

Science Building Renovation Facts

Square Feet:	62,000 GSF
Approx. Budget:	\$15M
UH Project Manager:	Terry Hawkins
Architect:	PBK Architecture, Inc.
Contractor/Engineer:	Tellepson
Construction Kick-off:	Summer 2018
Substantial Completion:	April 2019
Occupancy:	August 2019

Project Scope:

This project will include a complete interior renovation of the existing Science Building. The facility will be updated to meet today's standards for Accessibility and Fire and Life Safety codes. The infrastructure will also be updated. This will include the HVAC system, building plumbing, electrical, audio/visual technologies and Wi-Fi. Once the renovation is complete, the building will have a mixture of various classroom spaces, student lounges, faculty & staff work areas and faculty & staff lounge space.
