numbered (perhaps with letter suffix) and added to the inventory as new rooms. If the original room number is dropped, that room is deleted from the inventory and the subdivided spaces are added as new room records.

### 13. Faculty assigned to library study rooms – *How are faculty study rooms treated?*

Faculty study rooms in libraries are Library Service (41), although they are restricted to faculty use. However, if a faculty member is assigned such a room as a main office, the Room Type is Office (310), and it is assigned the appropriate CIP and Room Usage.

### 14. Fraternity/sorority houses and dormitories – *How are these treated?*

Rooms in fraternity and sorority houses that are university facilities are Student Auxiliary Services (55) and CIP (733000), and the appropriate Room Type Residential Facilities

## HRI Facilities Room Inventory Report (CBM011)

(900 series). University owned dormitories only need to be included in the building inventory since their assignable room space is automatically calculated at 60 percent. If the facility is not budgeted through or controlled by the university, it is not included in the inventory.

### 15. HVAC Plants – *How are they coded?*

Only assignable space in these type facilities should be coded with the appropriate Room Type such as Office (310), Locker Room (690), etc. All rooms part of plant operations are Room Usage Utilities (74). Note that a major portion of the space in these type facilities house machinery and may be classified by Room Type Mechanical Area (YYY) and Room Usage Mechanical Areas (03), which is non-assignable space.

### 16. Improvements and infrastructure – *How are open parking lots, tennis courts, playing fields, outdoor swimming pools, and tracks treated?*

This manual deals only with procedures for describing buildings and rooms. The authors recognize that a building and room inventory may not constitute the full range of institutional facilities and recommends that when such additional information is desired, the institution develop its own codification scheme for its purpose.

### 17. Interview rooms – *How are these treated?*

Interview rooms are considered Room Type Office Service (315). Room Usage is determined by activity in the room. Examples of Room Usage are Placement and Career Guidance (53), Financial Aid Administration (54), and General Administrative and Logistical Service (63).

### 18. Lounges, circulation/lobby areas, and public waiting – *How are these Room Types distinguished?*

Lounge space for faculty, students, and staff are assignable space. Public Waiting for care in a health care facility is assignable space. Circulation Areas are non-assignable hallway space. A Lounge (650) is a room for rest and relaxation. It typically has upholstered furniture, draperies, and carpeting and may include vending machines. Public Waiting (880) is for the public to await admission, treatment, information, or patient visits in a Health Care Facility. Included are waiting and reception areas, visiting areas, and viewing areas. Circulation/Lobby Area (WWW), such as stairs or hallways, are considered non-assignable space and are optional to report. However, a lobby may function as a Lounge (650) or as an Exhibition Room (620). In these cases, the proper Room Type should be chosen and inventoried. The judgment here is based on primary function or predominant use.

### 19. Offices that serve many clients – *How are they coded?*

The distinction among its type of clients and activities are by CIP and Room Usage that may be prorated.

### 20. Police or campus security space – *What are the Room Types for holding cells, interview rooms, and armories associated with this type of space?*

## HRI Facilities Room Inventory Report (CBM011)

Holding cells, interview rooms, and armories are considered Office Service (315) or Conference Room Service (355).

21. Publication space – *How is its Room Usage coded?*

If the control and/or direct supervision of a campus publication is with institutional administration, i.e., university press, public relations office, etc., Room Usage is General Administration and Logistical Services (63). However, if the activities are under the auspices of a journalism department, the publication is likely a result of laboratory assignments and the appropriate academic CIP, Room Type, and Room Usage codes are assigned. If the space is neither, Room Usage is Social and Cultural Development (52).

22. Registrar's Office, Student Recruitment and Admissions, and Student Records – *At some institutions, Student Recruitment and Admissions (67) and Student Records (68) are functions of the registrar's office. In these cases, how is the space coded?*

If the registrar's suite of offices has separate offices for separate functions, the Room Usage code may be determined by the function. If these functions are not separate, either code may be used or it may be prorated.

23. Room type for a room with a combination of purposes – *How is this coded?*

Room type is determined by design and use combined, but primarily by design. Once the room type is selected, it does not change because of occasional untypical use. It changes only if its whole character is changed by redesign or if its primary use changes. Basic design and its regularly scheduled instructional use identify Classroom (110). Another example is a lab. It may be a Class Lab (210), a Special Class Lab (220), or a Non-Class Lab (250), but only one at a time as determined by its primary use (the predominant portion of the time used). CIP and Room Usage may be prorated but not Room Type.

24. Room usage prorations – *What is the best method to determine proration of use?*

To determine proration, determine which departments use the room and for what purpose. The percentage of use is usually expressed as time estimates, such as 60-40, 55-45, 30-70, etc. These estimates are satisfactory in describing split use of CIP and Room Usage as primary, secondary, and remaining use.

25. Shipping and receiving – *How are loading platforms treated?*

Generally, a receiving area is considered Room Type Circulation Areas (WWW), which is non-assignable space and optional to report. If the receiving area is also used for storage and part of a central warehouse, it is Room Type Central Storage (730). A departmental receiving area used for storage is considered a service room, such as Office Service (315), Class Lab Service (215), etc.

26. Student unions and other student activity centers – *How is space in these type facilities reported?*

## HRI Facilities Room Inventory Report (CBM011)

In general, Room Types for student activities are Office (300 series) and General Use (600 series). Social and Cultural Development (52) is the appropriate Room Usage for student organizations, recreational activities, and cultural activity areas.

27. Toilets: public and private – *What is the difference?*

Public toilets are accessible to all persons using a building and considered unassigned space. If reported on the inventory, they are assigned CIP General Use (000000), Room Types (M10, W10, or U10), and Room Usage Public Rest Room (05). If the use of a toilet is restricted to a certain group or individual, it is a private toilet and considered a service area, such as Office Service (315) or Class Lab Service (215), and is considered assignable space. If a bath/toilet adjoins a patient bedroom in a health care facility, it is Room Type Patient Bath (820), assignable space.

28. A room is designed as a science lab and it is assigned to the chemistry department. Its Room Type is one of the 200 codes and its CIP is 400501. If the chemistry department determines that the laboratory is regularly scheduled for classes, the specific Room Type Class Laboratory (210) and the Room Usage General Academic Instruction (11) are used.

## FACILITIES BUILDING INVENTORY REPORT CBM014

This report will include facilities under the jurisdiction or control of the institution's governing board, regardless of its location. It may encompass many different types of structures, including marine/research vessels; aquarium structures; animal quarters; and trailers on wheels that are not mobile. If a building is not owned by the institution or is shared with other tenants, include only the portion of the building leased or controlled by the institution and its pro rata share of gross, assignable area and non-assignable area.

As a guideline, minor structures or temporary facilities should be included if all of the following criteria are met:

- the structure is attached to a foundation;
- the structure is roofed;
- the structure is serviced by a utility, exclusive of lighting;
- the structure is a source of maintenance and repair activities; and
- the structure's space has at least a six-foot, six-inch clear ceiling height

Refer to Appendix H for building data file codes and definitions. See Appendix I for a Glossary of Facilities Terms. The Appendices can be viewed at <http://www.txhighereddata.org/ReportingManuals.cfm>.

### Addition of Buildings

Report additions of buildings whenever they are ready to be occupied for use. Submit a complete replacement of the file.

### Building Demolition

A building must be on the inventory with the appropriate Building Condition and Room Usage codes until it is demolished. After demolition, building and room records may be deleted.

### Limitations

Buildings not to be included are investment properties that are used only for revenue generation and not for institutional purposes; hospitals not owned by the institution, except for any space in the hospital leased or controlled by the institution; public schools not owned by the institution, but used for practice teaching; and federal contract research centers identified by the Federal Office of Management and Budget (OMB).

### Basis for Building Measurement

Gross area is computed by physically measuring or scaling measurements from the outside faces of exterior walls, disregarding cornices, pilasters, buttresses, etc., which extend beyond the wall faces. Gross area is measured to the nearest whole foot.

## HRI Facilities Building Inventory Report (CBM014)

### **NOTES:**

Building Type codes 6 and 7 (Residence/Single and Residence/Family) do not require residential rooms to be included in the facilities inventory room file. The building's assignable space will automatically be calculated at 60 percent.

Building Type code 2 (Academic/Residence) is a mix-use facility and only nonresidential rooms should be included in the facilities inventory room file.

Building Types codes 8 and 9 (Non-institutional Agency Buildings and Rental Property) do not require space to be included in the facilities inventory room file that serves non-institutional functions.

- Item #4     Building Number. Enter the assigned building number.
- Item #5     Building Name. Enter the assigned name of the building.
- Item #6     Condition Code. Enter the condition code based on the physical status of the building at the time of the report. See Appendix H.
- Item #7     Ownership Code. Enter the ownership code that represents the agency with which the ownership of the building resides. See Appendix H.
- Item #8     Location Code. Enter the location code that represents the physical location of the building in relation to the main campus. See Appendix H.
- Item #9     Type Code. Enter the type code that represents the purpose-function category that best describes its primary use. See Appendix H.
- Item #10    Construction Code. Enter the construction code that represents the predominant type of construction used to build the facility. See Appendix H.

adjusted for inflation, but is a cumulative total of actual dollars invested to the nearest dollar. If a building is not owned by the institution, report the dollar amount invested for its use. If a building is a gift or has no capital investment for other reasons, enter '1'.

Item #15 Building Perimeter. Enter the outside measurement of the building where the ground meets the walls, excluding porches, sidewalks, and cosmetic structures. Measure to the nearest foot.

REPORTING EXAMPLES

1. Chapels – *How are they coded?*

A chapel is a devotional facility, and the Room Type is Assembly (610). Associated rooms are coded according to their actual Room Type, usually Office (310), Conference Room (350), etc. The Room Usage is Social and Cultural Development (52) if under the institution's control. If the chapel is not under the institution's control nor housed by the institution, it is not inventoried.

2. Parking garages – *By coding such space as Vehicle Storage Facility (740), is the institution being credited unfairly with assignable area as opposed to institutions with open parking lots?*

Only garages, bays, or other multi-level structures for storage of institutional vehicles are E&G NASF space. These areas are coded Functional Operations (820000 series) or Maintenance Operations (830000), Vehicle Storage Facility (740); and General Administration and Logistical Services (63) or Physical Plant Operations (70 series). Garages that serve students, faculty, staff, and the general public for their private vehicles should be coded as above, except the Room Usage is Independent Operations/Institutional (91), non-E&G NASF.

3. Renovations – *How is the inventory updated when assignable space becomes unusable due to a renovation project?*

Either building or room records may be modified to indicate renovations. If the entire building is unusable due to a current major renovation, Building Type Renovations (R) will temporarily exclude it from assignable space. Room Type Alteration/Conversion Area (060) will exclude a room record from assignable space on a temporary basis for conversions or renovations. When the conversion is complete and the space is ready to be occupied the record(s) must be updated to reflect its current information.

4. Spectator seating – *How is this treated?*

If building space has non-movable spectator seating for intercollegiate athletics, it is coded Intercollegiate Athletics (720000 series), Athletic Facilities Spectator Seating (523), and Intercollegiate Athletics (56). If the seating is for recreational or intramural events, it is coded Recreation (714000) or Intramural Athletics (715000), and Social and Cultural Development (52). If spectator seating is the fold-up type, such space within a room is not inventoried separately. Outdoor spectator seating is not inventoried.

STUDENT NUMBER CHANGE REPORT  
CBM00N

The Texas Education Code, Sections 54.068 and 61.0595, sets an undergraduate funding limit for universities and health-related institutions equal to length of degree plus 45 semester credit hours. The limit applies to students who first enroll in an institution of higher education in the 1999 fall semester and later. The academic semester credit hours attempted at community, technical, and state colleges affect this limit. In order for the Coordinating Board to maintain a database indicating the number of hours an eligible undergraduate student has accumulated toward the limit, student identifying numbers (social security numbers), birth dates, and gender must be as accurate as possible. These changes can be submitted through the electronic data transfer system using the format identified in this report.

When the current change is applied to the database at the Coordinating Board, any number that generates a conflict with a student number that already exists on the database, will require that a copy of the student's social security card be sent to the Educational Data Center so conflicts can be resolved.

The database is not operational at this time, but to alleviate the institution having to maintain more than one prior number, the CBM00N report will be accepted and stored at the CB until the database is operational. This report can be submitted at any time. The date that the CB applies the change will be maintained in the database.

HRI Student Number Change Report (CBM00N)

INSTRUCTIONS FOR STUDENT NUMBER CHANGE REPORT

Item #1 Record Code. Always enter 'N'.

Item #2 Institution Code. Enter FICE Code of the institution (see Appendix A).

**NOTE:** All three items: student number, birth date, and gender will be used to uniquely identify a student. All three items of the prior number must match to a record in the database before the current number will be used as a replacement.

Item #3 Current Student Identification Number. Enter the current Social Security Number of the student. This should not be an assigned identification number except in infrequent occasions.

Item #4 Current Date of Birth. Enter all four digits of the year and the month and day of birth of the student in format YYYYMMDD.

YYYY = Year      MM = Month      DD = Day

Item #5 Current Gender. Enter the gender of the student.

M = Male      F = Female

Item #6 Prior Student Identification Number. Enter the prior identifying number of the student. If the student identifier did not change, it will be the same as the current student identifier.

Item #7 Prior Date of Birth. Enter all four digits of the year and the month and day of birth of the student in format YYYYMMDD. If the birthday did not change, enter the current date of birth to uniquely identify to which student the change applies.

YYYY = Year      MM = Month      DD = Day

Item #8 Prior Gender. Enter the gender of the student. If the gender of the student did not change, enter the current gender to uniquely identify to which student the change applies.

M = Male      F = Female

Item #9 Last Name. Enter up to 20 characters of the student's current last name.

Item #10 First Name. Enter the first 10 digits of the student's first name.

Item #11 Middle Initial. Enter the initial of the student's middle name.
