

Make UH HOME.

PROGRAM HIGHLIGHTS

Located in one of the largest and most diverse metropolitan areas in the U.S.

Inclusive learning and research environment that respects equity and diversity

Supportive national and international faculty engaged in innovative, cross-disciplinary research

Funding for at least two years of doctoral study with opportunities for more

Use research to advance equity!

Ph.D. in Measurement, Quantitative Methods and Learning Sciences

As part of a Carnegie-designated Tier One public research university, our doctoral program prepares graduates to address educational and societal inequities. Students gain the skills necessary to design, conduct and interpret quantitative research projects to help solve today's most pressing challenges. Meaningful career opportunities abound working as college professors; data analysts or research specialists for school districts, nonprofits or businesses; independent consultants; and more.

VIRTUAL INFO SESSION

Tuesday, Oct. 11, 2022
10 to 11:30 a.m. CST
