

# Hobby School Student Lounge Brother MFC-L2710DW Installation and Operations

## I. Initial Setup

### 1. Download the driver:

[https://support.brother.com/g/b/downloadtop.aspx?c=us&lang=en&prod=mfcl2710dw\\_us\\_eu\\_as](https://support.brother.com/g/b/downloadtop.aspx?c=us&lang=en&prod=mfcl2710dw_us_eu_as)

The screenshot shows the Brother support website for the MFC-L2710DW printer. The page is titled "Downloads" and is for the United States. It features a navigation menu on the left with options like "Support & Downloads", "Downloads", "FAQs & Troubleshooting", "Manuals", "Consumables & Accessories", "Supported OS", and "Specifications". The main content area is titled "MFC-L2710DW Downloads" and includes a "Select Your Operating System (OS)" section. This section has two steps: "STEP 1: Select OS Family" with radio buttons for Windows (selected), Mac, Linux, and Mobile; and "STEP 2: Select OS Version" with radio buttons for various Windows and Windows Server versions. A "How to identify your Operating System (OS)" link and an "OK" button are also present. On the right, there are links for "Contact Us", "Product Registration", and "Visit www.brother-usa.com", along with "Highlights" and "More Information" sections. At the bottom, there is an "Information" section with a note about Windows 11 and a "What's New" section with a date of 02/03/2023 and a link to an "Uninstall Tool". The footer contains "Site Map | Legal | Privacy Policy | Global Site" and "© 2001-2023 Brother Industries, Ltd. All Rights Reserved."

## 2. Select “Full Driver & Software Package”.

? If your download does not start automatically, please click here.

**How to Install**

**Notes:**

- The instructions may vary depending on the Windows OS version.
- If the drivers are already installed into your computer, uninstall them first before you install the new driver. To uninstall the current drivers, download the Uninstall Tool.
- You must be logged on as an Administrator.
- If the User Account Control prompt is displayed, click **Yes**.
- If the Windows Security dialog box appears, check **Always trust software from "Brother Industries, Ltd."** and click **Install**.
- When the installation dialog instructs you to restart your computer to apply changes, **DO NOT** restart your computer. Continue the installation until the installation has finished. When the installation has finished, restart your computer.

1. Disconnect your Brother machine from your computer if you already connected an interface cable.
2. Once downloaded, double click on the downloaded file to extract it.  
If you cannot find the downloaded file, [please click here to see how to download a file](#).
3. Select your language with reference to the language list and click "OK".
4. Please follow the installation screen directions.

If the installer does not start, [click here to see the details of how to start the installer manually](#).

**Content Feedback**

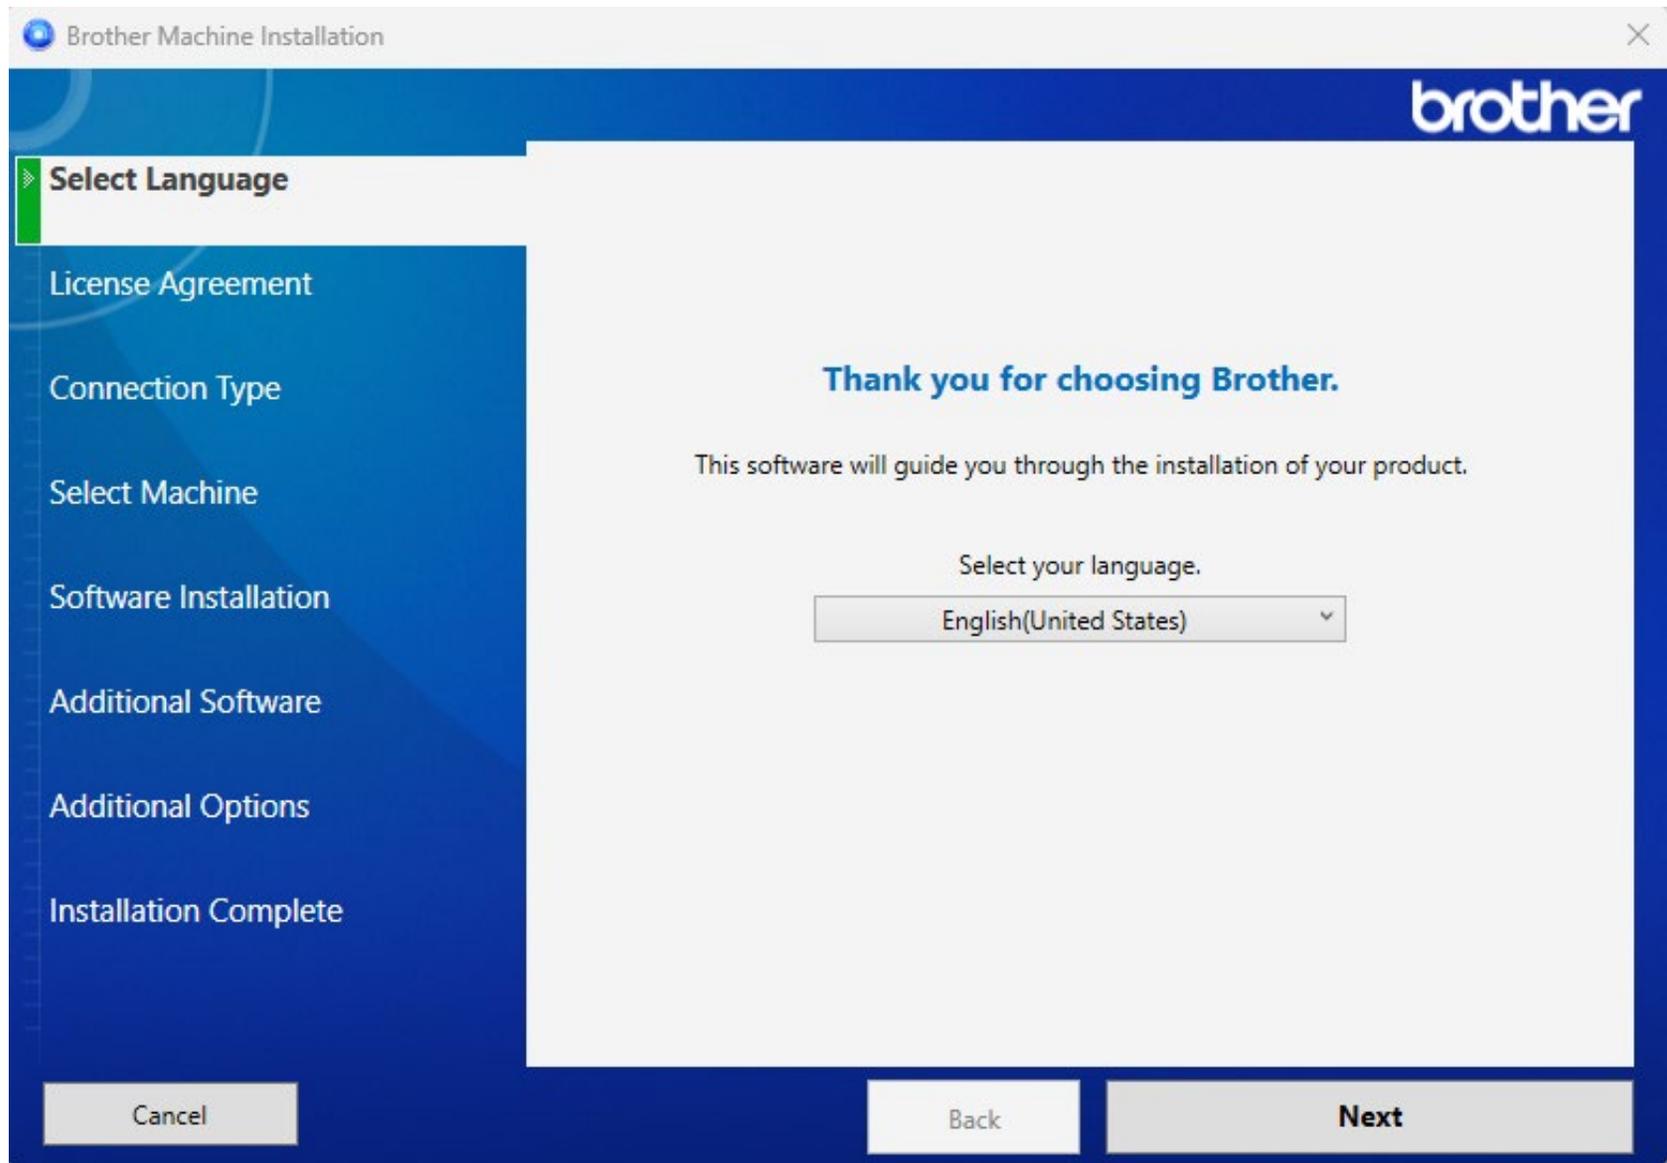

To help us improve our support, please provide your feedback below.

Step 1: How does the software on this page help you?

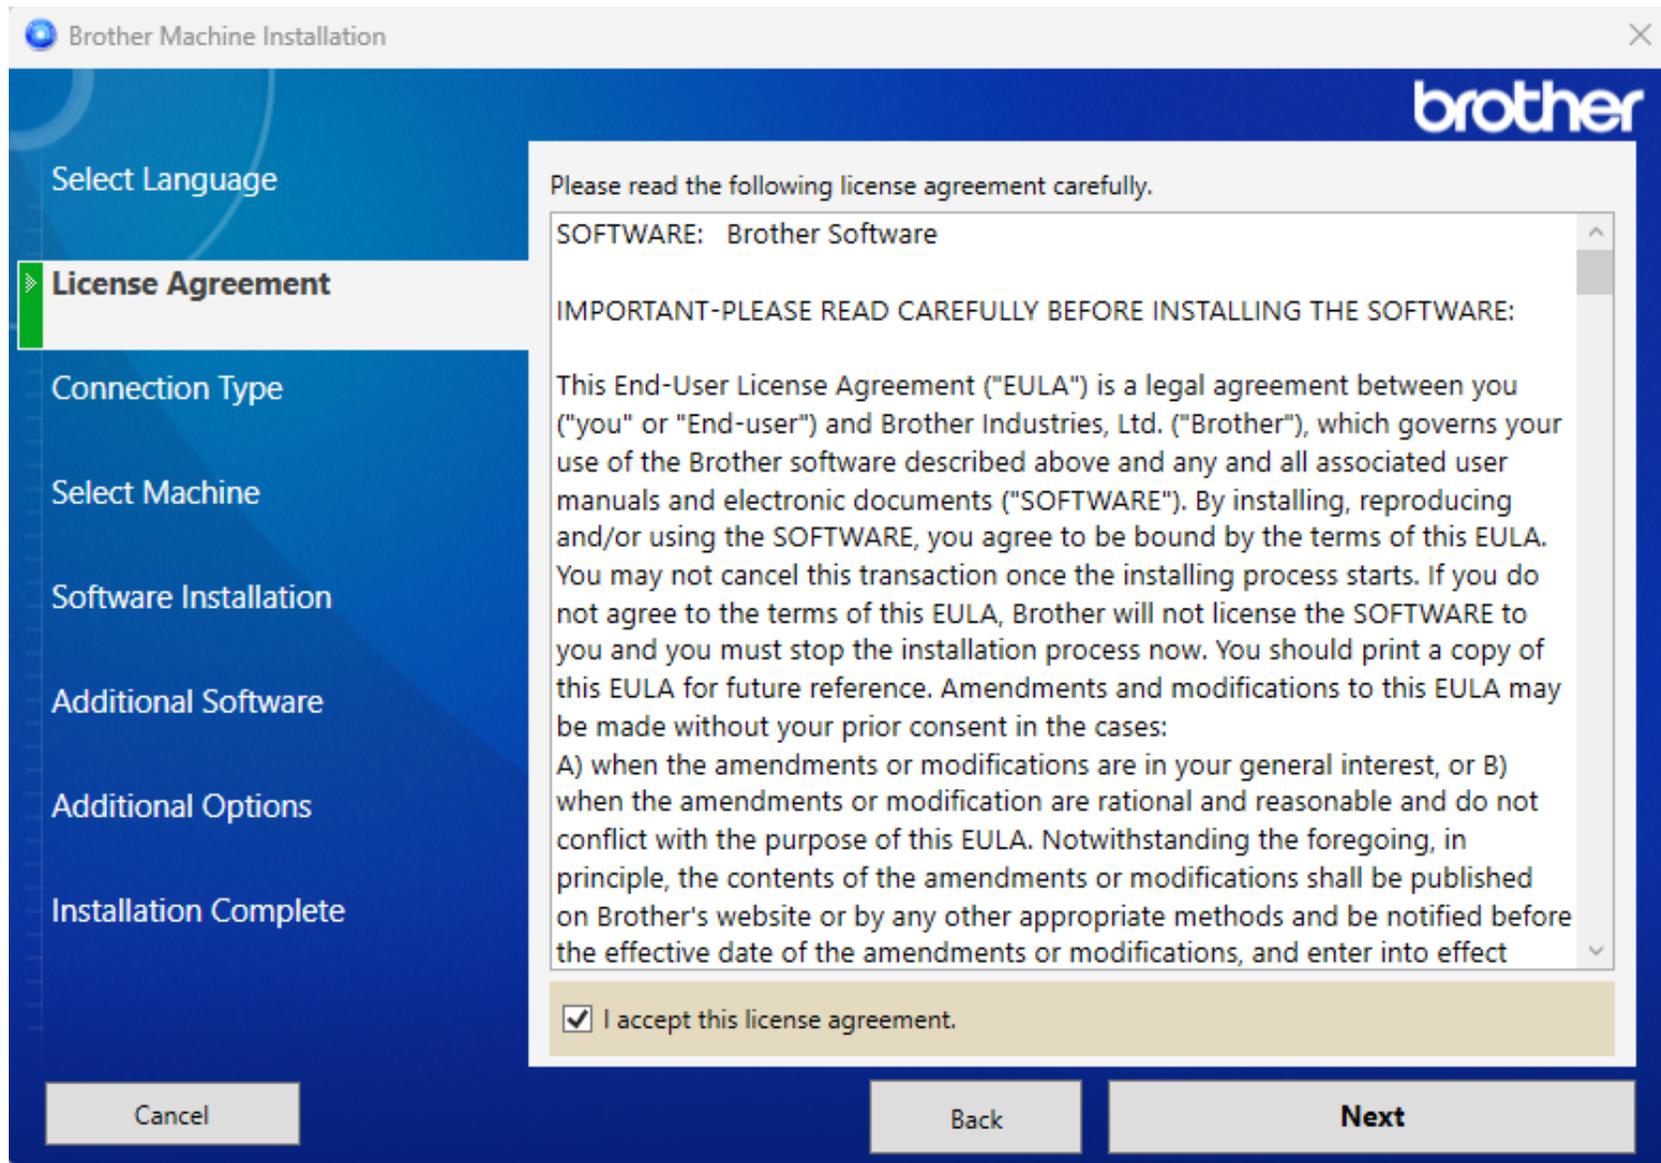

Very helpful

Helpful

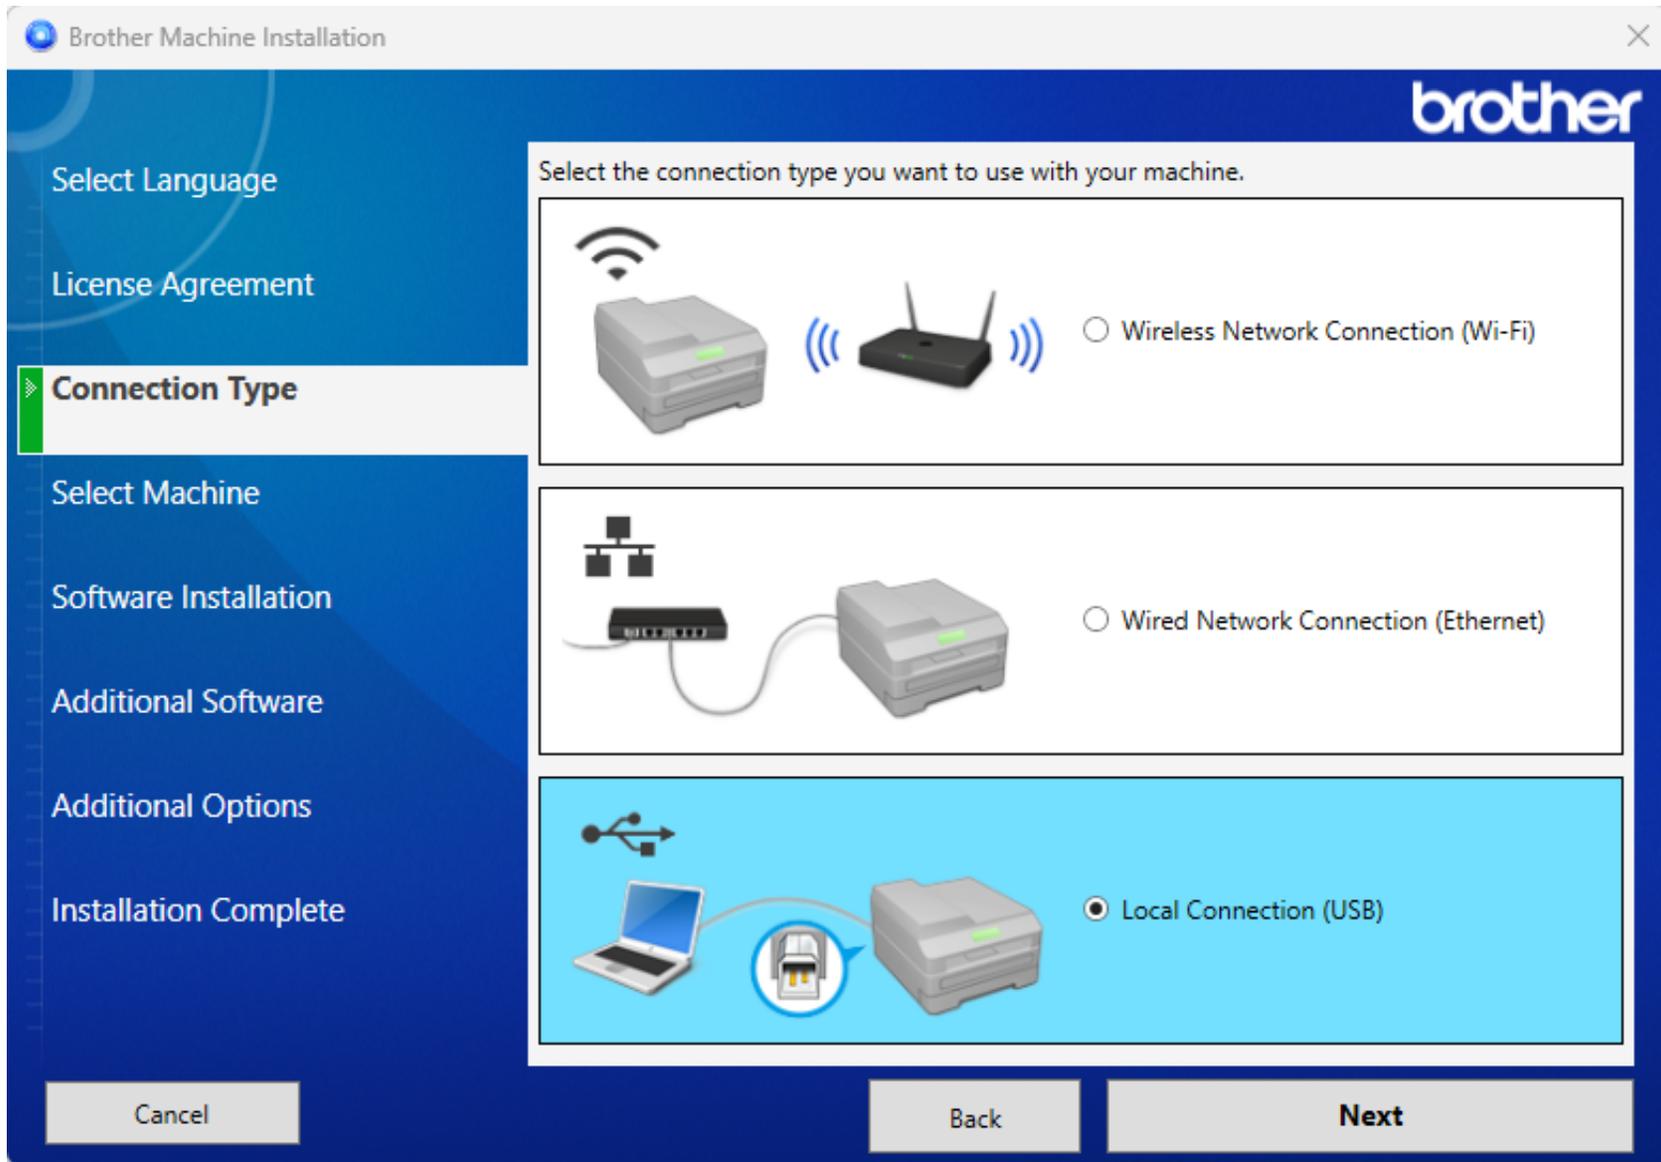

5. Go to your Downloads folder and start the installation application. Select your language and click next.

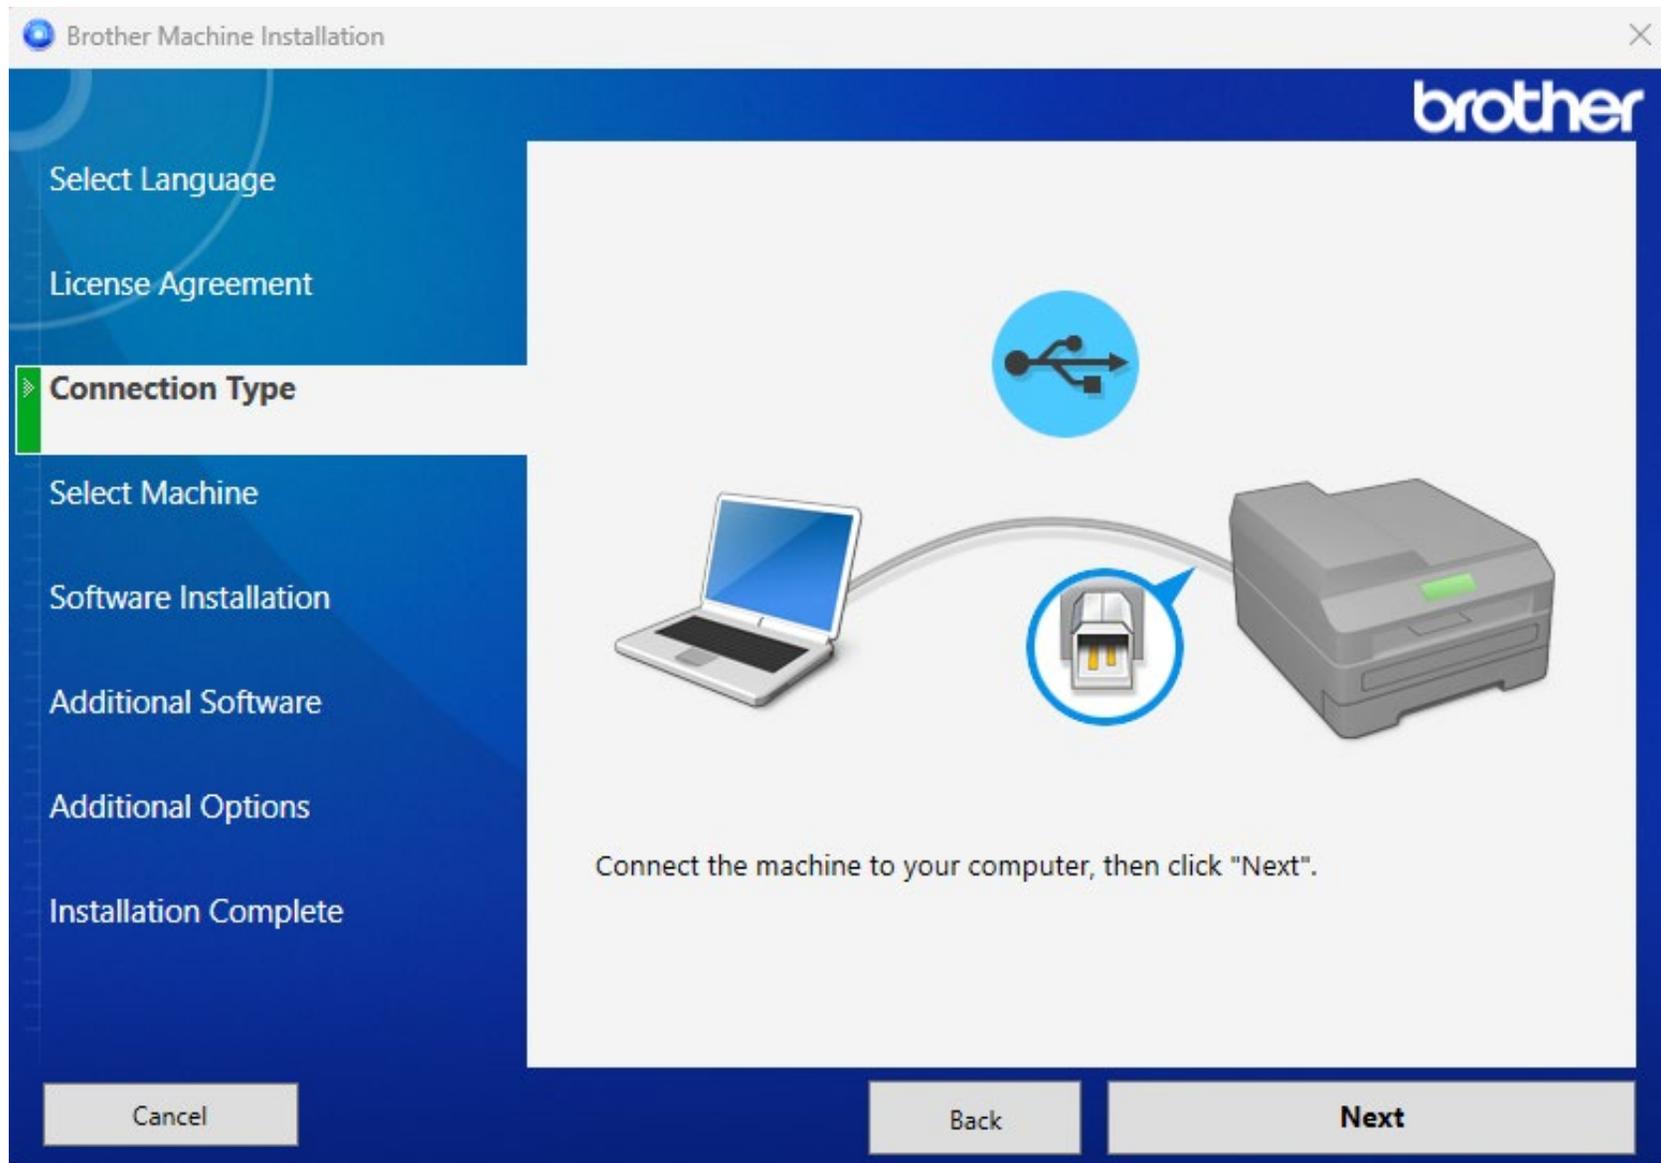

6. Accept the license agreement. Click next.

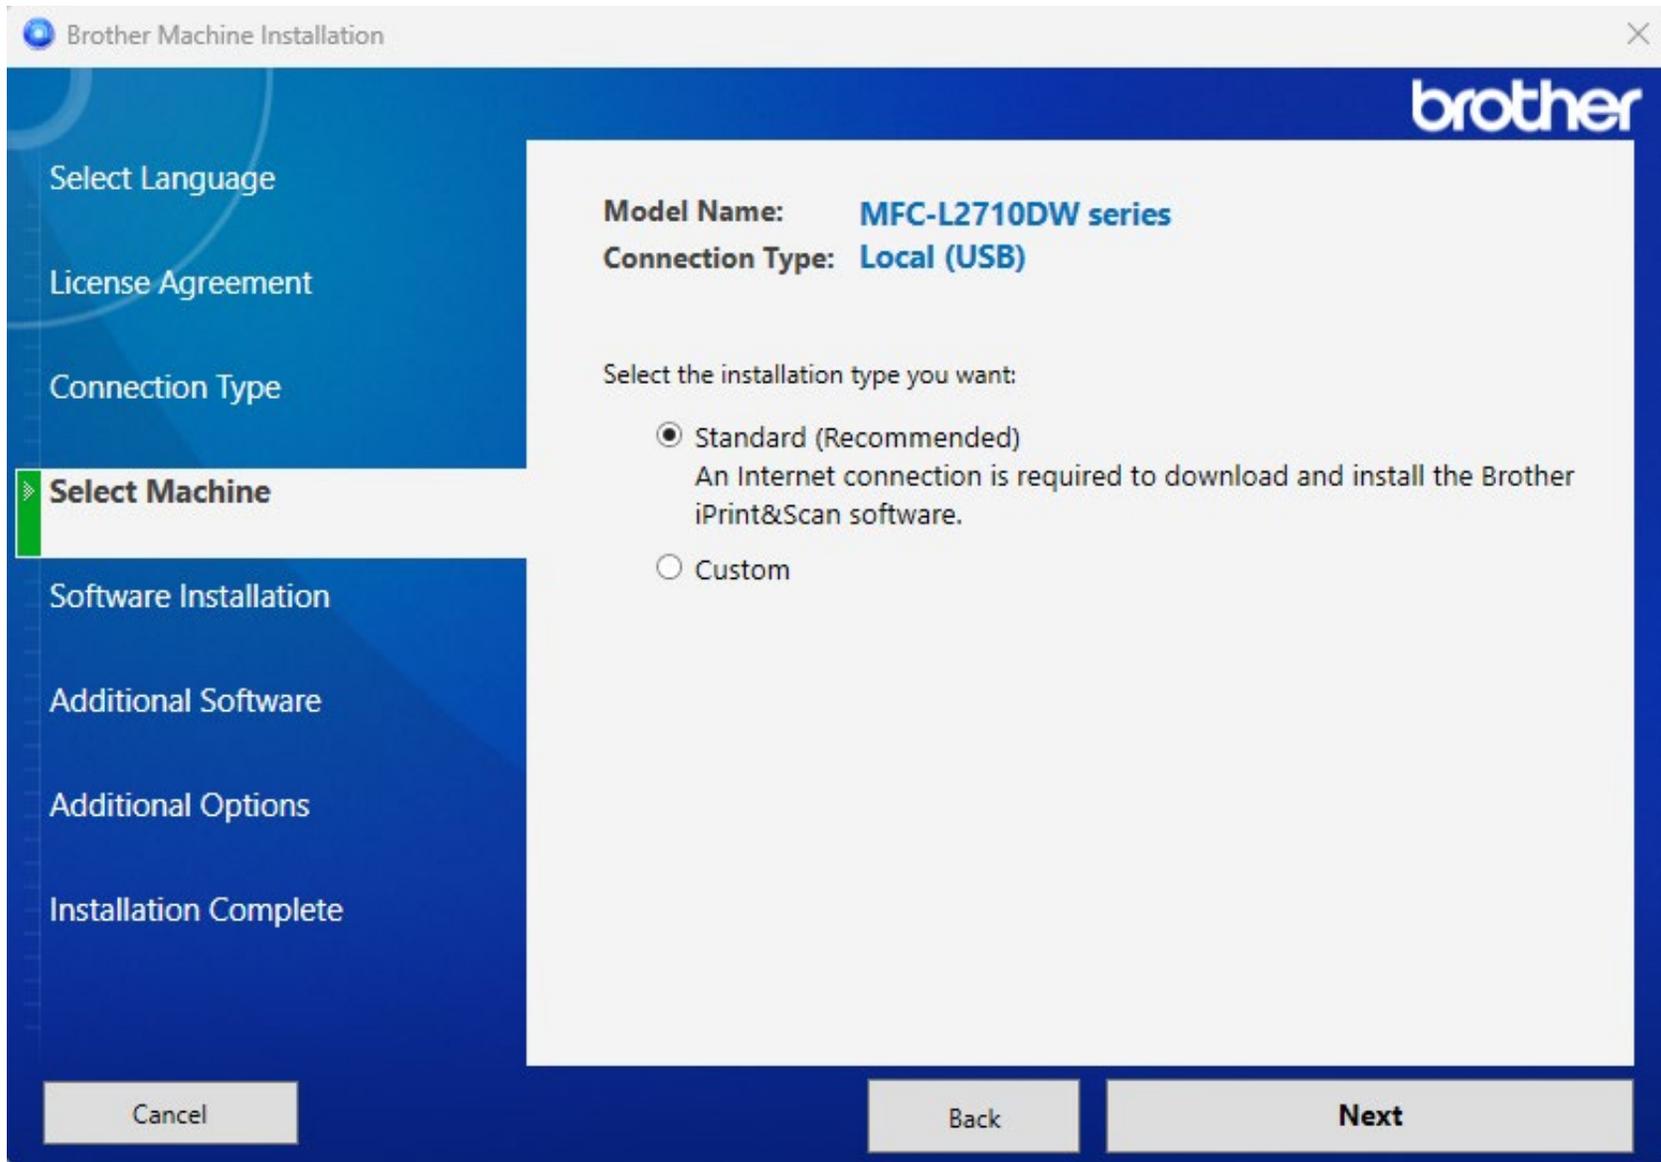

7. Select Local Connection (USB) and click next.

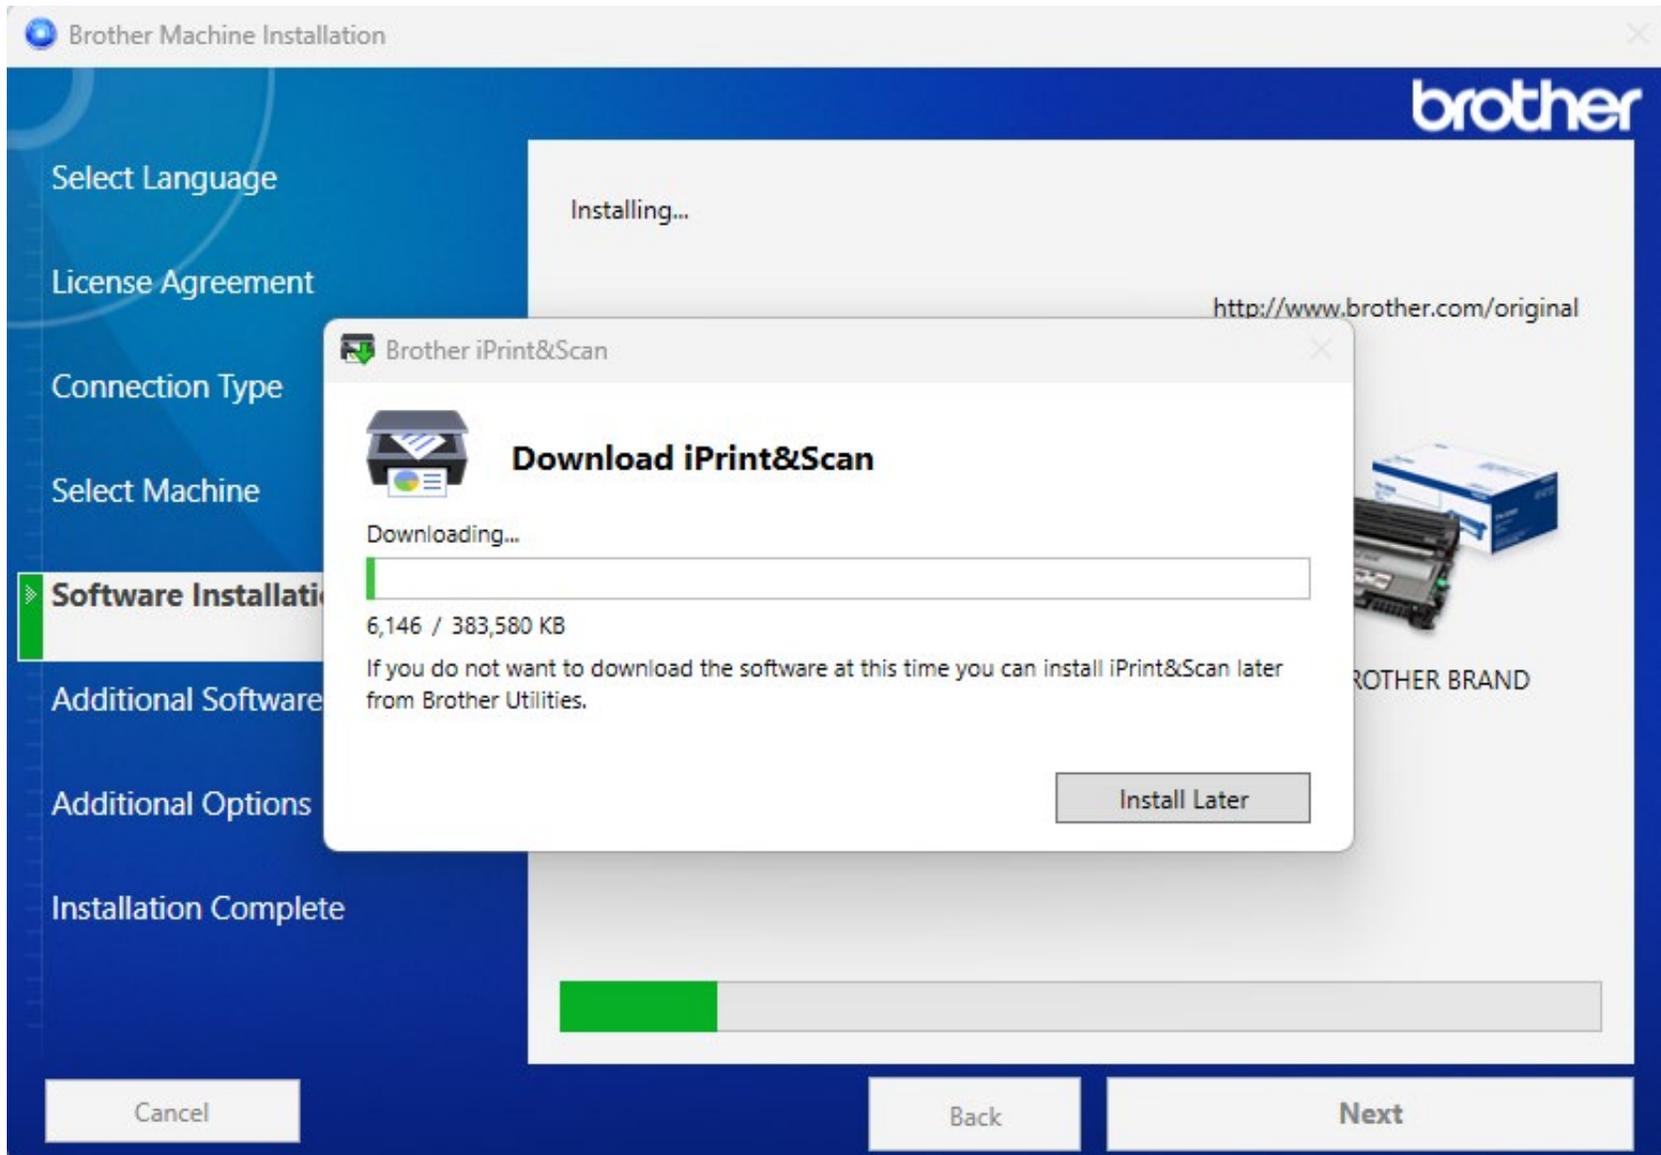

8. Connect your computer to the printer via USB cable and click next.

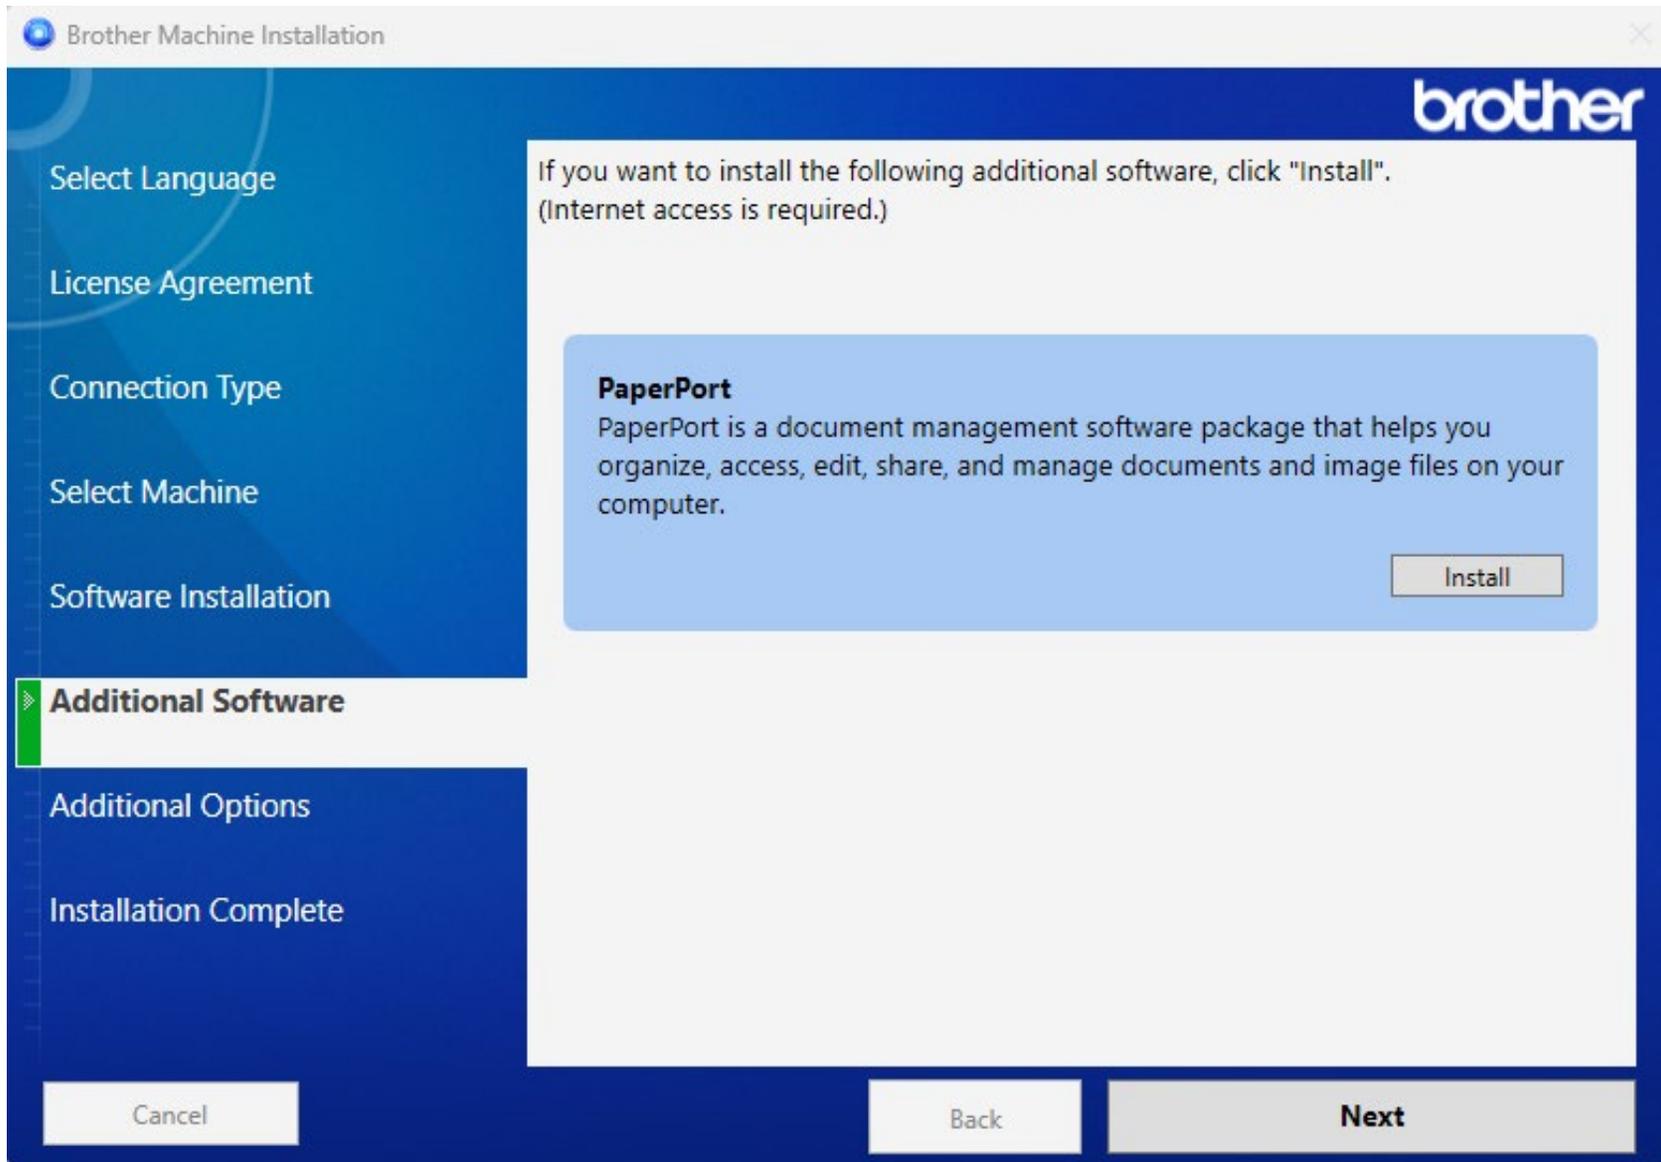

9. Select Standard (Recommended) and click next.

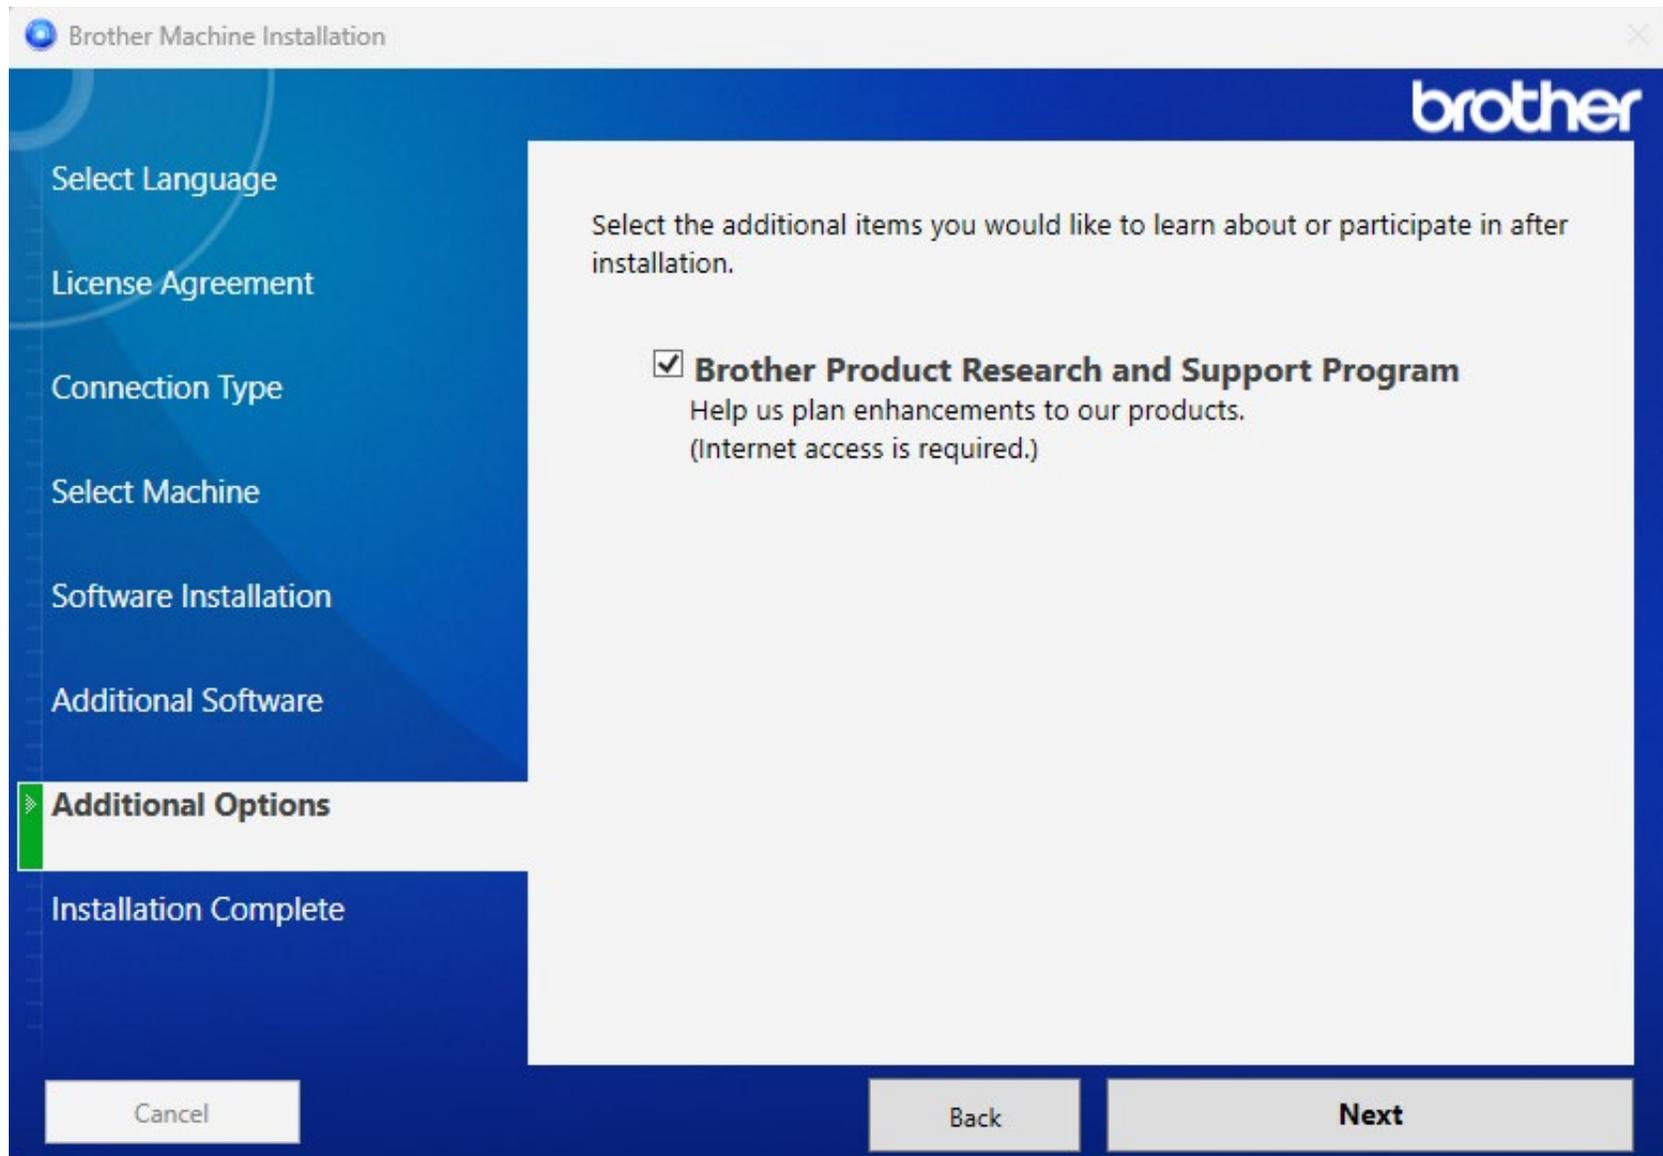

10. Software will be installed. Allow the Brother iPrint&Scan to be installed.

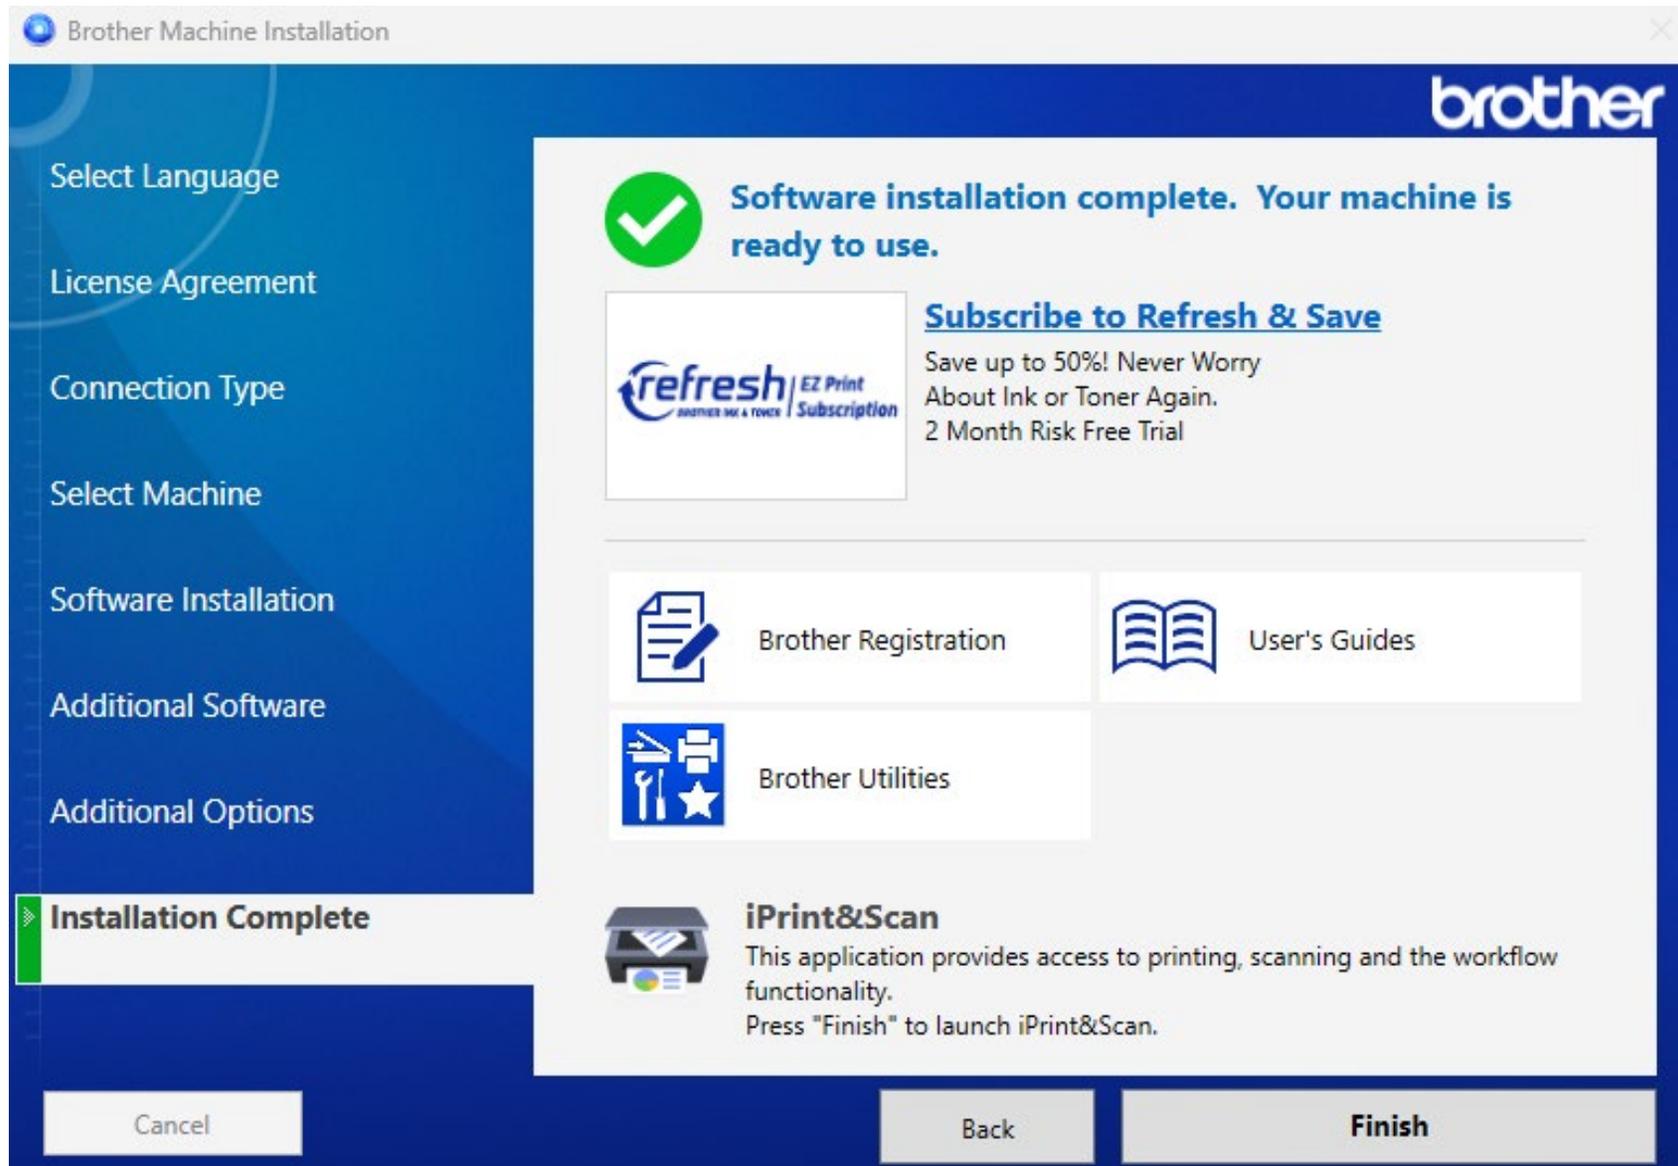

11. Optional installation of PaperPort (not recommended to install). Click next.

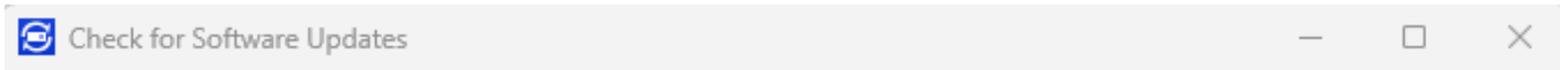

## 12. Brother Product Research and Support Program (Optional; no recommendation)

13. Installation is complete. Click finish.

14. Software updates will appear. Updates are recommended for ControlCenter4, Status Monitor, and Software Update Notification.

**Please update the following software for your Brother machine to add features and apply bug fixes.**

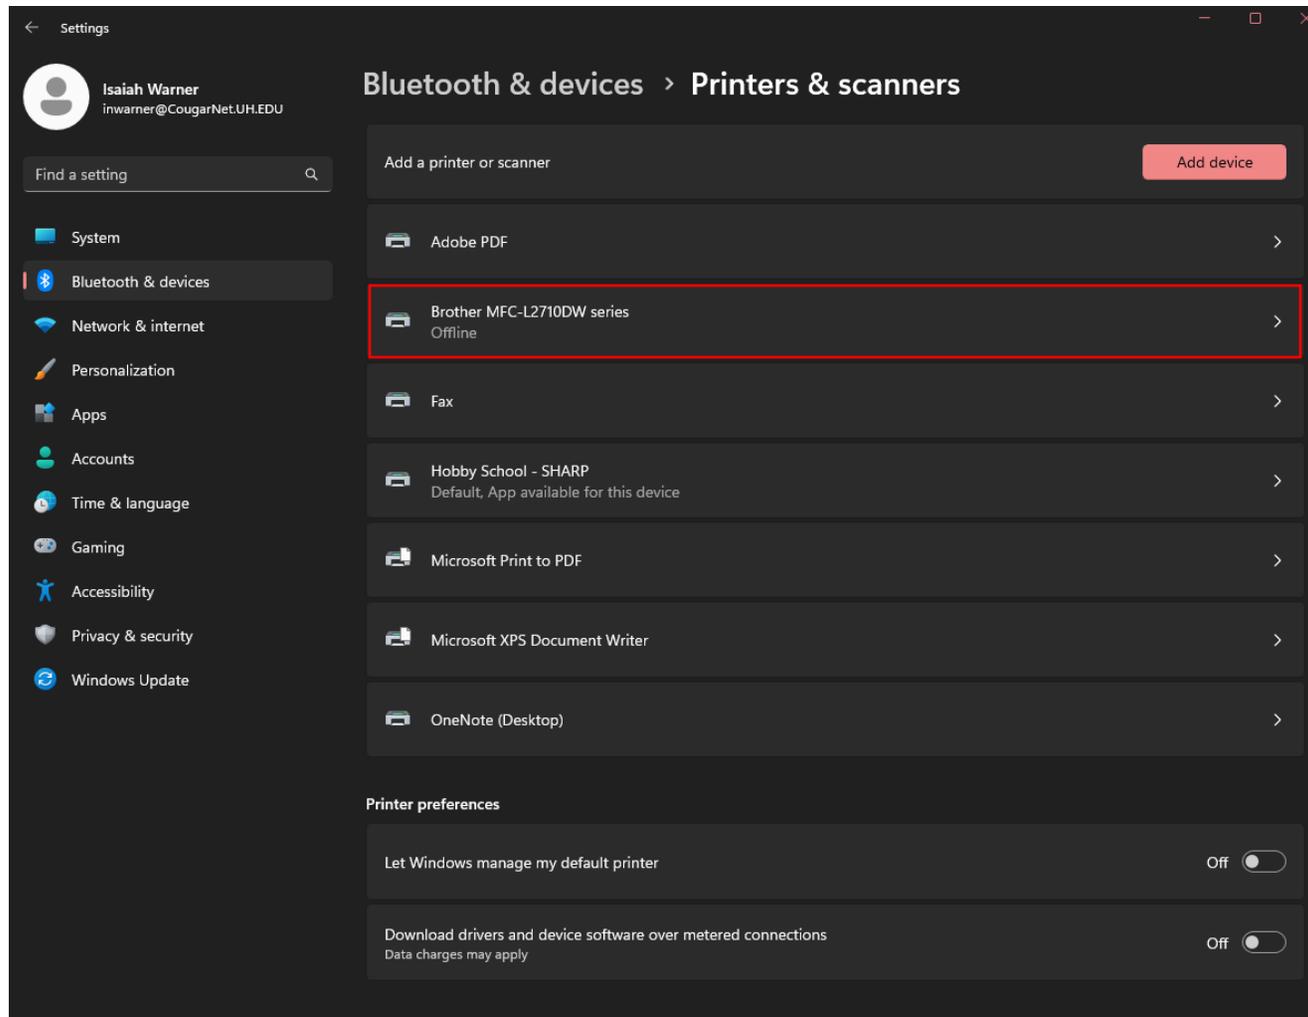

Printer name	Category	Software	Latest version	Description
Brother MFC-L2710DW series	PC Application	ControlCenter4	4.6.46.1	Please update t
Brother MFC-L2710DW series	PC Application	PC-Fax Receive	1.8.414.0	Please update t
Brother MFC-L2710DW series	PC Application	Status Monitor	1.35.1.0	Please update t
Brother MFC-L2710DW series	PC Application	Software Update Notification	1.0.21.0	Please update t

Select the Brother device you want to update and then click the [Update] button.

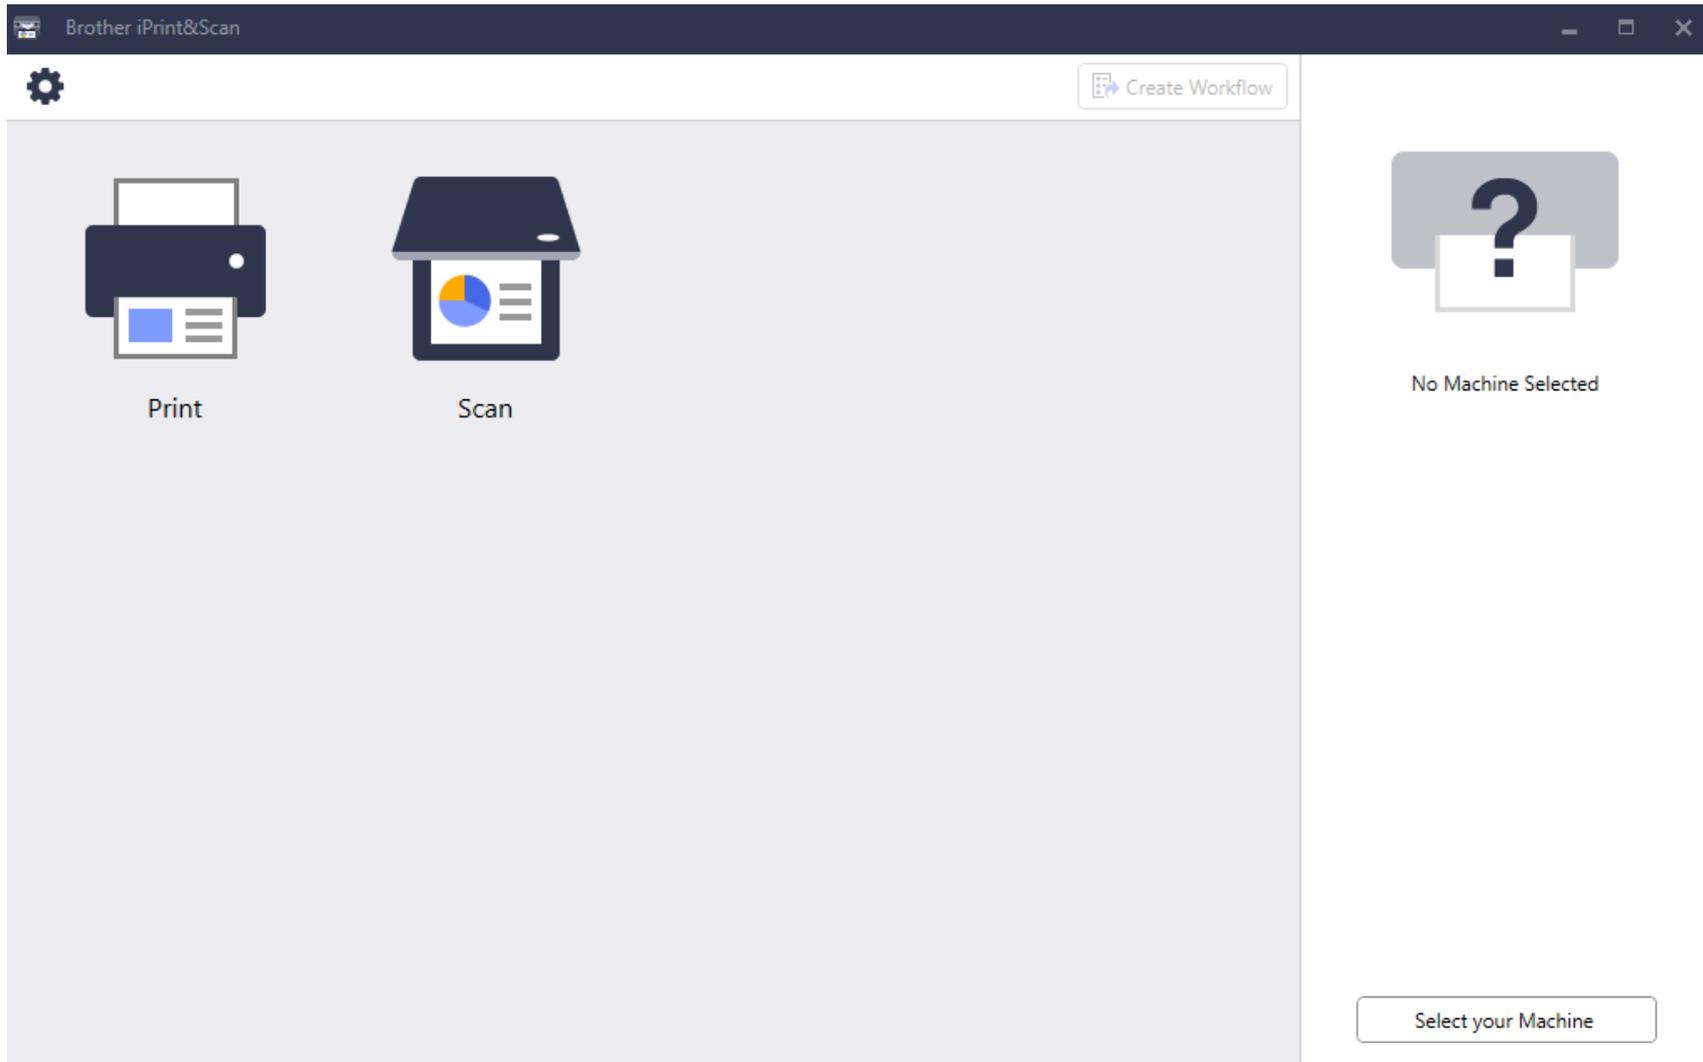

## II. Printing

You must be connected via USB to print. The printer will appear as “Brother MFC-L2710DW series” by default. It will show up as Online when connected via USB and Offline when not connected.

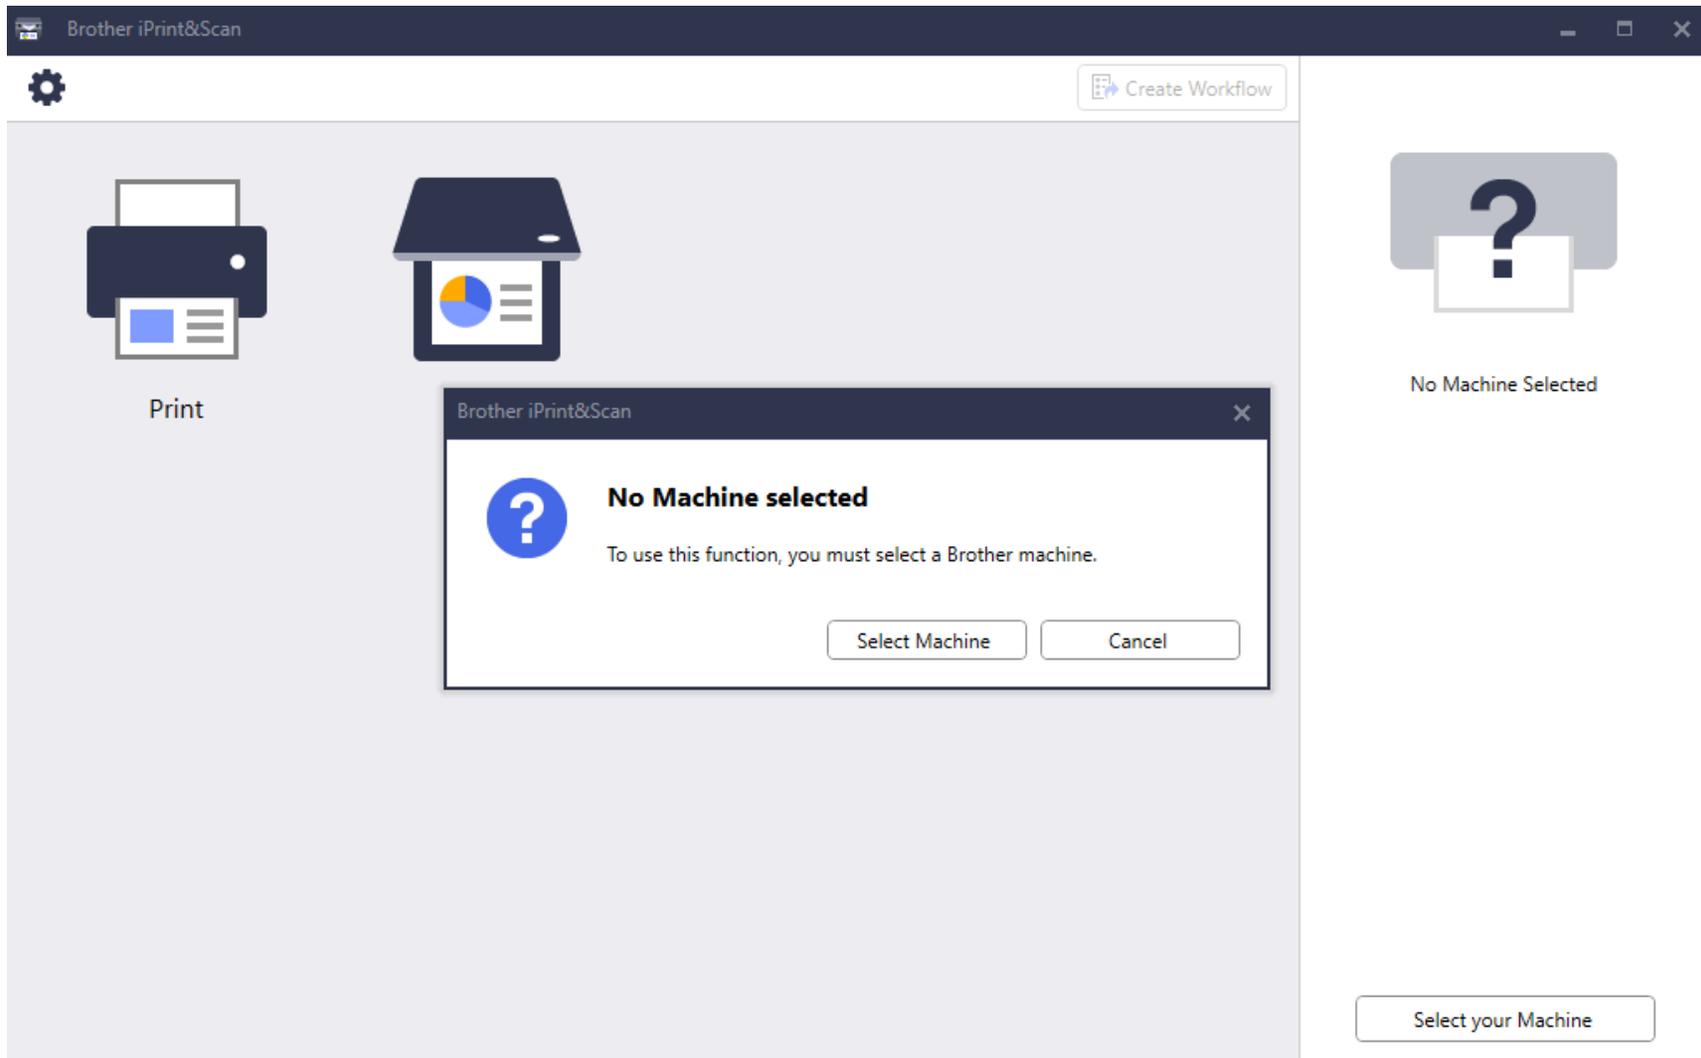

### III. Scanning

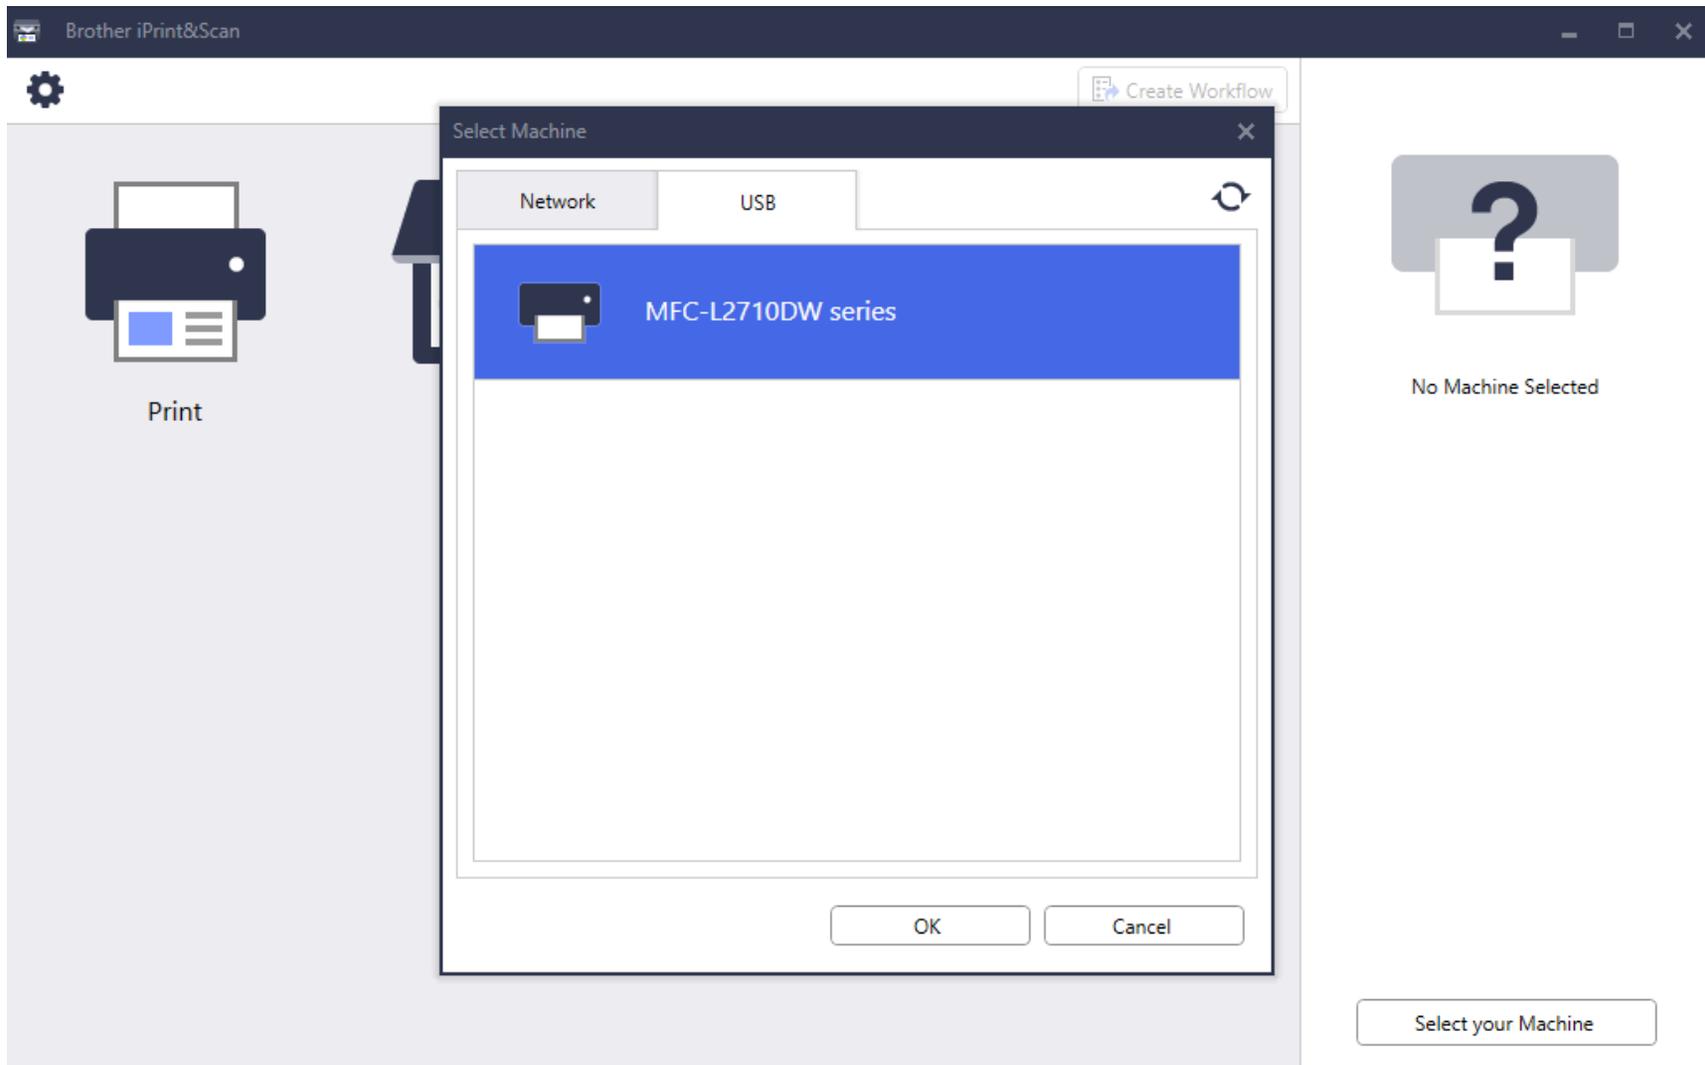

1. You must be connected via USB to scan. Open the Brother iPrint&Scan app and click scan.

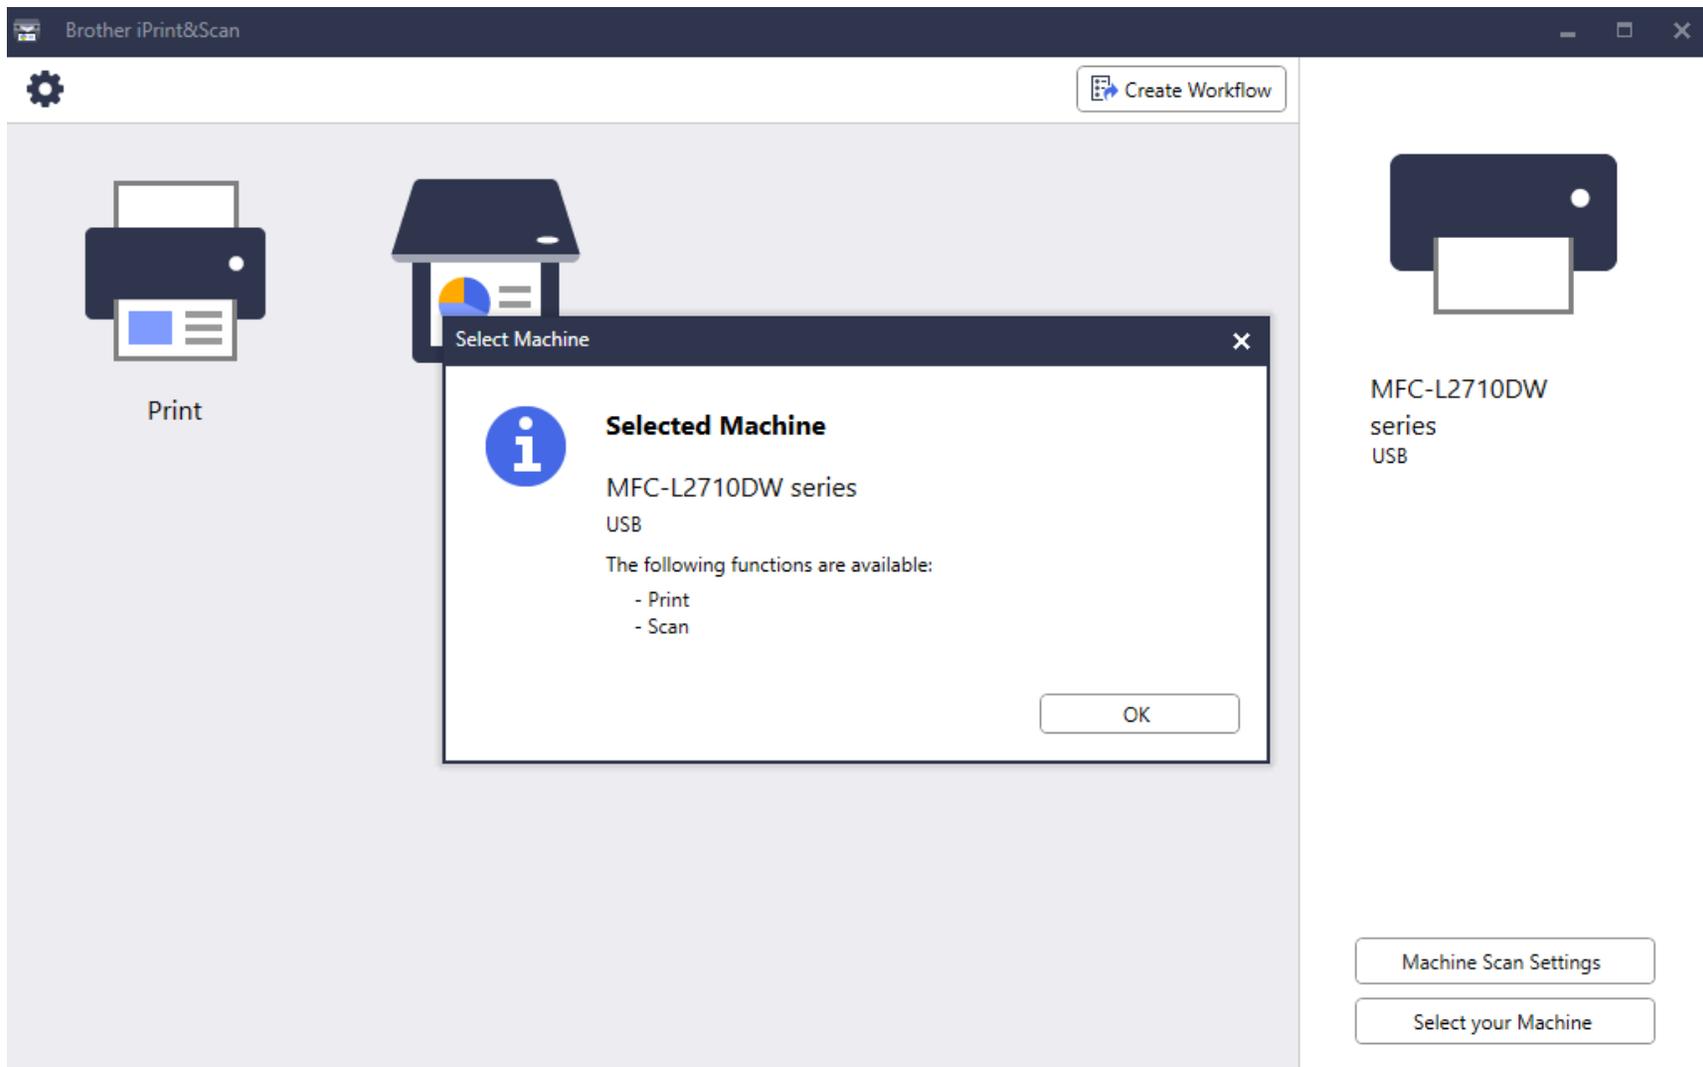

2. (First time use only) Click Select Machine.

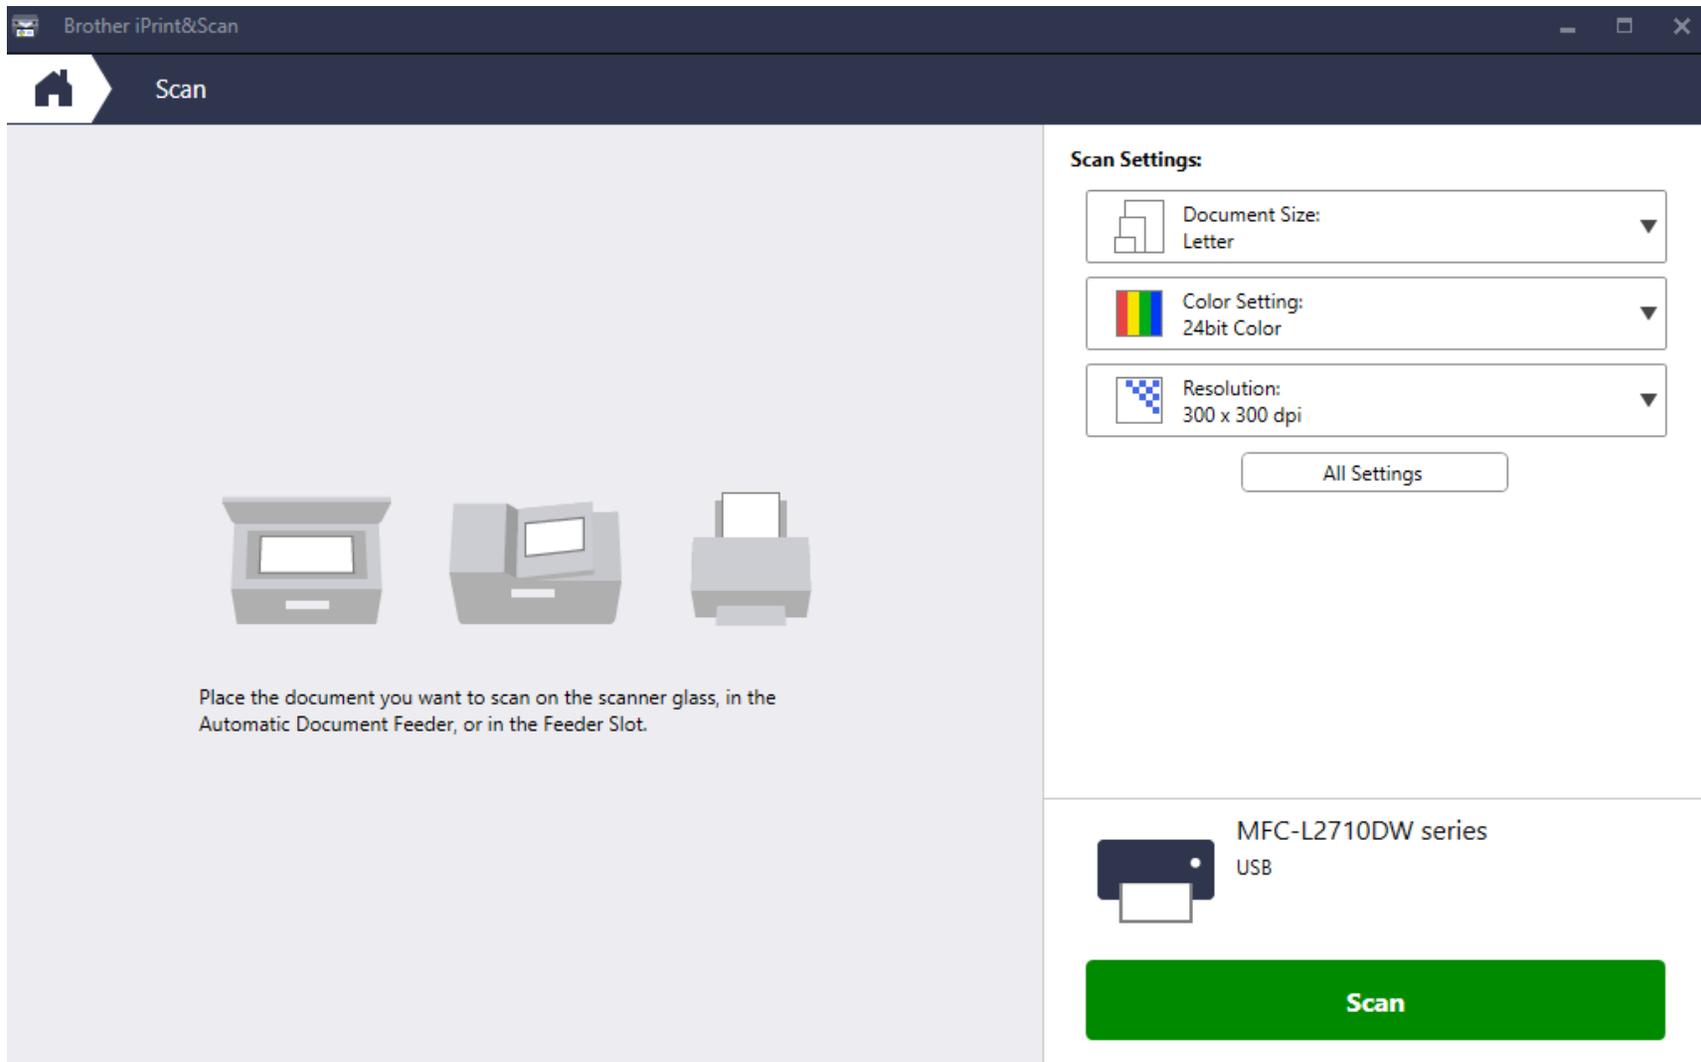

3. (First time use only) Select the USB tab and select the MFC-L2710DW series. Click OK.

4. (First time use only) Click OK.

5. Either place the paper on the scanner glass or the Automatic Document Feeder and click “Scan”.

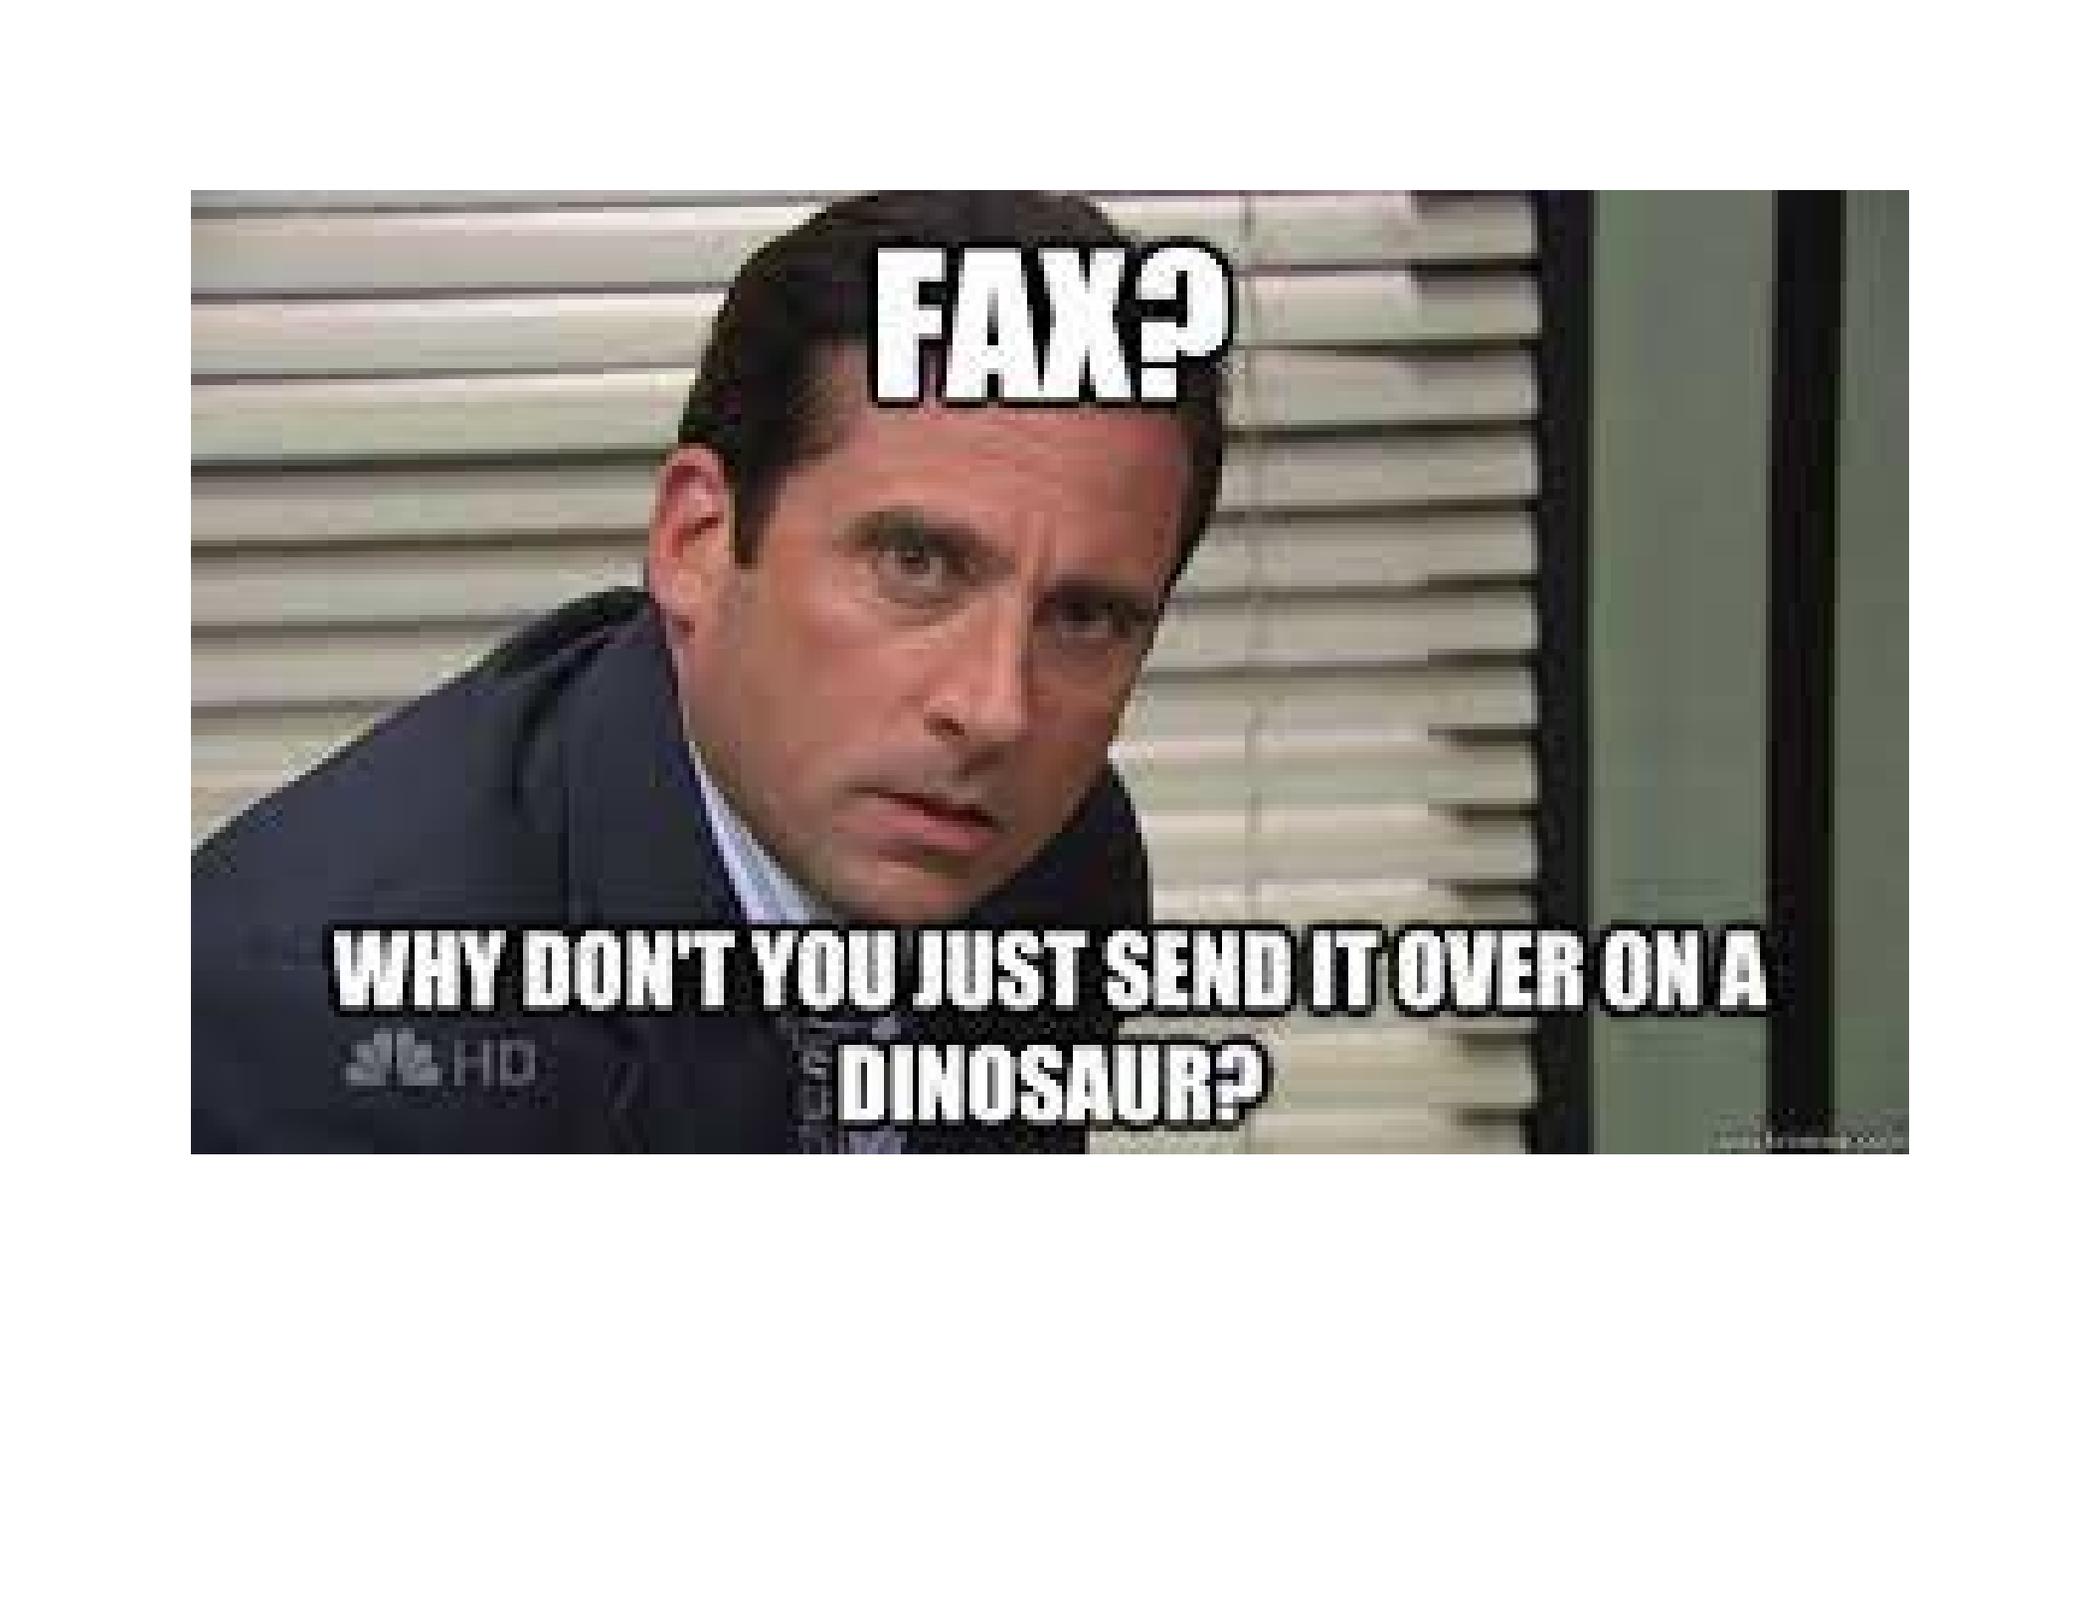

#### IV. Copying

On the machine, select the “Copy” function ensuring that it has a blue light. Either place the paper on the scanner glass or the Automatic Document Feeder and press the green start button.

V. Fax

Faxing is not set up.

A meme featuring a close-up of Steve Carell as Michael Scott from the TV show 'The Office'. He has a confused and slightly exasperated expression, looking slightly to the right. The background consists of horizontal window blinds. The text 'FAX?' is superimposed in large, white, bold, sans-serif font with a black outline at the top of his forehead. At the bottom, another line of text reads 'WHY DON'T YOU JUST SEND IT OVER ON A DINOSAUR?' in the same font style. A small 'HD' logo is visible in the bottom left corner of the image.

**FAX?**
