

## **REPORT**

**DEPARTMENT & PROGRAM:** Hotel and Restaurant Management – BS—San Antonio Campus

**ACADEMIC PROGRAM MISSION**: We are the best in hospitality education and research as regarded globally by the academic and hospitality communities. We embrace and foster an environment that includes community relevance, collaboration, multiculturalism, experiential learning, innovation, integrity and passion. The College, therefore, is committed to prepare our students to engage as professional and leaders in all segments of the global hospitality industry.

### STUDENT LEARNING OUTCOMES

**Student Learning Outcome 1**: Students will demonstrate a high-level competency in <u>quantitative</u> <u>skills</u> related to the area of accounting and finance in the context of hotel and restaurant management.

**Student Learning Outcome Assessment**: The final accounting/finance course in the HRMA curriculum is Financial Management. A committee was formed to ensure the objectives required of a capstone course and the actual material in the course were in sync. As part of this process questions were developed that would measure the quantitative skills competency required for each segment of the course. During the semester the instructor teaching the course will select six (6) questions from this approved bank to include in their regular examinations and track the responses. Instructors may also elect to use all the questions related to quantitative skills provided in the bank to use for their exams. Once the semester is over the results from these questions measuring quantitative skills will be compiled and compared to the standard.

The results of all the questions related to the quantitative skill competencies were tracked and measured against the standard. In order to measure to the standard, all the questions taken from the approved bank were listed by key course concept and then the total number of correct answers for each question was noted. The total number of correct responses was tallied, and an average taken of total correct responses as a percentage of total students enrolled and/or taking the exams. The assessment and measurement process was completed and defined in the Spring of 2014 and reviewed and revised from eight (8) to six (6) questions in the Spring of 2018.

**Performance Standard**: The standard is that 70% of the students will answer 70% of the quantitative skills questions correctly.

**Assessment Results & Analysis**: In 20-21, 100% of the students (N = 14) answered 70% of the quantitative questions presented from the approved test bank correctly.

The standard of 70% was met as 100% of the students responded to 70% of the questions correctly. Two factors hold true: first, the percentage improved from the previous year's results of 52%, and second, the San Antonio cohort remains a small cohort where results vary widely from year to year based on individual and cohort-specific factors. Overall, this cohort's results indicate that students were able to effectively apply these techniques to solve financial and

## **REPORT**

managerial problems in order to make sound management decisions in various hospitality industry environments.

In the 19-20 year the standard of 70% was not met as 52% of the students responded to 70% of the questions correctly, an indication that most students have not achieved quantitative skill competencies. Results indicate that most students were unable to effectively apply these techniques to solve financial and managerial problems in order to make sound management decisions in various hospitality industry environments. In the 18-19 year the standard was not met, and the results were used to review those questions where students were deficient and the course material or how the material was presented were reviewed and adjusted as necessary. Adjustments included providing more resources or providing illustrations that would help in the comprehension of the specific concepts where the deficiency were identified.

Instructors for HRMA 4343-Financial Administration for the Hospitality Industry in both the San Antonio and Main campus initially met in the Spring of 2019 to discuss the results of the 2017-2018 report. The format of the exam and questions were reviewed to determine what would provide the best indication of student learning. The quantity of questions was reviewed, and it was determined that a total of six (6) questions would be sufficient to measure the learning objectives. Phrasing of the questions was reviewed as well to ensure that they would provide the best assessment of the student learning.

Instructors all agreed that early identification of the areas where student comprehension of the concepts does not meet the established standard would allow for instructors to provide students with feedback and additional resources early in the semester. This awareness early in the course will allow the instructor to be more proactive to the student learning process and should result in improved results reflected in the final assessment used to measure the given standard. Starting with the 2019-2020 year a Microsoft Forms was used to capture input from the instructors on how to improve student performance. The form also posed the question of whether the standard needed to be adjusted in any way and for the instructors to provide any other recommendations or feedback. Each semester the feedback is shared with all the instructors and any proposed changes are agreed upon as a group. The appendix of the report has the survey and questionnaires sent to the instructors.

The instructor for the San Antonio Campus made the following changes during the 2020-2021 year to increase the student comprehension of the material. Modifications were made based on the discussion made after the 2019-2020 results were reviewed.

"This year things were way better for me. The changes I made were: 1. Giving the assessment separately from the final exam. 2. Rewriting the questions to make them more consistent with the verbiage I used throughout the course."

## **REPORT**

Historically,

Year	N =	% students earning at least 70% on quantitative skills
20-21	14	100%
19-20	23	52%
18 -19	16	38%

**Program Improvement Plans**: The San Antonio program was discontinued in the Spring of 2021; therefore, this will be the final report. Currently the instructor for this course will be teaching courses for the main campus and the feedback provided will be shared with the other instructors. Improvement plans recommended will be included as part of the main campus report.

## **REPORT**

**Student Learning Outcome 2**: Students will demonstrate a high-level competency in <u>critical thinking skills</u> related to the area of accounting and finance in the context of hotel and restaurant management.

**Student Learning Outcome Assessment**: The final accounting/finance course in the HRMA curriculum is Financial Management. A committee was formed to ensure the objectives required of a capstone course and the actual material in the course were in sync. As part of this process questions were developed that would measure the critical thinking competencies required for each segment of the course. During the semester the instructor teaching the course will select six (6) questions from this approved bank to include in their regular examinations and track the responses. Instructors may also elect to use all the questions related to critical thinking provided in the bank to use for their exams. Once the semester is over the results from these questions measuring critical thinking skills will be compiled and compared to the standard.

The results of all the questions related to the critical thinking skill competencies were tracked and measured against the standard. In order to measure to the standard, all the questions taken from the approved bank were listed by key course concept and then the total number of correct answers for each question was noted. The total number of correct responses was tallied, and an average taken of total correct responses as a percentage of total students enrolled and/or taking the exams. The assessment and measurement process was completed and defined in the Spring of 2014 and reviewed and revised from eight (8) to six (6) questions in the Spring of 2018.

**Performance Standard**: The standard is that 70% of the students will answer 70% of the critical thinking questions correctly.

Assessment Results & Analysis: In 20-21, 100% of the students (N = 14) answered 70% of the critical thinking questions presented from the approved test bank correctly. The standard of 70% was met as 100% of the students responded to 70% of the questions correctly, an indication that most students have achieved critical skill competencies. This represents a decline over the previous term, but as referenced in the above section, the cohort numbers are small and cohort performance vary widely depending on individual characteristics within the students and cohort itself.

In the 19-20 year, the standard of 70% was not met as 26% of the students responded to 70% of the questions correctly, in the 18-19 year the standard was also not met, and the results were used to review those questions where students were deficient and the course material or how the material was presented were reviewed and adjusted as necessary. Adjustments included providing more resources or providing illustrations that would help in the comprehension of the specific concepts where the deficiency were identified.

Instructors for HRMA 4343-Financial Administration for the Hospitality Industry in both the San Antonio and Main campus initially met in the Spring of 2019 to discuss the results of the

2017-2018 report. The format of the exam and questions were reviewed to determine what would provide the best indication of student learning. The quantity of questions was reviewed, and it was determined that a total of six (6) questions would be sufficient to measure the learning objectives. Phrasing of the questions was reviewed as well to ensure that they would provide the best assessment of the student learning.

Instructors all agreed that early identification of the areas where student comprehension of the concepts does not meet the established standard would allow for instructors to provide students with feedback and additional resources early in the semester. This awareness early on in the course will allow the instructor to be more proactive to the student learning process and should result in improved results reflected in the final assessment used to measure the given standard. Starting with the 2019-2020 year a Microsoft Forms was used to capture input from the instructors on how to improve student performance. The form also posed the question of whether the standard needed to be adjusted in any way and for the instructors to provide any other recommendations or feedback. Each semester the feedback is shared with all the instructors and any proposed changes are agreed upon as a group. The appendix of the report has the survey and questionnaires sent to the instructors.

The instructor for the San Antonio Campus made the following changes during the 2020-2021 year to increase the student comprehension of the material. Modifications were made based on the discussion made after the 2019-2020 results were reviewed.

"This year things were way better for me. The changes I made were: 1. Giving the assessment separately from the final exam. 2. Rewriting the questions to make them more consistent with the verbiage I used throughout the course. I do think that giving some of these types of questions (short answer CT) on each exam was helpful too as they were more aware of the CT elements."

Historically,

Year	N =	% students who scored at least 70% on critical thinking questions
20-21	16	100%
19-20	23	26%
18-19	16	63%

**Program Improvement Plans**: The San Antonio program was discontinued in the Spring of 2021; therefore, this will be the final report. Currently the instructor for this course will be teaching courses for the main campus and the feedback provided will be shared with the other instructors. Improvement plans recommended will be included as part of the main campus report.

## **REPORT**

**Student Learning Outcome 3**: Students will effectively communicate through writing as a hospitality leader.

**Student Learning Outcome Assessment**: Students in HRMA 4353: Leadership within the Hospitality Industry must demonstrate proficiency in effective written communication by creating professional papers in an appropriate style and format that meet the seven (7) criteria provided by the instructor. See the HRMA 4353 Supervision & Leadership in the Hospitality Industry Written Paper Criteria and Grade Sheet attached.

During the semester several papers are submitted and evaluated by the instructor to ensure the criterion provided have been reflected in the professional papers prepared by the students. This process should provide the student with sufficient practice in applying effective writing and communication skills into practice. The final paper submitted would be the measurement as to whether the student demonstrates proficiency in effective written communication. The instructor will review all the papers including the final based on the seven (7) criteria: Format, Introduction, Relevance to Core Material, Concern for Details, Application, Grammar, and Overall Presentation to determine if the student paper met the established standard.

Meeting or exceeding the standard will provide a good indication that the students have become proficient in effective written communication skills. Students should then be able to effectively apply the criterion to communicate and express their ideas. If the students do not meet the standard the instructor will need to evaluate the process and how the material was presented in order to elicit better retention and application by the student. Results of the measurements are shared with both the Deans of the college, the curriculum committee of the college, the college Lodging Management committee and the instructor.

**Performance Standard**: The standard will be that 70% of the final papers submitted by the students will receive a score of 75%.

**Assessment Results & Analysis**: In 20-21, 89% of the students (N = 18) earned a score of 75% or better on their final paper. The standard was met.

Meeting or exceeding the standard indicates that the students have become proficient in effective written communication skills. Students should then be able to effectively apply the criterion to communicate and express their ideas. Currently no significant changes have been made to the current format for the writing component as the results continue to indicate that the students are proficient in effective written communication.

The 2019-2020 year had the standard change from a score of 70% to 75%, exceeding the new standard continues to demonstrate that the earlier writing requirements in the curriculum along with the writing/ grammar tools that are provided are both having a positive impact on the student's writing proficiency. In addition, the pre-writing grammar self-assessment currently being used by all instructors is providing timely feedback that can guide students to

## **REPORT**

the University Writing Center to provide further assistance and improve their writing throughout the course of the semester.

Starting with the 2019-2020 year a Microsoft Forms was used to capture input from the instructors on how to improve student performance. The form also posed the question of whether the standard needed to be adjusted in any way and for the instructors to provide any other recommendations or feedback. Each semester the feedback is shared with all the instructors and any proposed changes are agreed upon as a group. The appendix of the report has the survey and questionnaires sent to the instructors.

The instructor for the San Antonio Campus made the following changes during the 2020-2021 year to increase the student comprehension of the material. Modifications were made based on the discussion made after the 2019-2020 results were reviewed.

"Continue to provide writing exercises to improve writing skills during the entire semester."

## Historically,

Year	N =	% students earning at least 75% on their final paper
20-21	18	89%
19-20	6	83%
18-19	20	95%

**Program Improvement Plans**: The San Antonio program was discontinued in the Spring of 2021; therefore, this will be the final report. Feedback provided by the San Antonio instructor will be shared with the other instructors. Improvement plans recommended will be included as part of the main campus report.

## HRMA 4353--Supervision & Leadership in the Hospitality Industry Written Paper Criteria and Grade Sheet

## 1. Format (15 possible points):

Title

Subtitles (in left hand margin)

Team #/Student I.D. #'s on both pages (no names on paper)

Grading sheet attached?

Was the space used wisely? Not

more than one page?

Font, spacing, and easy to read?

## 2. Introduction (14 possible points):

Are the topics briefly introduced?

Is the organizational format established?

### 3. Relevant to Core Material (14 possible points):

Did it refer to concepts discussed in-class and assigned readings?

## 4. Concern for Details (14 possible points):

Was the topic discussed as thoroughly as possible given the space constraints?

Were key points identified and discussed?

Was the information accurate?

### 5. Application (14 possible points:

Was the information applied to the industry with a very specific example?

### 1. Grammar (24 possible points):

Grammar

Spelling (3 points off for each misspelled word; do not rely on spellcheck)

Punctuation

Word choice

### 7. Overall Presentation (5 possible points):

Did the paper flow overall?

Was the total presentation and the format of the information presented in an organized fashion?

## **TOTAL (100 possible points)**

## HRMA 4353 – Supervision & Leadership in the Hospitality Industry Instructor Survey and Feedback

6. In the Fall 2020 - Spring 2021 Reporting period, 246 students were enrolled in HRMA 4353 of which 94% achieved a grade of 75% or better on their final paper. The standard set by the faculty teaching this course is that 70% of the students would score 75% or better on their papers, so the standard was exceeded. Based on this accomplishment please respond to the following questions:
